**Priya Joshi**

In Another Country Priya Joshi, 2002-04-24 In a work of stunning archival recovery and interpretive virtuosity, Priya Joshi illuminates the cultural work performed by two kinds of English novels in India during the colonial and postcolonial periods. Spanning the nineteenth and twentieth centuries, readers and writers, empire and nation, consumption and production, *In Another Country* vividly explores a process by which first readers and then writers of the English novel indigenized the once imperial form and put it to their own uses. Asking what nineteenth-century Indian readers chose to read and why, Joshi shows how these readers transformed the literary and cultural influences of empire. By subsequently analyzing the eventual rise of the English novel in India, she further demonstrates how Indian novelists, from Krupa Sathianadhan to Salman Rushdie, took an alien form in an alien language and used it to address local needs. Taken together in this manner, reading and writing reveal the complex ways in which culture is continually translated and transformed in a colonial and postcolonial context.

**The Sexual Life of English** Shefali Chandra, 2012-05-02 Chandra explores how English became an Indian language during the colonial period of 1850-1930. Using archival and literary sources, she focuses on elite language education for girls and women.

**Translating India** Rita Kothari, 2005-12-20 Post nineteen eighties, what made English translation from Indian languages a culturally desirable activity? This question leads Kothari to examine the changing cultural universe of urban, English-speaking middle class in India. She examines in detail readership patterns, attitudes to English, and the course of translation studies in general. The comfort with which English is used with an Indian language as in *Yeh Dil Maange More* or *Hungry Kya* reflects a sense of familiarity that has been made with English. From this broader context of bilingualism in the first part of the book, Kothari moves on to the state of Gujarat. Taking up the case of Gujarati, she demonstrates the micro issues involved in translations and politics of language. Kothari asks new questions in translation studies and makes the production, reception and marketability of English translation her chief concern. *Translating India* brings a multidisciplinary perspective to literature and translation, authenticity and representation.

**Indian People and Society** Pramod K. Nayar, 2022-02-15 India and the subcontinent stimulated the curiosity of the British who came to India as traders. Each aspect of life in India - its people, customs, geography, climate, fauna and flora - was documented by British travelers, traders, administrators, soldiers to make sense to the European mind. As they 'discovered' India and occupied it, they also attempted to 'civilise' the natives. The present volumes focus on select aspects of the imperial archives: the accounts of "discovery" and exploration - fauna and flora, geography, climate - the people of the subcontinent, English domesticity and social life in the subcontinent, the wars and skirmishes - including the "Mutiny" of 1857-58 - and the "civilisational mission". Volume 2 *Indian People and Society* includes English studies of Indian languages, people and communities, and the social order. The landscape provided, understandably, endless prospects of the survey and the map. But the British were also keen on documenting the people. In the studies generated for 400 years, the British documented castes, religions, education, economies, professions, cultural practices, states of health and sickness, and other domains. With projects like the Census and the People of India, the land's inhabitants were classified and, eventually, also typecast and contributed to the colonial discourse about the native/colonised.

**Thugs and Dacoits**, 2022-10-30 The volumes focus on select aspects of the British imperial archives: the accounts of [discovery] and exploration [fauna and flora, geography, climate] the people of the subcontinent, English domesticity and social life in the subcontinent, the wars and skirmishes [including the [Mutiny] of 1857-58] and the [civilisational mission]. This volume documents how the practice of thuggee was viewed by the British before: as if it symbolized everything that was wrong with the social order in India. The texts collected here are accounts of how the British 'discovered'

the subcontinent. The narrative of discovery, with the freshness of the 'new', was couched very often in the rhetoric of wonder. But this sense of wonder, even astonishment in some cases at the variety, magnitude and sheer difference of the land and its people, was tempered over time with a narrative of exploration.

*Domesticity, the Social Scene and Leisure* Pramod K. Nayar, 2022-02-15 India and the subcontinent stimulated the curiosity of the British who came to India as traders. Each aspect of life in India - its people, customs, geography, climate, fauna and flora - was documented by British travelers, traders, administrators, soldiers to make sense to the European mind. As they 'discovered' India and occupied it, they also attempted to 'civilise' the natives. The present volumes focus on select aspects of the imperial archives: the accounts of "discovery" and exploration - fauna and flora, geography, climate - the people of the subcontinent, English domesticity and social life in the subcontinent, the wars and skirmishes - including the "Mutiny" of 1857-58 - and the "civilisational mission". Volume 3 *Domesticity, the Social Scene and Leisure* shifts the focus to the English home and social life. Domesticity, often a fraught exercise for the 'mehsahib', carried on with the assistance of a retinue of Indian servants, meant tackling corruption, inefficiency and the all-pervasive social hierarchy of the colonised. Advice books were produced to aid the mehsahib for this purpose. The Steel-Gardiner guide to housekeeping, which was a bestseller in its day and is excerpted here, was indispensable in the length and breadth of its coverage, from the care of children to the right wages for the servants. Diver's text, likewise, also demonstrates how running the home was difficult and has a resonance with the (male) dominion of running the Empire. These texts exhorted the English woman to practice thrift, control and managerial skills, to be aware of the natives' penchant for dirt and indolence and the caste-community dynamics that inform the servant-class.

