

Two Adjectives To Describe Geoffrey Chaucer Literary Works

Daniel Wakelin

Adjectives as nouns, mainly as attested in [i]Boethius[/i] translations from Old to Modern English and in Modern German Anne Aschenbrenner,2014-07-23 Adjectives can be used as nouns in English as well as in German. In Modern German, however, they can assume a greater variety of forms than is possible in Modern English, partly as a result of the loss of inflectional endings in English; e.g. Modern German [i]gut - das Gut, das Gute, der Gute, die Gute, die Guten, die Güter[/i] (also [i]die Güte, die Gutheit[/i]) versus Modern English [i]good - the good, the goods[/i] (also [i]goodness[/i]). With regard to this phenomenon, two issues deserve attention: first of all, the historical development of adjectives as nouns in English and, secondly, their linguistic classification. The merit of this study is that it undertakes the first detailed analysis of this phenomenon with the aid of corpus material. The investigation leads to intriguing conclusions that combine several linguistic levels of description, and that break with traditional concepts of rigid word-classes in favor of a theory of degrees of »adjectiviness« and »nouniness«.

An Introduction to Literature for Students of English as a Foreign Language K. Thomas Baby,2024-04-19 This

textbook is the result of the author's long experience of teaching introductory English literature courses, and the non-availability of a suitable textbook for EFL (English as a foreign language) students. The books currently available in the market are beyond the comprehension level of average EFL students. In order to fill this gap and give a solid foundation to students, the initial chapters of the book deal with important literary terms and a brief history of English literature. In addition, the book provides various types of comprehension questions, focussing on the needs of EFL students. Finally, the book consists of carefully selected materials for the study of fiction, poetry and drama from authors representing different ages of English literature. This compact textbook can be considered as an excellent resource for all EFL students and teachers around the world.

Defining Pre-Raphaelite Poetics Heather Bozant Witcher, Amy Kahrman Huseby, 2020-11-12 Defining Pre-Raphaelite Poetics offers a range of Pre-Raphaelite literary scholarship, provoking innovative discussions into the poetic form, gender dynamics, political engagement, and networked communities of Pre-Raphaelitism. The authors in this collection position Pre-Raphaelite poetics broadly in the sense of poiesis, or acts of making, aiming to identify and explore the Pre-Raphaelites' diverse forms of making: social, aesthetic, gendered, and sacred. Each chapter examines how Pre-Raphaelitism takes up and explores modes of making and re-making identity, relationality, moral transformations, and even, time and space. Essays explore themes of formalist or prosodic approaches, expanded networks of literary and artistic influence within Pre-Raphaelitism, and critical legacies and responses to Pre-Raphaelite poetry and arts, codifying the methods, forms, and commonalities that constitute literary Pre-Raphaelitism.

The Works of Geoffrey Chaucer F.N. Robinson, 1961

Scribal Correction and Literary Craft Daniel Wakelin, 2017-03-23 This extensive survey of scribal correction in English manuscripts explores what correcting reveals about attitudes to books, language and literature in late medieval England. Daniel Wakelin surveys a range of manuscripts and genres, but focuses especially on poems by Chaucer, Hoccleve and Lydgate, and on prose works such as chronicles, religious instruction and practical lore. His materials are the variants and corrections found in manuscripts, phenomena usually studied only by editors or palaeographers, but his method is the close reading and interpretation typical of literary criticism. From the corrections emerge often overlooked aspects of English literary thinking in the late Middle Ages: scribes, readers and authors seek, though often fail to achieve, invariant copying, orderly spelling, precise diction, regular verse and textual completeness. Correcting reveals their impressive attention to scribal and literary craft - its rigour, subtlety, formalism and imaginativeness - in an age with little other literary criticism in English.
