Lost Souls Poppy Brite, 2010-11-03 Vampires . . . they ache, they love, they thirst for the forbidden. They are your friends and lovers, and your worst fears. "A major new voice in horror fiction . . . an electric style and no shortage of nerve."—Booklist At a club in Missing Mile, N.C., the children of the night gather, dressed in black, look for acceptance. Among them are Ghost, who sees what others do not; Ann, longing for love; and Jason, whose real name is Nothing, newly awakened to an ancient, deathless truth about his father, and himself. Others are coming to Missing Mile tonight. Three beautiful, hip vagabonds—Molochai, Twig, and the seductive Zillah, whose eyes are as green as limes—are on their own lost journey, slaking their ancient thirst for blood, looking for supple young flesh. They find it in Nothing and Ann, leading them on a mad, illicit road trip south to New Orleans. Over miles of dark highway, Ghost pursues, his powers guiding him on a journey to reach his destiny, to save Ann from her new companions, to save Nothing from himself. . . . "An important and original work . . . a gritty, highly literate blend of brutality and sentiment, hope and despair."—Science Fiction Chronicle

The soldiers of Armageddon are on the march, laying waste to worlds in their passage. An audacious plan could stop them forever, but it carries risks that one starship captain is unwilling to take. For Captain Jean-Luc Picard, defending the future has never been so important, or so personal—and the wrong choice will cost him everything for which he has struggled and suffered. For Captain William Riker, that choice has already been made. Haunted by the memories of those he was forced to leave behind, he must jeopardize all that he has left in a desperate bid to save the Federation. For Captain Ezri Dax, whose impetuous youth is balanced by the wisdom of many lifetimes, the choice is a simple

one: there is no going back—only forward to whatever future awaits them. But for those who, millennia ago, had no choice...this is the hour of their final, inescapable destiny.

Three Lost Souls Woody Lewis,2016-07-04 In his essay *The Talented Tenth*, W.E.B. DuBois called on the best and brightest African-Americans to distinguish themselves from the contamination and death of the Worst, in their own and other races. He encouraged separation from the lower elements of black society, but in the second half of the twentieth century, some of the Tenth's descendants distinguished themselves by disavowing their race entirely. These were not tortured souls who passed for white, but social climbers who acted white to improve their chances. For this group of men and women, the road to assimilation ended in purgatory: they were conditionally accepted by the white race as they turned away from their own. We call them the Tormented Tenth. DuBois died in 1963, several months before JFK's assassination. While the social climate had improved, encouraging African-Americans to celebrate their race, some members of the Tormented Tenth apparently believed that the more you acted white, the better your chances were of fitting in, particularly in the Northeast. If you were smart enough, you could be admitted to an Ivy League college or one of the Seven Sisters, graduate with discreet fanfare and land a job that paid your way into a white neighborhood. Your liberal white friends would accept you socially, sometimes sexually. You could embrace their culture while ignoring your own, but in reality your achievements in business and those sectors of academia and the arts that forgave this behavior would enhance the torment you failed to acknowledge, or even recognize. Here are three stories about such torment. The first concerns an idealist masquerading as a rock musician. Next, we see a writer in Los Angeles, caught in the grasp of what passes for friendship in that town. Finally, an academician tries to sedate her personal demons with professional ambition. Three lost souls: stories of race, class and loneliness. See if you recognize anyone.

Old Souls Thomas Shroder,2011-05-17 A riveting firsthand account of one man's mission to investigate and document some of the most astonishing phenomena of our time—children who speak of past life memory and reincarnation. All across the globe, small children spontaneously speak of previous lives, beg to be taken “home,” pine for mothers and husbands and mistresses from another life, and know things that there seems to be no normal way for them to know. From the moment these children can talk, they speak of people and events from the past—not vague stories of centuries ago, but details of specific, identifiable individuals who may have died just months, weeks, or even hours before the birth of the child in question. For thirty-seven years, Dr. Ian Stevenson has traveled the world from Lebanon to suburban Virginia investigating and documenting more than two thousand of these past life memory cases. Now, his essentially unknown work is being brought to the mainstream by Tom Shroder, the first journalist to have the privilege of accompanying Dr. Stevenson in his fieldwork. Shroder follows Stevenson into the lives of children and families touched by this phenomenon, changing from

skeptic to believer as he comes face-to-face with concrete evidence he cannot discount in this spellbinding and true story.