**The 'Civilisational Mission'** Pramod K. Nayar, 2022-02-15 India and the subcontinent stimulated the curiosity of the British who came to India as traders. Each aspect of life in India - its people, customs, geography, climate, fauna and flora - was documented by British travelers, traders, administrators, soldiers to make sense to the European mind. As they 'discovered' India and occupied it, they also attempted to 'civilise' the natives. The present volumes focus on select aspects of the imperial archives: the accounts of "discovery" and exploration - fauna and flora, geography, climate - the people of the subcontinent, English domesticity and social life in the subcontinent, the wars and skirmishes - including the "Mutiny" of 1857-58 - and the "civilisational mission". Volume 5 *The 'Civilisational Mission'* documents England's social reform and other efforts at 'improving' the colonised. The British, like other Europeans in Africa and Asian colonies, explained, defended and promoted their presence and action by presenting themselves in the role of the civilisers.

*'Discoveries', Explorations and the Imperial Survey* Pramod K. Nayar, 2022-02-15 India and the subcontinent stimulated the curiosity of the British who came to India as traders. Each aspect of life in India - its people, customs, geography, climate, fauna and flora - was documented by British travelers, traders, administrators, soldiers to make sense to the European mind.

Volume 1 'Discoveries', Explorations and the Imperial Survey consists of documents that deal with England's discovery of India, its exploration and mapping of the subcontinent. The texts collected here are accounts of how the British 'discovered' the subcontinent. The narrative of discovery, with the freshness of the 'new', was couched very often in the rhetoric of wonder. But this sense of wonder, even astonishment in some cases at the variety, magnitude and sheer difference of the land and its people, was tempered over time with a narrative of exploration. If the 'discovery' moment had a surprise, awe and a sense of uncertainty at facing something totally new-which, in many ways, the subcontinent was-in the early writings of the seventeenth century, the tone, emphasis and attitude shifts later on.

*Rebellions and Wars* Pramod K. Nayar, 2022-02-15 India and the subcontinent stimulated the curiosity of the British who came to India as traders. Each aspect of life in India - its people, customs, geography, climate, fauna and flora - was documented by British travelers, traders, administrators, soldiers to make sense to the European mind. Volume 4 *Rebellions and Wars* is a collection of accounts of a very different British life in India: as prisoners, under siege and in conditions of war. The British ascendancy in India did not proceed smoothly, and colonisation was always a militarised zone of interest, action and process.

British Empire and the Literature of Rebellion Sheshalatha Reddy, 2017-10-14 This book examines imperial and nationalist discourses surrounding three contemporaneous and unsuccessful mid-nineteenth-century colonial uprisings against the British Empire: the Sepoy Rebellion (1857) in India, the Morant Bay Rebellion (1865) in Jamaica, and the Fenian Rebellion (1867) in Ireland. In reading these three mid-century rebellions as flashpoints for the varying yet parallel attempts by imperialist colonialists, nationalists, and socialists to transform the oppressed colonized worker (the subjected laborer) into one whose identity is created and limited by labor (a laboring subject), this book also tracks varying modes of resistance to those attempts in all three colonies. In drawing from a range of historical, literary, and visual sources outside the borders of the Anglophone literary canon, this book contends that these texts not only serve as points of engagements with the rebellions but also constitute an archive of oppression and resistance.

**England Re-Oriented** Humberto Garcia, 2020-11-19 Between 1750 and 1857, westward-bound Central and South Asian

travelers connected imperial Britain to Persian Indo-Eurasia by performing queer masculinities.

**The Empire Writes Back** Bill Ashcroft, Gareth Griffiths, Helen Tiffin, 2003-12-16 The experience of colonization and the challenges of a post-colonial world have produced an explosion of new writing in English. This diverse and powerful body of literature has established a specific practice of post-colonial writing in cultures as various as India, Australia, the West Indies and Canada, and has challenged both the traditional canon and dominant ideas of literature and culture. *The Empire Writes Back* was the first major theoretical account of a wide range of post-colonial texts and their relation to the larger issues of post-colonial culture, and remains one of the most significant works published in this field. The authors, three leading figures in post-colonial studies, open up debates about the interrelationships of post-colonial literatures, investigate the powerful forces acting on language in the post-colonial text, and show how these texts constitute a radical critique of Eurocentric notions of literature and language. This book is brilliant not only for its incisive analysis, but for its accessibility for readers new to the field. Now with an additional chapter and an updated bibliography, *The Empire Writes Back* is essential for contemporary post-colonial studies.

