*The Politics of Maps* Christine Leuenberger, Izhak Schnell, 2020 Blending science and technology studies, sociology, and geography with a host of archival material and gorgeously produced maps, *The Politics of Maps* explores how the geographical sciences came to be entangled with the politics, territorial claim-making, and nation-state building of Israel/Palestine.

**Mapping Israel, Mapping Palestine** Jess Bier, 2017-06-30 Digital practices in social and political landscapes: Why two researchers can look at the same feature and see different things. Maps are widely believed to be objective, and data-rich computer-made maps are iconic examples of digital knowledge. It is often claimed that digital maps, and rational boundaries, can solve political conflict. But in *Mapping Israel, Mapping Palestine*, Jess Bier challenges the view that digital maps are universal and value-free. She examines the ways that maps are made in Palestine and Israel to show how social and political landscapes shape the practice of science and technology. How can two scientific cartographers look at the same geographic feature and see fundamentally different things? In part, Bier argues, because knowledge about the Israeli military occupation is shaped by the occupation itself. Ongoing injustices—including checkpoints, roadblocks, and summary arrests—mean that Palestinian and Israeli cartographers have different experiences of the landscape. Palestinian forms of empirical knowledge, including maps, continue to be discounted. Bier examines three representative cases of population, governance, and urban maps. She analyzes Israeli population maps from 1967 to 1995, when Palestinian areas were left blank; Palestinian state maps of the late 1990s and early 2000s, which were influenced by Israeli raids on Palestinian offices and the legacy of British colonial maps; and urban maps after the Second Intifada, which show how segregated observers produce dramatically different maps of the same area. The geographic production of knowledge, including what and who are considered scientifically legitimate, can change across space and time. Bier argues that greater attention to these changes, and to related issues of power, will open up more heterogeneous ways of engaging with the world.

*Palestine Memories of 1948* Chris Conti, 2021-05-14 Seventy-one years ago, in 1948, the Nakba—the catastrophe—overturned life in Palestine, forcing three-quarters of Palestinians into exile, depriving them of their land, their homes, their belongings. Today, those who can bear witness to that period are becoming rare. From different social backgrounds, 19 men and women remember the coexistence that prevailed in Palestine, the war, the exile, as well as the

strength and resilience which they had to muster to adapt to new realities. Life stories expressed in the first person are accompanied by black and white portraits where each look questions the coming generations. For every Palestinian, Jerusalem is charged with symbolic meaning, of identity and of remembrance, the more so because it has become inaccessible to most. The city is made the focus of a compilation of color photographs presented for a contemporary look, between shadow and light.

**Disappearing Palestine** Jonathan Cook, 2013-04-04 Palestine is fast disappearing. Over many decades Israel has developed and refined policies to disperse, imprison and impoverish the Palestinian people in a relentless effort to destroy them as a nation. It has industrialized Palestinian despair through ever more sophisticated systems of curfews, checkpoints, walls, permits and land grabs. It has transformed the West Bank and Gaza into laboratories for testing the infrastructure of confinement, creating a lucrative 'defence' industry by pioneering the technologies needed for crowd control, surveillance, collective punishment and urban warfare. In this insightful and authoritative new book, leading journalist Jonathan Cook examines the many different guises in which these experiments on the Palestinians are being carried out. Accessible and comprehensive, this is a powerful analysis of one of the most enduring and entrenched conflicts in contemporary world politics.

*The Road Map to Nowhere* Tanya Reinhart, 2006-09-17 An urgent and searing expose of the peace process by a prominent Israeli thinker.

*Conflict over the Conflict* Kenneth S. Stern, 2020-05-13 The Conflict over the Conflict offers a unique view of the threat to free speech, academic freedom, and the future of the academy posed by those on both sides of the Israel/Palestine campus debate.

