A Boy Should Know How to Tie a Tie Antwone Fisher, 2016-09-20 LIFE LESSONS AND HARD-EARNED ADVICE THAT EVERY BOY NEEDS TO BECOME A MAN--AND EVERY MAN NEEDS TO BECOME A RESPECTED CITIZEN ANTWONE FISHER ALWAYS ADMIRERED his foster father's crisp sartorial style. It wasn't until Fisher was a navy recruit that he realized this smartly dressed man had never taken the time to teach him how to be well-groomed--to reflect on the outside the man he was becoming on the inside. A boy ought to know how to tie a tie, he thought angrily, as he struggled to master the navy's required half-Windsor knot. Filled with inspiring stories, wisdom, and practical know-how, *A Boy Should Know How to Tie a Tie* teaches: Basics of personal style and hygiene: why cleaning, trimming, and polishing are essential daily habits Key components of self-improvement: how to develop a routine for success and organize your personal space The importance of identity: why reinventing oneself is a necessary part of growing up With additional information about healthy eating, making smart financial decisions, and finding role models, Antwone Fisher offers a book filled with accessible life lessons.

Finding Fish Antwone Fisher, Mim E. Rivas, 2009-10-13 The author recounts his life from birth in prison to success in Hollywood in the New York Times--bestselling memoir that inspired the film *Antwone Fisher*. Baby Boy Fisher was raised in institutions from the moment he was born to a single mother in prison. He ultimately came to live with a foster family, where he endured near-constant verbal and physical abuse. In his mid-teens he escaped and enlisted in the navy, where he became a man of the world, raised by the family he created for himself. *Finding Fish* shows how, out of this unlikely mix of deprivation and hope, an artist was born—first as the child who painted the feelings his words dared not speak, then as a poet and storyteller who would eventually become one of Hollywood's most sought-after screenwriters. A tumultuous and ultimately gratifying tale of self-discovery written in Fisher's gritty yet melodic literary voice, *Finding Fish* “reads like a great work of fiction” (Denzel Washington).

Thinking Film Richard Kearney, Murray Littlejohn, 2023-06-29 Hailed as one of America's original art forms, film has the

distinctive character of crossing high and low art. But film has done more than this. According to American philosopher Stanley Cavell, film was also a place where America in the 1930s and 1940s did its thinking, a tradition that was taken up and enriched throughout world cinema. Can film indeed think? That is, can film do the work of philosophy? Following Cavell's lead to think along the tear of the analytic-continental traditions, this book draws from both sides of the philosophical divide to reflect on this question. Spanning generations and disciplines, pondering everything from art house classics to mainstream blockbusters, *Thinking Film: Philosophy at the Movies* aims to fling open the doors to this conversation on all sides. Inquiring into both philosophy's word on film and film's word to philosophy, the interdisciplinary dialogue of this book traverses the conceptual and the particular as it considers how film catalyzes our thinking and sets us talking. After viewing the world through film, we find our world--and ourselves--transformed by deeper understanding and new possibilities. This book aims to provide a novel and engaging way in to thinking with and about this enduringly popular art form.

Someone There for Me National Court Appointed Special Advocates Organization, 2004 Many children travel through the foster care system completely alone, with no one to help them get the support they need and/or to help them fight for their rights, both in court and in the foster care system. Some children, however, are lucky enough to be represented by a court-appointed special advocate or a guardian ad litem - volunteers who devote themselves to helping children who cannot help themselves. *Someone There for Me* tells the stories of these children and the people who helped them to navigate the foster care system and build a future for themselves. Written in the youths' own words, these stories are an inspiration to everyone who wants to help children and demonstrate the difference just one person can make.

Grace After Midnight Felicia Pearson, 2007-11-01 Felicia Pearson, who starred of the acclaimed television series *The Wire*, reveals her incredible, hard-knock life story, one that dramatically parallels her television character. While Felicia is a brilliant actor who played a truly chilling role, what's most remarkable about Snoop is what she has overcome in her life. Snoop was born a three-pound cross-eyed crack baby in East Baltimore. Those streets are among the toughest in the world,

but Snoop was tougher. The runt of the ghetto showed an early aptitude for drug slinging and violence and thrived as a baby gangsta until she landed in Jessup state penitentiary after killing a woman in self-defense. There she rebelled violently against the system, and it was only through the cosmic intervention of her mentor, Uncle Loney, that she turned her life around. Eventually, Snoop was discovered in a nightclub by one of *The Wire*'s cast members and quickly recruited to be one of television's most frightening and intriguing villains. While the story of coming up from the hood has been told by Antwone Fisher and Chris Gardner, among others, Snoop's tale goes far deeper into *The Life* than any previous books. And like Mary Karr's story, Snoop's is a woman's story from a fresh point of view. She defied traditional conventions of gender and sexual preference on the hardest streets in America and in front of millions of viewers on TV.