**The Late Modernist Novel** Seo Hee Im, 2022-06-09 *The Late Modernist Novel* explores how the novel reinvented itself for a Modernist age, a world riven by war and capitalist expansion. Seo Hee Im argues that the Anglophone novel first had to disassociate itself from the modern nation-state and, by extension, national history, which had anchored the genre from its very inception. Existing studies of modernism show how the novel responded to the crisis in the national idea. Polyglot high modernists experimented with cosmopolitanism and multilingualism on the level of style, while the late modernists retreated to a literary nativism. This book explores a younger generation of writers that incorporated empirical structures as theme and form to expand the genre beyond the nation-state.

**Secularism in the Postcolonial Indian Novel** Neelam Srivastava, 2007-10 First Published in 2007. Routledge is an imprint of Taylor & Francis, an informa company.

**Redefining Translation and Interpretation in Cultural Evolution** Seel, Olaf Immanuel, 2017-10-31 Culture has a significant influence on the emerging trends in translation and interpretation. By studying language from a diverse perspective, deeper insights and understanding can be gained. *Redefining Translation and Interpretation in Cultural Evolution* is a pivotal reference source for the latest scholarly research on culture-oriented translation and interpretation studies in the contemporary globalized society. Featuring coverage on a range of topics such as sociopolitical factors, gender considerations, and intercultural communication, this book is ideally designed for linguistics, educators, researchers, academics, professionals, and students interested in cultural discourse in translation studies.

*Anglophone Indian Women Writers, 1870-1920* Ellen Brinks, 2016-04-15 The result of extensive archival recovery work, Ellen Brinks's study fills a significant gap in our understanding of women's literary history of the South Asian subcontinent

under colonialism and of Indian women's contributions and responses to developing cultural and political nationalism. As Brinks shows, the invisibility of Anglophone Indian women writers cannot be explained simply as a matter of colonial marginalization or as a function of dominant theoretical approaches that reduce Indian women to the status of figures or tropes. The received narrative that British imperialism in India was perpetuated with little cultural contact between the colonizers and the colonized population is complicated by writers such as Toru Dutt, Krupabai Sathianadhan, Pandita Ramabai, Cornelia Sorabji, and Sarojini Naidu. All five women found large audiences for their literary works in India and in Great Britain, and all five were also deeply rooted in and connected to both South Asian and Western cultures. Their works created new zones of cultural contact and exchange that challenge postcolonial theory's tendencies towards abstract notions of the colonized women as passive and of English as a de-facto instrument of cultural domination. Brinks's close readings of these texts suggest new ways of reading a range of issues central to postcolonial studies: the relationship of colonized women to the metropolitan (literary) culture; Indian and English women's separate and joint engagements in reformist and nationalist struggles; the 'translatability' of culture; the articulation strategies and complex negotiations of self-identification of Anglophone Indian women writers; and the significance and place of cultural difference.

**Re-Orientalism and South Asian Identity Politics** Lisa Lau, Ana Cristina Mendes, 2012-05-23 Orientalism refers to the imitation of aspects of Eastern cultures in the West, and was devised in order to have authority over the Orient. The concept of Re-Orientalism maintains the divide between the Orient and the West. However, where Orientalism is based on how the West constructs the East, Re-Orientalism is grounded on how the cultural East comes to terms with an orientalised East. This book explores various new forms, objects and modes of circulation that sustain this renovated form of Orientalism in South Asian culture. The contributors identify and engage with recent debates about postcolonial South Asian identity politics, discussing a range of different texts and films such as *The White Tiger*, *Bride & Prejudice* and *Kama Sutra: A Tale of Love*. Providing new theoretical insights from the areas of literature, film studies and cultural and discourse analysis, this book is an stimulating read for students and scholars interested in South Asian culture, postcolonial studies and identity politics.

**The Spread of Novels** Mary Helen McMurrin, 2009-08-24 Fiction has always been in a state of transformation and circulation: how does this history of mobility inform the emergence of the novel? *The Spread of Novels* explores the active movements of English and French fiction in the eighteenth century and argues that the new literary form of the novel was the result of a shift in translation. Demonstrating that translation was both the cause and means by which the novel attained success, Mary Helen McMurrin shows how this period was a watershed in translation history, signaling the end of a premodern system of translation and the advent of modern literary exchange. McMurrin illuminates aspects of prose fiction translation history, including the radical revision of fiction's origins from that of cross-cultural transfer to one rooted by nation; the contradictory pressures of the book trade, which relied on translators to energize the market, despite the

increasing devaluation of their labor; and the dynamic role played by prose fiction translation in Anglo-French relations across the Channel and in the New World. McMurrin examines French and British novels, as well as fiction that circulated in colonial North America, and she considers primary source materials by writers as varied as Frances Brooke, Daniel Defoe, Samuel Richardson, and Françoise Graffigny. *The Spread of Novels* reassesses the novel's embodiment of modernity and individualism, discloses the novel's surprisingly unmodern characteristics, and recasts the genre's rise as part of a burgeoning vernacular cosmopolitanism.
