

Israel Map 1948 To 2020

Sophia Stamatopoulou-Robbins

The Politics of Maps Christine Leuenberger, Izhak Schnell, 2020 Blending science and technology studies, sociology, and geography with a host of archival material and gorgeously produced maps, *The Politics of Maps* explores how the geographical sciences came to be entangled with the politics, territorial claim-making, and nation-state building of Israel/Palestine.

Mapping Israel, Mapping Palestine Jess Bier, 2017-06-30 Digital practices in social and political landscapes: Why two researchers can look at the same feature and see different things. Maps are widely believed to be objective, and data-rich computer-made maps are iconic examples of digital knowledge. It is often claimed that digital maps, and rational boundaries, can solve political conflict. But in *Mapping Israel, Mapping Palestine*, Jess Bier challenges the view that digital maps are universal and value-free. She examines the ways that maps are made in Palestine and Israel to show how social and political landscapes shape the practice of science and technology. How can two scientific cartographers look at the same geographic feature and see fundamentally different things? In part, Bier argues, because knowledge about the Israeli military occupation is shaped by the occupation itself. Ongoing injustices—including checkpoints, roadblocks, and summary arrests—mean that Palestinian and Israeli cartographers have different experiences of the landscape. Palestinian forms of empirical knowledge, including maps, continue to be discounted. Bier examines three representative cases of population, governance, and urban maps. She analyzes Israeli population maps from 1967 to 1995, when Palestinian areas were left blank; Palestinian state maps of the late 1990s and early 2000s, which were influenced by Israeli raids on Palestinian offices and the legacy of British colonial maps; and urban maps after the Second Intifada, which show how segregated observers produce dramatically different maps of the same area. The geographic production of knowledge, including what and who are considered scientifically legitimate, can change across space and time. Bier argues that greater attention to these changes, and to related issues of power, will open up more heterogeneous ways of engaging with the world.

Disappearing Palestine Jonathan Cook, 2013-04-04 Palestine is fast disappearing. Over many decades Israel has developed and refined policies to disperse, imprison and impoverish the Palestinian people in a relentless effort to destroy them as a nation. It has industrialized Palestinian despair through ever more sophisticated systems of curfews, checkpoints, walls, permits and land grabs. It has transformed the West Bank and Gaza into laboratories for testing the infrastructure of

confinement, creating a lucrative 'defence' industry by pioneering the technologies needed for crowd control, surveillance, collective punishment and urban warfare. In this insightful and authoritative new book, leading journalist Jonathan Cook examines the many different guises in which these experiments on the Palestinians are being carried out. Accessible and comprehensive, this is a powerful analysis of one of the most enduring and entrenched conflicts in contemporary world politics.

Conflict over the Conflict Kenneth S. Stern, 2020-05-13 The Conflict over the Conflict offers a unique view of the threat to free speech, academic freedom, and the future of the academy posed by those on both sides of the Israel/Palestine campus debate.

A Threshold Crossed Omar Shakir, 2021 The widely held assumption that the Israeli occupation of Palestinian territory is a temporary situation and that the 'peace process' will soon bring an end to Israeli abuses has obscured the reality on the ground today of Israel's entrenched discriminatory rule over Palestinians. A single authority, the Israeli government, rules primarily over the area between the Jordan River and Mediterranean Sea, populated by two groups of roughly equal size, methodologically privileging Jewish Israelis while repressing Palestinians, most severely in the Occupied Palestinian Territory (OPT), made-up of the West Bank, including East Jerusalem, and Gaza. Drawing on years of human rights documentation, case studies and a review of government planning documents, statements by officials and other sources, [this report] examines Israel's treatment of Palestinians and evaluates whether particular Israeli policies and practices in certain areas amount to the crimes against humanity of apartheid and persecution.--Page 4 of cover.

Hollow Land Eyal Weizman, 2012-08-07 How does Israel extend its control over Palestinian lands? From the tunnels of Gaza to the militarized airspace of the Occupied Territories, Eyal Weizman unravels the mechanisms of control and how they have transformed Gaza and the West Bank into a war zone. This is essential reading for understanding how architecture and infrastructure are used as lethal weapons in the formation of Israel. In this new edition, Weizman explains how the events following the invasion of Gaza in October 2023 bear witness to the continuing policies of oppression. He details how this book became a foundational text for Forensic Architecture.

