**One Hundred Years of Solitude** Gabriel García Márquez, 2022-10-11 Netflix's series adaptation of One Hundred Years of Solitude premieres December 11, 2024! One of the twentieth century's enduring works, One Hundred Years of Solitude is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Alternately reverential and comical, One Hundred Years of Solitude weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.

**The Leatherback Turtle** James R. Spotila, Pilar Santidrián Tomillo, 2015-10-30 The most comprehensive book ever written on leatherback sea turtles. Weighing as much as 2,000 pounds and reaching lengths of over seven feet, leatherback turtles are the world's largest reptile. These unusual sea turtles have a thick, pliable shell that helps them to withstand great depths—they can swim more than one thousand meters below the surface in search of food. And what food source sustains these goliaths? Their diet consists almost exclusively of jellyfish, a meal they crisscross the oceans to find. Leatherbacks have been declining in recent decades, and some predict they will be gone by the end of this century. Why? Because of two primary factors: human redevelopment of nesting beaches and commercial fishing. There are only twenty-nine index beaches in the world where these turtles nest, and there is immense pressure to develop most of them into homes or resorts. At the same time, longline and gill net fisheries continue to overwhelm waters frequented by leatherbacks. In *The Leatherback Turtle*, James R. Spotila and Pilar Santidrián Tomillo bring together the world's leading experts to produce a volume that reveals the biology of the leatherback while putting a spotlight on the conservation problems and solutions related to the species. The book leaves us with options: embark on the conservation strategy laid out within its pages and save one of nature's most splendid creations, or watch yet another magnificent species disappear.

International Recognition Warren Pez , Daniel E. Rojas, 2021-12 International recognition, which lies at the heart of many contemporary political conflicts (Nagorno-Karabakh, Ukraine, ISIS, Palestine, Libya to name a few), has generally been discussed from the point of view of international law and only as concerning modern history. This volume adopts a much broader perspective by tracing the history of recognition back to the ancient world. It approaches the issue of recognition as a political process where law features as only one of several resources at the disposal of the decision makers. The contributors explore the pivotal moments in the history of recognition on both a European and a world scale: the making of the Roman and Carolingian empires, the Peace of Westphalia, Latin American independence, decolonization, and the Cold War. The comparison brings to light the continuities and discontinuities of recognition within and beyond the historical limits of the modern state.

**I, Rigoberta Mench ** Rigoberta Mench , 2024-11-12 A Nobel Peace Prize winner reflects on poverty, injustice, and the struggles of Mayan communities in Guatemala, offering “a fascinating and moving description of the culture of an entire people” (The Times) Now a global bestseller, the remarkable life of Rigoberta Mench , a Guatemalan peasant woman, reflects on the experiences common to many Indian communities in Latin America. Mench  suffered gross injustice and hardship in her early life: her brother, father and mother were murdered by the Guatemalan military. She learned Spanish and turned to catechistic work as an expression of political revolt as well as religious commitment. Mench  vividly conveys the traditional beliefs of her community and her personal response to feminist and socialist ideas. Above all, these pages are illuminated by the enduring courage and passionate sense of justice of an extraordinary woman.

*Paradoxes of Utopia* Juan Suriano, 2010 A social history of revolutionary ideas and lifestyles.

**Regionalism After Regionalisation** Frans Schrijver, 2006 Concentrating on three countries, Spain, France and the United Kingdom, and three regional case studies of Galicia, Brittany and Wales, this book offers an analysis of the development of political regionalism after regionalisation.

The Royal Palace of Seville Juan Carlos Hern ndez N nuez, Alfredo Jos  Morales, 1999 As one of Europe's oldest preserved royal palaces, the Royal Palace of Seville was built between 844 and 1350. While commissioned by a Christian king, the palace was designed and constructed by Moorish workers and is the finest example of Mudejar architecture in Spain. After a brief historical survey, the author leads a tour of the palace, concluding in the Alcazar garden. The entertaining text and lush color photographs capture the exoticism of the architecture and decoration in Spain during this period.

