Seth Speaks (A Seth Book) Jane Roberts,2012-04-01 One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. Having withstood the test of time, it is still considered one of the most dynamic and brilliant maps of inner reality available today. “The Seth books present an alternate map of reality with a new diagram of the psyche . . . useful to all explorers of consciousness.” — Deepak Chopra “Seth was one of my first

The amazing in-depth information in the Seth books is as relevant today as it was in the early '70s when Jane Roberts first channeled this material.” — Louise Hay

The Illusion of Conscious Will Daniel M. Wegner, 2003-08-11 A novel contribution to the age-old debate about free will versus determinism. Do we consciously cause our actions, or do they happen to us? Philosophers, psychologists, neuroscientists, theologians, and lawyers have long debated the existence of free will versus determinism. In this book Daniel Wegner offers a novel understanding of the issue. Like actions, he argues, the feeling of conscious will is created by the mind and brain. Yet if psychological and neural mechanisms are responsible for all human behavior, how could we have conscious will? The feeling of conscious will, Wegner shows, helps us to appreciate and remember our authorship of the things our minds and bodies do. Yes, we feel that we consciously will our actions, Wegner says, but at the same time, our actions happen to us. Although conscious will is an illusion, it serves as a guide to understanding ourselves and to developing a sense of responsibility and morality. Approaching conscious will as a topic of psychological study, Wegner examines the issue from a variety of angles. He looks at illusions of the will—those cases where people feel that they are willing an act that they are not doing or, conversely, are not willing an act that they in fact are doing. He explores conscious will in hypnosis, Ouija board spelling, automatic writing, and facilitated communication, as well as in such phenomena as spirit possession, dissociative identity disorder, and trance channeling. The result is a book that sidesteps endless debates to focus, more fruitfully, on the impact on our lives of the illusion of conscious will.

The Great Mother Erich Neumann, 1963 Neumann examines how the Feminine has been experienced and expressed in many cultures from prehistory to our own time. Appearing as goddess and demon, gate and pillar, garden and tree, hovering sky and containing vessel, the Feminine is seen as an essential factor in the dialectical relation of individual consciousness, symbolized by the child, to the ungraspable matrix, symbolized by the Great Mother.

Quotes from the Edge of Nowhere Gary Lewis LeRoy, MD, 2020-12-03 Quotes from the Edge of Nowhere: The Art of Noticing Unnoticed Wisdom By: Gary Lewis LeRoy, MD. This book is about a twenty- to forty-year life journey. It recounts ten randomly selected personal quotes, saved in a cookie jar, and creates a life-learning narrative using the origin of the quote. Each story evolves by looking back at the signposts and hints of wisdom sprinkled along the author's life path. Many of these events whispered subtle quotes of wisdom to his conscience. It was up to the author to make sense of them or proceed on life's path, having missed an opportunity to obtain wisdom. All of us are on a similar journey cluttered with obstacles of the human condition. It is the author's desire that this little book of hope and inspiration will serve as a torchlight to illuminate the way on the reader's journey toward a more joyful life—one filled with knowledge, truth, and wisdom.

Mind Stuck Quotes Muqsit Chishti,2020-10-22 A book of first of its kind. It is a composition of mysterious, paradoxical and puzzling quotations which play with the mind of the reader and compels the reader to think about them while delivering a strong message about life. Let us go on a journey to see how simple words can create something which tangles our mind

and challenges it to solve the hidden riddle, within each of these quotations. Muqsit Chishti is a Kashmir based Indianised Arabian-a native of Saudi Arabia who later on moved to Kashmir, India. As a person with a Quranic first name and a Sufi last name, he has a mystique blend of arcaneness & obscurity with shades of calmness which reflect in his overall personality. Whenever people meet him, they are introduced to a phonetic challenge in terms of correctly pronouncing his name. He realised that if the easiest part of his life is so difficult for people to figure out, he should not disappoint them by doing something about the other part. The book Mind Stuck Quotes is a dare that he throws to his audience. Muqsit in Arabic is attributed to justice and it is only fair to understand the author through the contents of this book rather by his name. An introduction, offered to someone by giving in your name, makes your identity feels bad because then you're recognized only by your name as who you are than what you actually are...Muqsit Chishti.

Quotes for Misanthropes Bruce Ladd Gary, 2014-02 Humans have always been interested in identifying and exposing hypocrisy. Many collections of quotations have been written, and many of the entries are clever treatments of human hypocrisy. The term human hypocrisy is redundant, for only humans are hypocritical. Indeed, one theory for the evolution of language suggests that the capacity for speech was driven by the payoffs for misleading others. Since hypocrisy is unique to humans, and since it appears to be a human universal (found in all cultures), I have coined the term Homo Hypocritus as a mocking reference to our species. Misanthropes are people who are profoundly disappointed in the shortcomings of human nature. We are unwilling to surrender hope for the day when humans will remake themselves to be worthy of the lofty opinion they have always had for themselves. Since misanthropes wish for human improvement, it is natural for them to be keen on identifying things needing improvement. Many of the quotations within these pages are material for some future project at converting Homo hypocritus to Homo sapiens. This book consists of two parts. The first 80% is a collection of quotes from the literature that capture the essential hypocritical core of human nature, and the remainder of the book consists of the author's attempts at pithy one-liners. Most of the quotations in this book are politically correct - which is to say that some are not. The author does not wish to offend, and is confident that almost anyone will enjoy this collection of quotes.
