

Rush Hour 2 Cast Members

Brendan G. Carr

Running the Show Liz Gill, 2012 Whether it's a crew of 200 shooting a cast of thousands on horseback, or a crew of 12 filming one person in a room, each and every successful movie production requires a strong first assistant director at its helm. This book lays out what it takes to be a successful first assistant director.

On the Aisle, Volume 2: Film Reviews by Philip Morency,
TV Guide, 2007

The Comedy Studies Reader Nick Marx, Matt Sienkiewicz, 2018-03-01 From classical Hollywood film comedies to sitcoms, recent political satire, and the developing world of online comedy culture, comedy has been a mainstay of the American media landscape for decades. Recognizing that scholars and students need an authoritative collection of comedy studies that gathers both foundational and cutting-edge work, Nick Marx and Matt Sienkiewicz have assembled *The Comedy Studies Reader*. This anthology brings together classic articles, more recent works, and original essays that consider a variety of themes and approaches for studying comedic media—the carnivalesque, comedy mechanics and absurdity, psychoanalysis, irony, genre, race and ethnicity, gender and sexuality, and nation and globalization. The authors range from iconic theorists, such as Mikhail Bakhtin, Sigmund Freud, and Linda Hutcheon, to the leading senior and emerging scholars of today. As a whole, the volume traces two parallel trends in the evolution of the field—first, comedy's development into myriad subgenres, formats, and discourses, a tendency that has led many popular commentators to characterize the present as a “comedy zeitgeist”; and second, comedy studies' new focus on the ways in which comedy increasingly circulates in “serious” discursive realms, including politics, economics, race, gender, and cultural power.

Introduction to Ke Huy Quan Gilad James, PhD, Ke Huy Quan, also known as Jonathan Ke Quan, is a Vietnamese-American actor, stunt coordinator, and director. He was born on August 20, 1971, in Saigon, South Vietnam, but his family fled to the United States after the Fall of Saigon when he was only eight years old. Growing up, Quan was known for being a wunderkind child actor, famous for his roles in Hollywood blockbusters like *The Goonies* and *Indiana Jones and the Temple of the Doom*. Despite his initial success in the entertainment industry, Quan decided to step away from acting after struggling with Hollywood's expectations and bias towards Asian actors. Instead, he went to school for cinematography and later worked as a stunt coordinator for major films like *X-Men* and *The One*. In recent years, Quan has directed his focus towards producing and directing his own independent films, like the zombie comedy film *Spaced Invaders*. Overall, Ke Huy Quan has had a long and diverse career in the entertainment industry and continues to contribute to film and television through his work behind the camera.

Vibe ,2002

Billboard ,1948-07-03 In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Tandem Dances Julia M. Ritter,2021 *Tandem Dances: Choreographing Immersive Performance* is the first book to propose dance and choreography as frames through which to examine immersive theatre, more broadly known as immersive performance. Indicative of a larger renaissance in storytelling during the digital age, immersive performance is influenced by emerging computer technologies, such as virtual reality and advances in video-gaming, as well as increased interest in new forms of experiential entertainment. The idea of tandemness -- suggesting motion that is achieved by two bodies working together and acting in conjunction with one another -- is critical throughout the book. Author Julia M. Ritter persuasively argues that practitioners of immersive productions deploy choreography as a structural mechanism to mobilize the bodies of cast and audience members to perform together. Furthermore, choreography is contextualized as an effective tool for facilitating audience participation towards immersion as an affect. Through a focus on Western dance histories, theories, and practices, Ritter's close choreographic analysis of immersive productions, along with unique insights from choreographers, directors, performers, and spectators, enlivens discourse across dramaturgy, kinesthesia, affect, and co-authorship. By foregrounding the choreographic in order to examine its specific impact on the evolution of immersive theater, *Tandem*

Dances explores choreography as a discursive domain that is fundamentally related to creative practice, agendas of power and control, and concomitant issues of freedom and agency.

Doug Pratt's DVD Douglas Pratt,2005 Doug Pratt is the leading reviewer of DVDs, a contributor to Rolling Stone, and editor and publisher of The DVD-Laserdisc Newsletter. Choice says, Pratt's writing is amusing, comprehensive and informative. Rolling Stone calls this two-volume set, the gold standard on all things DVD. The set is unique in giving space to non-feature-film DVDs, the fastest growing area of the market. Not just a reference book, it's also good reading.