The Founding of Israel Martin Connolly, 2018-04-30 A chronological history of the Jewish people—from the earliest attempts to establish a homeland during Biblical times to the creation of Israel. More than seventy years ago in 1948, the State of Israel came into being amidst great controversy. How did the state arise? What led to the founding of Israel? This book sets out to give a chronological journey of the Jewish people from the time Abraham came out of the land of Ur three thousand years ago, until six million of them died in the horror of the Holocaust under Hitler and his Nazi regime. It recounts the many expulsions from the land in which they lived, the suffering under Babylonians, Greeks, Persians, the destruction of their temple in Jerusalem in 70 AD, and finally, genocide and the expulsion by the Romans in 132 AD creating a diaspora across the world. The Jews would be charged with killing God and throughout the following centuries would be expelled from countries, burned alive after being locked in synagogues or at the stake, have all their property seized, and get herded into ghettos. All of this until that fatal Holocaust, which attempted to wipe them from the face of the earth. This book recounts their story to achieve a homeland, using a wide-range of historical documents to tell the story of humiliation, suffering, poverty, and death. It tells of religious persecution that would not let them rest, and as their journey enters the twentieth century, gives a behind-the-scenes look at how governments manipulated the Middle East and exacerbated divisions.

One Country Ali Abunimah, 2007-08-21 A provocative approach to the Israeli-Palestinian conflict—one state for two peoples—that is sure to touch nerves on all sides The Israeli-Palestinian war has been called the world's most intractable conflict. It is by now a commonplace that the only way to end the violence is to divide the territory in two, and all efforts at a resolution have come down to haggling over who gets what: Will Israel hand over 90 percent of the West Bank or only 60 percent? Will a Palestinian state include any part of Jerusalem? Clear-eyed, sharply reasoned, and compassionate, *One Country* proposes a radical alternative: to revive an old and neglected idea of one state shared by two peoples. Ali Abunimah shows how the two are by now so intertwined—geographically and economically—that separation cannot lead to the security Israelis need or the rights Palestinians must have. He reveals the bankruptcy of the two-state approach, takes on the objections and taboos that stand in the way of a binational solution, and demonstrates that sharing the territory will bring benefits for all. The absence of other workable options has only led to ever greater extremism; it is time, Abunimah suggests, for Palestinians and Israelis to imagine a different future and a different relationship.

Israel Demography, 2004-2020, in Light of the Process of Disengagement Arnon Sofer, Evgenia Bystrov, 2005

The Ethnic Cleansing of Palestine Ilan Pappé, 2007-09-01 The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking work on the formation of the State of Israel. 'Along with the late Edward Said, Ilan Pappé is the most eloquent writer of Palestinian history.' *NEW STATESMAN* Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it

happened today it could only have been called 'ethnic cleansing'. Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East. *** 'Ilan Pappé is Israel's bravest, most principled, most incisive historian.' JOHN PILGER 'Pappé has opened up an important new line of inquiry into the vast and fateful subject of the Palestinian refugees. His book is rewarding in other ways. It has at times an elegiac, even sentimental, character, recalling the lost, obliterated life of the Palestinian Arabs and imagining or regretting what Pappé believes could have been a better land of Palestine.' TIMES LITERARY SUPPLEMENT 'A major intervention in an argument that will, and must, continue. There's no hope of lasting Middle East peace while the ghosts of 1948 still walk.'

A Liminal Church Maria Chiara Rioli, 2020-08-25 The history of the Palestine War does not only concern military history. It also involves social, humanitarian and religious history, as in the case of the Roman Catholic Diocese of Jerusalem. A Liminal Church offers a complex narrative of the Latin patriarchal diocese, commonly portrayed as monolithically aligned with anti-Zionist and anti-Muslim positions during the "long" year of 1948. Making use of largely unpublished archives in the Middle East, Europe and the United States, including the recently released Pius XII papers, Maria Chiara Rioli depicts a church engaged in multiple and sometimes contradictory pastoral initiatives, amid harsh battles, relief missions for Palestinian refugees, theological reflections on Jewish converts to Catholicism, political relations with the Israeli and Jordanian authorities, and liturgical responses to a fluid and uncertain scenario. The pieces of this history include the Jerusalem grand mufti's appeal to Pius XII to support the Arab cause, the Catholic liturgies for peace and international mobilization during the Palestine War and Suez crisis, refugees petitioning the patriarch for aid, and Jewish converts establishing Christian kibbutzim. New archival collections and records reveal hidden aspects of the lives of women, children and other silenced actors, faith communities and religious institutions during and after 1948, connecting narratives that have been marginalized by a dominant historiography more focused on military campaigns or confessional conflicts. A Liminal Church weaves diocesan history with global history. In the momentous decade from 1946 to 1956, the study of the transnational Jerusalem Latin diocese, as split between Israel, Jordan, Egypt and Cyprus, with ties to diaspora and religious international networks and comprising clergy from all over the world, attests to the possibilities of contrapuntal narratives, reintroducing complexity to a deeply and painfully polarized debate, exposing false assumptions and situating changes and ruptures in a long-term perspective.