**Women Artists in All Ages and Countries** Elizabeth Fries Ellet, 1859

**Cockfight** MARIA. FERNANDA AMPUERO, 2021-01-21 In lucid and compelling prose, Ampuero sheds light on the hidden aspects of the home: the grotesque realities of family, coming of age, religion, and class struggle. A family's maids witness a horrible cycle of abuse, a girl is auctioned off by a gang of criminals, and two sisters find themselves at the mercy of their

spiteful brother. With violence masquerading as love, characters spend their lives trapped re-enacting their past traumas. Heralding a brutal and singular new voice, *Cockfight* explores the power of the home to both create and destroy those within it.

**The City of Women** Ruth Landes,1994 This book is the landmark study of candomblé, the Afro-Brazilian religion of Bahia, Brazil.

Religious Encounter and the Making of the Yoruba John David Yeadon Peel,J. D. Y. Peel,2003-02-21 Peel is by training an anthropologist, but one possessed of an acute historical sensibility. Indeed, this magnificent book achieves a degree of analytical verve rare in either discipline. —History Today [T]his is scholarship of the highest quality. . . . Peel lifts the Yoruba past to a dimension of comparative seriousness that no one else has managed. . . . The book teems with ideas . . . about big and compelling matters of very wide interest. —T. C. McCaskie In this magisterial book, J. D. Y. Peel contends that it is through their encounter with Christian missions in the mid-19th century that the Yoruba came to know themselves as a distinctive people. Peel's detailed study of the encounter is based on the rich archives of the Anglican Church Missionary Society, which contain the journals written by the African agents of mission, who, as the first generation of literate Yoruba, played a key role in shaping modern Yoruba consciousness. This distinguished book pays special attention to the experiences of ordinary men and women and shows how the process of Christian conversion transformed Christianity into something more deeply Yoruba.

**Latin Eugenics in Comparative Perspective** Marius Turda,Aaron Gillette,2014-10-23 Latin eugenics was a scientific, cultural and political programme designed to biologically empower modern European and American nations once commonly described as 'Latin', sharing genealogical, linguistic, religious, and cultural origins. Latin Eugenics in Comparative Perspective offers a comparative, nuanced approach to eugenics as a scientific programme as well as a cultural and political phenomenon. It examines the commonalities of eugenics in 'Latin' Europe and Latin America. As a program to achieve the social and political goals of modern welfare systems, Latin eugenics strongly influenced the complex relationship of the state to the individual. Drawing on a wide range of primary and secondary sources in many languages, this book offers the first history of Latin eugenics in Europe and the Americas.

Superman Vol. 4: Psi-War Scott Lobdell,Mike Johnson,2014-08-12 The Queen of H.I.V.E.(Holistically Intergrated Viral Equality) has placed the telepathic Dr. Hector Hammond's thoughts deep into the recesses of Superman's mind in an effort to control the Man of Steel. The merging of Hammond and the Superman's minds brings about vivid hallucinations that cause Superman to experience different realities and view longtime allies as potential threats. With the Man of Steel unable to tell what is real and what is a hallucination, it is up to Orion of the New Gods and Wonder Woman to release the H.I.V.E.'s grip on Superman and save the universe from succumbing to power of the H.I.V.E.

There has been considerable research and policy effort surrounding NTFPs over the last two and half decades. The book explores the evolution of sentiments regarding the potential of NTFPs in promoting options for sustainable multi-purpose forest management, income generation and poverty alleviation. **Two Sides of One River** António Medeiros, 2013 Galicia, the region in the northwest corner of Spain contiguous with Portugal, is officially known as the Autonomous Community of Galicia. It is recognized as one of the historical nationalities making up the Spanish state, as legitimized by the Spanish Constitution of 1978. Although Galicia and Portugal belong to different states, there are frequent allusions to their similarities. This study compares topographic and ethnographic descriptions of Galicia and Portugal from the nineteenth and twentieth centuries to understand how the integration into different states and the existence of nationalist discourses resulted in marked differences in the historical representations of these two bordering regions of the Iberian Peninsula. The author explores the role of the imagination in creating a sense, over the last century and a half, of the national being and becoming of these two related peoples.

**Festivals, Special Events, and Tourism** Donald Getz, 1990 Festivals, Special Events, and Tourism examines what makes some festivals and events truly special, and how their unique ambience can powerfully motivate travel, animate otherwise static attractions, create positive images of destinations, act as a catalyst for development, and mobilize community tourism planning. -page 1.
