Planet SUN Secrets Saket Shah,2020-01-05 The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very God 'Bhaskar' creates nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi'- the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with her the sun god took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which symbolise the twelve months. The wheel has six circumferences, which symbolize the six seasons, and three 'Naves' which is symbolise of the

three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities' move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya' (pouring water facing the sun in the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

Planet Jupiter Secrets Saket Shah, 2020-01-05 Jupiter is the guardian of the thinking person, the ruler of higher intellect, the embodiment of lady luck, and signifies spiritual wisdom. Jupiter represents your ideology in life. And in spiritual

terms, it rules over faith, religion, philosophy, and the search for the ultimate truth of life. Jupiter governs your intrinsic curiosity to find the answers, and explore the world in the process, thus foreign travel comes under the domain of this planet. Jupiter in Vedic astrology is considered to be the most benevolent of all planets, thus naturally associated with luck, fortune and wealth. Its benefic presence can turn rags to riches. While Saturn is the teacher, Jupiter is more of a classmate that helps to grow and sees how you flourish and tread on the right path. It is a judge who assures that you do not forget your values in the process. While this benefic planet bestows us with wisdom and wealth, at its worst, it can surrender to lethargy, sloth, and indulgence.

Encyclopedia of Vedic Astrology: Wealth & Prosperity Shanker Adawal, The interest of every individual to know his financial status has inspired me to write this book. This is a part of the Encyclopedia captioned as 'Wealth & Prosperity'. It is the seventh book in the encyclopedia series. We have in this book tried to explain the combinations of wealth with an eye for the reader to understand the principles that decipher the quantum of wealth. In the beginning we have given a large number of examples which show the combinations that are instrumental in giving wealth. We have also outlined the combinations that generate wealth. From the third chapter onwards we embark upon analyzing a horoscope on the promise it holds for wealth and prosperity. It starts with explaining the impact of Signs and houses on their propensity as wealth providers. In basic predictive astrology the ascendant, second, fifth, ninth and eleventh house play critical role in predicting the wealth quantum. There are six chapters we have dedicated in the book explaining the impact of planets in houses and the placement of lords of ascendant, second, fifth, ninth and eleventh in different houses. In details the results have been written. This is the first basic principle that has to be understood and has been dealt at length.