A Map of Absence Atef Alshaer, 2019-05-13 A Map of Absence presents the finest poetry and prose by Palestinian writers over the last seventy years. Featuring writers in the diaspora and those living under occupation, these striking entries pay

testament to one of the most pivotal events in modern history - the 1948 Nakba. This unique, landmark anthology includes translated excerpts of works by major authors such as Mahmoud Darwish, Ghassan Kanafani and Fadwa Tuqan alongside those of emerging writers, published here in English for the first time. Depicting the varied aspects of Palestinian life both before and after 1948, their writings highlight the ongoing resonances of the Nakba. An intimate companion for all lovers of world literature, *A Map of Absence* reveals the depth and breadth of Palestinian writing.

The Ancient Israelite World Kyle H. Keimer, George A. Pierce, 2022-10-27 This volume presents a collection of studies by international experts on various aspects of ancient Israel's society, economy, religion, language, culture, and history, synthesizing archaeological remains and integrating them with discussions of ancient Near Eastern and biblical texts. Driven by theoretically and methodologically informed discussions of the archaeology of the Iron Age Levant, the 47 chapters in *The Ancient Israelite World* provide foundational, accessible, and detailed studies in their respective topics. The volume considers the history of interpretation of ancient Israel, studies on various aspects of ancient Israel's society and history, and avenues for present and future approaches to the ancient Israelite world. Accompanied by over 150 maps and figures, it allows the reader to gain an understanding of key issues that archaeologists, historians and biblical scholars have faced and are currently facing as they attempt to better understand ancient Israelite society. *The Ancient Israelite World* is an essential reference work for students and scholars of ancient Israel and its history, culture, and society, whether they are historians, archaeologists or biblical scholars.

Waste Siege Sophia Stamatopoulou-Robbins, 2019-12-10 *Waste Siege* offers an analysis unusual in the study of Palestine: it depicts the environmental, infrastructural, and aesthetic context in which Palestinians are obliged to forge their lives. To speak of waste siege is to describe a series of conditions, from smelling wastes to negotiating military infrastructures, from biopolitical forms of colonial rule to experiences of governmental abandonment, from obvious targets of resistance to confusion over responsibility for the burdensome objects of daily life. Within this rubble, debris, and infrastructural fallout, West Bank Palestinians create a life under settler colonial rule. Sophia Stamatopoulou-Robbins focuses on waste as an experience of everyday life that is continuous with, but not a result only of, occupation. Tracing Palestinians' own experiences of wastes over the past decade, she considers how multiple authorities governing the West Bank—including municipalities, the Palestinian Authority, international aid organizations, NGOs, and Israel—rule by waste siege, whether intentionally or not. Her work challenges both common formulations of waste as matter out of place and as the ontological opposite of the environment, by suggesting instead that waste siege be understood as an ecology of matter with no place to go. Waste siege thus not only describes a stateless Palestine, but also becomes a metaphor for our besieged planet.

The Walls between Conflict and Peace , 2016-11-21 *The Walls between Conflict and Peace* discusses how walls are not merely static entities, but are in constant flux, subject to the movement of time. Walls often begin life as a line marking a