The Collectors of Lost Souls Warwick Anderson, 2019-08-27 This riveting account of medical detective work traces the story of kuru, a fatal brain disease, and the pioneering scientists who spent decades searching for its cause and cure. Winner, William H. Welch Medal, American Association for the History of Medicine Winner, Ludwik Fleck Prize, Society for Social Studies of Science Winner, General History Award, New South Wales Premier's History Awards When whites first encountered the Fore people in the isolated highlands of colonial New Guinea during the 1940s and 1950s, they found a people in the grip of a bizarre epidemic. Women and children succumbed to muscle weakness, uncontrollable tremors, and

lack of coordination, until death inevitably supervened. Facing extinction, the Fore attributed their unique and terrifying affliction to a particularly malign form of sorcery. In *The Collectors of Lost Souls*, Warwick Anderson tells the story of the resilience of the Fore through this devastating plague, their transformation into modern people, and their compelling attraction for a throng of eccentric and adventurous scientists and anthropologists. Battling competing scientists and the colonial authorities, the brilliant and troubled American doctor D. Carleton Gajdusek determined that the cause of the epidemic—kuru—was a new and mysterious agent of infection, which he called a slow virus (now called a prion). Anthropologists and epidemiologists soon realized that the Fore practice of eating their loved ones after death had spread the slow virus. Though the Fore were never convinced, Gajdusek received the Nobel Prize for his discovery. Now revised and updated, the book includes an extensive new afterword that situates its impact within the fields of science and technology studies and the history of science. Additionally, the author now reflects on his long engagement with the scientists and the people afflicted, describing what has happened to them since the end of kuru. This astonishing story links first-contact encounters in New Guinea with laboratory experiments in Bethesda, Maryland; sorcery with science; cannibalism with compassion; and slow viruses with infectious proteins, reshaping our understanding of what it means to do science.

The Grift Clay Cane,2024-01-30 AN INSTANT NEW YORK TIMES AND USA TODAY BESTSELLER Part history and part cultural analysis, *The Grift* chronicles the nuanced history of Black Republicans. Clay Cane lays out how Black Republicanism has been mangled by opportunists who are apologists for racism. After the Civil War, the pillars of Black Republicanism were a balanced critique of both political parties, civil rights for all Americans, reinventing an economy based on exploitation, and, most importantly, building thriving Black communities. How did Black Republicanism devolve from revolutionaries like Frederick Douglass to the puppets in the Trump era? Whether it's radical conservatives like South Carolina Senator Tim Scott or Supreme Court Justice Clarence Thomas, they are consistently viral news and continuously upholding egregious laws at the expense of their Black brethren. Black faces in high places providing cover for explicit bigotry is one of the greatest threats to the liberation of Black and brown people. By studying these figures and their tactics, Cane exposes the grift and lays out a plan to emancipate our future.

Scandinavian Blue Jack Stevenson,2015-09-02 This book traces the development of modern Scandinavian erotic cinema as it evolved in Denmark and Sweden, from the gentle Swedish naturalist films, starting with *One Summer of Happiness* in the 50s, to the controversial groundbreakers like *I Am Curious (Yellow)* of the 60s and on through to the dawn of Liberated Denmark, where, in the early 70s, the abolition of censorship was celebrated in films like *24 Hours with Ilse* and the production of a number of other films that were blatantly pornographic. Also considered is the influence of these films on other countries, particularly the United States, where Scandinavian erotic cinema helped to set in motion the sexual

revolution and contributed to the end of film censorship.

When the Lords House Closes Delgado,2025-07 This chapter sets the stage for the book and follows a conventional path, increasing the likelihood of reader engagement and that it will influence community practice, which quite frankly, is the bottom-line. I do not subscribe to the axiom of advancing knowledge for the sake of knowledge. I am much too practical! Some readers, however, may beg to differ. Books challenge readers to entertain new ways of thinking on a subject, supplying a rationale for the subject's importance. Books need major time, financial, and intellectual commitment to a subject, bringing heightened expectations and serving as a key motivator for action. Readers have a right to have lofty expectations from a book because of the time invested, and that must be confirmed and met by an author! It is impossible for an author to suspend their experiences and worldviews from the task of writing a 300 or so page document. The more an author uplifts their values, motivations, biases, limitations, and experiences (both good and bad), it allows readers to have a better grasp of why a topic is framed in a particular manner. This stance ascends in significance in this journey and more so when it covers religion. Readers may ask about my personal stands on religion, religious beliefs, and houses of worship. More specifically, although raised Catholic up to my late teenage years, I am a member of a Church of Christ congregation because of the values that this church embraces. This church, too, is facing its challenges with dwindling congregations and closures. Suffice it to say, I respect people's religious/spiritual beliefs that are different from mine, although I am not a very religious person by nature, it is fair to say--