The Televiewing Audience Robert Abelman,David J. Atkin,2011 This book won the Ohio Professional Writer's, Inc. 2014 Communication Competition Award Now in its second edition, The Televiewing Audience is a user's guide for the only household appliance that doesn't come with one. Watching television seems relatively effortless - it is, after all, a major form of entertainment in the U.S. and overseas - yet this book argues that there is nothing simple about watching television; it is a learned activity which is in a constant state of revision and upgrading. Now more than ever, televiewing requires the generation and application of critical thinking to guide program selection, inform appreciation, generate greater pleasure, and inspire dialogue after consumption. This book is about becoming a more thoughtful and informed consumer, designed to shatter the anonymity of the televiewer, and to create a sense of community, for we rarely think of ourselves as instrumental in the televiewing experience or think of the experience as a shared event. Designed for courses related to broadcasting, media effects, media literacy, and audience studies, this book provides a comprehensive overview of the ways in which television influences the way we think about ourselves and our culture. It places us center-stage in the extremely complicated, competitive, creative, and costly endeavor that is television.

Mythbusters ,

The Book of all 20 Methodologies to Improve and Profit from Customer Experience and Service Heverton Anunciação,2023-12-04 In the past, medicine worked like this: a patient looked for a doctor who evaluated him carefully. After the evaluation, the doctor said to the patient: Are you willing to abandon everything that has made you sick so far? Only then do I accept to be your doctor. Now, I ask you: Is your company willing to abandon all the bad processes and bad strategies that have given your customers a bad experience? The big problem is that, in many cases, we look for doctors, pharmacists and software resellers and, what they want most, is to recommend medicines and CRM systems for a temporary cure, or imaginary cure to serve the media or advertising. What's wrong with that? It is that in the customer service sector, the side effect is worse than acting directly on the cause of the corporate pains that cause the bad experience to customers. If professionals don't know how to hire and build a long-term strategy, your suppliers will always want you to come back for new software purchases and more software, and not for a permanent cure. The objective of this book is to bring the most widely used and effective standards on the market to serious professionals who really want to embrace and offer excellent

customer service. There is no methodology that will solve everything overnight, but the right methodology will help the company to respond quickly and without repression. As the conclusion, I wrote in this book too a table that help you to identify Why, when and how to use each one of those worldwide methodologies or tools to improve and profit from your customer service. This book is part of the CRM and Customer Experience Trilogy called CX Trilogy which aims to unite the worldwide community of CX, Customer Service, Data Science and CRM professionals. I believe that this union would facilitate the contracting of our sector and profession, as well as identifying the best professionals in the market. The CX Trilogy consists of 3 books and one Dictionary: 1st) 30 Advice from 30 greatest professionals in CRM and customer service in the world 2nd) The Book of all Methodologies and Tools to Improve and Profit from Customer Experience and Service 3rd) Data Science and Business Intelligence - Advice from reputable Data Scientists around the world and plus, the book: The Official Dictionary for Internet, Computer, ERP, CRM, UX, Analytics, Big Data, Customer Experience, Call Center, Digital Marketing and Telecommunication: The Vocabulary of One New Digital World

Simon & Schuster Mega Crossword Puzzle Book #2 John M. Samson,2008-06-17 The classic crossword series returns with 300 never-before-published puzzles! In 1924, Simon & Schuster published its first title, The Cross Word Puzzle Book. Not only was it the publisher's first release, it was the first collection of crossword puzzles ever printed. Today, more than eighty years later, Simon & Schuster's legendary crossword puzzle book series maintains its status as the standard-bearer for cruciverbal excellence. This series continues to provide the most challenging, fresh, and original puzzles on the market. Created by the best contemporary constructors—and edited by top puzzle master John M. Samson—these Thursday to Sunday-size brain breakers offer hours of stimulation for solvers of every level. With hundreds of puzzles in one volume, the Simon & Schuster Mega Crossword Puzzle Book will test the knowledge of solvers everywhere. Can you avoid turning to the answer key? Sharpen your pencils, grit your teeth, and find out!

New York ,2010-03