radical division, but then become an area, that is to say a border, within which function civil and political societies, national and supranational societies. Such changes occur because over time cooperation between populations produces an active quest for peace, which is therefore a peace in constant movement. These are the concepts and lines of political development analysed in the book. The first part of the book deals with political walls and how they evolve into borders, or even disappear. The second part discusses possible and actual walls between empires, and also walls which may take shape within present-day empires. The third part analyses various ways of being of walls between and within states: Berlin, the Vatican State and Italy, Cyprus, Israel and Palestine, Belfast, Northern European Countries, Gorizia and Nova Gorica, the USA and Mexico. In addition, discussion centres on a possible new Iron Curtain between the two Mediterranean shores and new and different walls within the EU. The last part of the book looks at how walls and borders change as a result of cooperation between the communities on either side of them. The book takes on particular relevance in the present circumstances of the proliferation of walls between empires and states and within single states, but it also analyses processes of conflict and peace which come about as a result of walls. Contributors are: Eliezer Ben-Rafael, Sigal Ben-Rafael Galanti, Melania-Gabriela Ciot, Hastings Donnan, Anneli Ute Gabanyi, Alberto Gasparini, Maria Hadjipavlou, Max Haller, Neil Jarman, Thomas Lunden, Domenico Mogavero, Alejandro Palma, Dennis Soden.

Israel and its Palestinian Citizens Nadim N. Rouhana, Sahar S. Huneidi, 2017-02 This volume examines the status of the Palestinian citizens in Israel and explores ethnic privileging and the dynamics of social conflict.

After Zionism Antony Loewenstein, Ahmed Moor, 2024-01-18 'Nothing will change until we are capable of imagining a radically different future.' --Naomi Klein After Zionism brings together some of the world's leading thinkers on the Middle East question. In thought-provoking essays, the contributors dissect the century-long conflict between Zionism and the Palestinians, and explore possible forms of a one-state solution in the most conflicted part of the world. Time has run out for the two-state solution because of the unending and permanent Israeli colonisation of Palestinian land. The Hamas attacks of 7 October 2023 and Israel's subsequent devastation of Gaza have given renewed urgency to the discussion of how to move towards a future that honours the rights of all who live in Palestine and Israel. This timely edition includes a new preface as well as challenging and insightful essays by Omar Barghouti, Jonathan Cook, Joseph Dana, Jeremiah Haber, Jeff Halper, Ghada Karmi, Saree Makdisi, John Mearsheimer, Ilan Pappé, Sara Roy and Phil Weiss.

Israel's Moment Jeffrey Herf, 2023-02-16 Israel's Moment is a major new account of how a Jewish state came to be forged in the shadow of World War Two and the Holocaust and the onset of the Cold War. Drawing on new research in government, public and private archives, Jeffrey Herf exposes the political realities that underpinned support for and opposition to Zionist aspirations in Palestine. In an unprecedented international account, he explores the role of the United States, the Arab States, the Palestine Arabs, the Zionists, and key European governments from Britain and France to the

Soviet Union, Czechoslovakia and Poland. His findings reveal a spectrum of support and opposition that stood in sharp contrast to the political coordinates that emerged during the Cold War, shedding new light on how and why the state of Israel was established in 1948 and challenging conventional associations of left and right, imperialism and anti-imperialism, and racism and anti-racism.

The Classical Liberal Case for Israel Walter E. Block, Alan G. Futerman, 2021-11-02 This book offers a unique perspective on the State of Israel based on classical liberalism, both on a historical and theoretical level. Specifically, it makes a classical liberal and libertarian analysis based upon homesteading and private property rights to defend the State of Israel. As such, this work explores the history of the Jewish State, both to provide a positive case for its right to exist, and to clarify the myths surrounding its origin and development. At the same time, it deals with other relevant related subjects, such as the complex situation between Israel and the Palestinian Arabs, the military campaigns against the Jewish State, the connection between anti-Zionism and anti-Semitism, and Israel's economic miracle. The thorough analysis presented in this work intends to show not only why the voices and movements against Israel are wrong (including the Boycott, Divestment and Sanctions movement, BDS), but more importantly, why Israel is an example of human flourishing and freedom that every advocate for liberty should celebrate. *The Classical Liberal Case for Israel* makes the practical and moral case for Israel. It is based on truths and facts that need to be repeated over and over. Block & Futerman understand that the only way to defeat a big lie is with a big truth. Benjamin Netanyahu, Prime Minister of the State of Israel, Jerusalem, Israel Classical Liberalism, often associated with the spread West from Northern Europe in creating free nations, is argued here as applying to Israel, with ancient roots in the principles of human freedom. Vernon L. Smith, Ph.D. Nobel Prize in Economic Sciences (2002), and Professor, George L. Argyros Endowed Chair in Finance and Economics, Professor of Economics and Law, Smith Institute for Political Economy and Philosophy, at Chapman University.