The Pursuit of Happyness Chris Gardner, Quincy Troupe, 2009-03-17 The rags-to-riches saga of a homeless father who went on to become a crown prince of Wall Street—the basis for the major motion picture starring Will Smith. At the age of twenty, Milwaukee native Chris Gardner, just out of the Navy, arrived in San Francisco to pursue a promising career in medicine. Considered a prodigy in scientific research, he surprised everyone and himself by setting his sights on the competitive world of high finance. Yet no sooner had he landed an entry-level position at a prestigious firm than Gardner found himself caught in a web of incredibly challenging circumstances that left him as part of the city's working homeless and with a toddler son. Motivated by the promise he made to himself as a fatherless child to never abandon his own children, the two spent almost a year moving among shelters, "HO-tels," soup lines, and even sleeping in the public restroom of a subway station. Never giving in to despair, Gardner made an astonishing transformation from being part of the city's invisible poor to being a powerful player in its financial district. More than a memoir of Gardner's financial success, this is the story of a man who breaks his own family's cycle of men abandoning their children. Mythic, triumphant, and unstintingly honest, *The Pursuit of Happyness* conjures heroes like Horatio Alger and Antwone Fisher, and appeals to the very essence of the American Dream. "Gardner is honest and thorough as he solidly depicts growing up black and male in late twentieth-century urban America . . . a quality African-American/business memoir deserving a wider audience than its niche-market elements might suggest." —Publishers Weekly

Screens Fade to Black David J. Leonard, 2006-06-30 The triple crown of Oscars awarded to Denzel Washington, Halle Berry, and Sidney Poitier on a single evening in 2002 seemed to mark a turning point for African Americans in cinema. Certainly it was hyped as such by the media, eager to overlook the nuances of this sudden embrace. In this new study, author David Leonard uses this event as a jumping-off point from which to discuss the current state of African-American cinema and the various genres that currently compose it. Looking at such recent films as *Love and Basketball*, *Antwone Fisher*, *Training Day*, and the two *Barbershop* films—all of which were directed by black artists, and most of which starred and were written by blacks as well—Leonard examines the issues of representation and opportunity in contemporary cinema. In many cases,

these films-which walk a line between confronting racial stereotypes and trafficking in them-made a great deal of money while hardly playing to white audiences at all. By examining the ways in which they address the American Dream, racial progress, racial difference, blackness, whiteness, class, capitalism and a host of other issues, Leonard shows that while certainly there are differences between the grotesque images of years past and those that define today's era, the consistency of images across genre and time reflects the lasting power of racism, as well as the black community's response to it.

Building Resilience in Students Impacted by Adverse Childhood Experiences Victoria E. Romero, Ricky Robertson, Amber Warner, 2018-05-22 Use trauma-informed strategies to give students the skills and support they need to succeed in school and life Nearly half of all children have been exposed to at least one adverse childhood experience (ACE), such as poverty, divorce, neglect, homelessness, substance abuse, domestic violence, or parent incarceration. These students often enter school with behaviors that don't blend well with the typical school environment. How can a school community come together and work as a whole to establish a healthy social-emotional climate for students and the staff who support them? This workbook-style resource shows K-12 educators how to make a whole-school change, where strategies are integrated from curb to classroom. Readers will learn how to integrate trauma-informed strategies into daily instructional practice through expanded focus on: The different experiences and unique challenges of students impacted by ACEs in urban, suburban, and rural schools, including suicidal tendencies, cyberbullying, and drugs Behavior as a form of communication and how to explicitly teach new behaviors How to mitigate trauma and build innate resiliency through a read, reflect, and respond model Let this book be the tool that helps your teams move students away from the school-to-prison pipeline and toward a life rich with educational and career choices. I cannot think of a book more needed than this one. It gives us the tools to support our students who have the most need while practicing the self-care necessary to continue to serve them. —Lydia Adegbola, Chair of English Department New Rochelle High School, NY This book highlights the impact of trauma on children and the adults who work with them, while providing relevant and practical strategies to understand and address it through reflective practices. —Marine Avagyan, Director, Curriculum and Instruction Saugus Union School District, Sunland, CA

