*Feedback For Learning* Susan Askew,2004-11-23 Teachers may be surrounded by feedback and involved in it every day,

The book spans three major areas which affect all teachers: \*young people's learning \*teachers' learning \*organisational learning. The authors critically examine the assumption that feedback necessarily has positive learning outcomes and describe models and practices which are more likely to result in effective learning at the individual, group and organisational level.

**Values in Education and Education in Values** Mark Halstead, Monica J. Taylor, 2005-10-26 An investigation into how schools can influence the developing values of young people is given in this book. Secondly, they focus on the values of pupils and schools, examining school aims and mission statements, the formal curriculum, school ethos and assessment of children's development.; Insights are provided with guidance on how values may be most effectively incorporated into the activities of the schools. This book is intended to be of use as a practical and informative guide to all those involved in primary and secondary education and those interested in values education generally.