The Will to Change bell hooks, 2004-01-06 From New York Times bestselling author, feminist pioneer, and cultural icon bell hooks, a timelessly necessary treatise on how patriarchy and toxic masculinity hurts us all, with a new introduction by poet Ross Gay. Feminist writing did not tell us about the deep inner misery of men. Everyone needs to love and be loved—including men. But to know love, men must be able to look at the ways in which patriarchal culture keeps them from understanding themselves. In *The Will to Change*, bell hooks provides a compassionate guide for men of all ages and identities to understand how to be in touch with their feelings, and how to express versus repress the emotions that are a

fundamental part of who we are. With trademark candor and fierce intelligence, hooks addresses the most common concerns of men, such as fear of intimacy and loss of their patriarchal place in society, in new and challenging ways. *The Will to Change* “creates space for men to acknowledge their traumas and heal—not only for their sake, but for the sake of everyone in their lives” (BuzzFeed).

Beautiful Jim Key Mim E. Rivas, 2009-10-13 The remarkable true saga of an exceptional animal—and the no less exceptional man who led him to greatness: “Seabiscuit had nothing on Beautiful Jim Key.” —Sacramento Bee Beautiful Jim Key—the onetime ugly duckling of a scrub colt who became one of the most beloved heroes of the turn of the twentieth century—was adored not for his beauty and speed but rather for his remarkable abilities to read, write, spell, do mathematics, even debate politics. Trained with patience and kindness by one of the most renowned horse whisperers of his day—former slave, Civil War veteran, and self-taught veterinarian Dr. William Key—Jim performed in expositions across the country to wildly receptive crowds for nine glorious years, smashing box office records, clearing towering hurdles of skepticism and prejudice, and earning the respect and admiration of some of the most influential figures of the era, from Booker T. Washington to President William McKinley. “Wonderful . . . a fascinating and touching book.” —Winston-Salem Journal “If Beautiful Jim Key were alive today, he’d have a movie deal.” —People “A classic. . . . a window into a lost world.” —Nashville Scene “Chronicles the adventures of a great horse and the men who loved him . . . engaging.” —Entertainment Weekly “Compelling . . . a vivid slice of Americana.” —Parade “Captivating.” —Publishers Weekly (starred review)

The Picture of Health Henri Colt, Silvia Quadrelli, Friedman Lester, 2011-05-10 Film and literature have long been mined for interesting examples and case studies in order to teach biomedical ethics to students. This volume presents a collection of about 80 very brief, accessible essays written by international experts from medicine, social sciences, and the humanities, all of whom have experience using film in their teaching of medical ethics. Each essay focuses on a single scene and the ethical issues it raises, and the volume editors have provided strict guidelines for what each essay must do, while also allowing for some creative freedom. While some of the films are obvious candidates with medical themes -- Million Dollar Baby, The Diving Bell and the Butterfly -- some are novel choices, such as Pan's Labyrinth or As Good as it Gets. The book will contain several general introductory chapters to major sections, and a complete filmography and cross-index at the end of the book where readers can look up individual films or ethical issues.

Red, White & Black Frank B. Wilderson III, 2010-03-19 *Red, White & Black* is a provocative critique of socially engaged

films and related critical discourse. Offering an unflinching account of race and representation, Frank B. Wilderson III asks whether such films accurately represent the structure of U.S. racial antagonisms. That structure, he argues, is based on three essential subject positions: that of the White (the “settler,” “master,” and “human”), the Red (the “savage” and “half-human”), and the Black (the “slave” and “non-human”). Wilderson contends that for Blacks, slavery is ontological, an inseparable element of their being. From the beginning of the European slave trade until now, Blacks have had symbolic value as fungible flesh, as the non-human (or anti-human) against which Whites have defined themselves as human. Just as slavery is the existential basis of the Black subject position, genocide is essential to the ontology of the Indian. Both positions are foundational to the existence of (White) humanity. Wilderson provides detailed readings of two films by Black directors, *Antwone Fisher* (Denzel Washington) and *Bush Mama* (Haile Gerima); one by an Indian director, *Skins* (Chris Eyre); and one by a White director, *Monster’s Ball* (Marc Foster). These films present Red and Black people beleaguered by problems such as homelessness and the repercussions of incarceration. They portray social turmoil in terms of conflict, as problems that can be solved (at least theoretically, if not in the given narratives). Wilderson maintains that at the narrative level, they fail to recognize that the turmoil is based not in conflict, but in fundamentally irreconcilable racial antagonisms. Yet, as he explains, those antagonisms are unintentionally disclosed in the films’ non-narrative strategies, in decisions regarding matters such as lighting, camera angles, and sound.