**A Threshold Crossed** Omar Shakir, 2021 The widely held assumption that the Israeli occupation of Palestinian territory is a temporary situation and that the 'peace process' will soon bring an end to Israeli abuses has obscured the reality on the ground today of Israel's entrenched discriminatory rule over Palestinians. A single authority, the Israeli government, rules primarily over the area between the Jordan River and Mediterranean Sea, populated by two groups of roughly equal size, methodologically privileging Jewish Israelis while repressing Palestinians, most severely in the Occupied Palestinian Territory (OPT), made-up of the West Bank, including East Jerusalem, and Gaza. Drawing on years of human rights documentation, case studies and a review of government planning documents, statements by officials and other sources, [this report] examines Israel's treatment of Palestinians and evaluates whether particular Israeli policies and practices in certain areas amount to the crimes against humanity of apartheid and persecution.--Page 4 of cover.

Israel's Moment Jeffrey Herf, 2022-02-03 A new account of support for and opposition to Zionist aspirations in Palestine in the United States and Europe from 1945 to 1949.

**Hollow Land** Eyal Weizman, 2012-08-07 How does Israel extend its control over Palestinian lands? From the tunnels of Gaza to the militarized airspace of the Occupied Territories, Eyal Weizman unravels the mechanisms of control and how they have transformed Gaza and the West Bank into a war zone. This is essential reading for understanding how architecture and infrastructure are used as lethal weapons in the formation of Israel. In this new edition, Weizman explains how the events following the invasion of Gaza in October 2023 bear witness to the continuing policies of oppression. He details how this book became a foundational text for Forensic Architecture.

**The Founding of Israel** Martin Connolly, 2018-04-30 A chronological history of the Jewish people—from the earliest attempts to establish a homeland during Biblical times to the creation of Israel. More than seventy years ago in 1948, the State of Israel came into being amidst great controversy. How did the state arise? What led to the founding of Israel? This book sets out to give a chronological journey of the Jewish people from the time Abraham came out of the land of Ur three thousand years ago, until six million of them died in the horror of the Holocaust under Hitler and his Nazi regime. It recounts the many expulsions from the land in which they lived, the suffering under Babylonians, Greeks, Persians, the destruction of their temple in Jerusalem in 70 AD, and finally, genocide and the expulsion by the Romans in 132 AD creating a diaspora across the world. The Jews would be charged with killing God and throughout the following centuries would be expelled from countries, burned alive after being locked in synagogues or at the stake, have all their property seized, and get herded into ghettos. All of this until that fatal Holocaust, which attempted to wipe them from the face of the earth. This book recounts their story to achieve a homeland, using a wide-range of historical documents to tell the story of humiliation, suffering, poverty, and death. It tells of religious persecution that would not let them rest, and as their journey enters the twentieth century, gives a behind-the-scenes look at how governments manipulated the Middle East and exacerbated divisions.

**Israel Demography, 2004-2020, in Light of the Process of Disengagement** Arnon Sofer, Evgenia Bystrov, 2005

*One Country* Ali Abunimah, 2007-08-21 A provocative approach to the Israeli-Palestinian conflict—one state for two peoples—that is sure to touch nerves on all sides The Israeli-Palestinian war has been called the world's most intractable conflict. It is by now a commonplace that the only way to end the violence is to divide the territory in two, and all efforts at a

resolution have come down to haggling over who gets what: Will Israel hand over 90 percent of the West Bank or only 60 percent? Will a Palestinian state include any part of Jerusalem? Clear-eyed, sharply reasoned, and compassionate, One Country proposes a radical alternative: to revive an old and neglected idea of one state shared by two peoples. Ali Abunimah shows how the two are by now so intertwined—geographically and economically—that separation cannot lead to the security Israelis need or the rights Palestinians must have. He reveals the bankruptcy of the two-state approach, takes on the objections and taboos that stand in the way of a binational solution, and demonstrates that sharing the territory will bring benefits for all. The absence of other workable options has only lead to ever greater extremism; it is time, Abunimah suggests, for Palestinians and Israelis to imagine a different future and a different relationship.

**Palestine and the Arab-Israeli Conflict** Charles D. Smith, 2001 The fourth edition of this comprehensive, accessible introduction to the Arab-Israeli conflict features over 50 primary documents, an expanded map and illustration program, and the most up-to-date coverage available for the classroom.

**A Liminal Church** Maria Chiara Rioli, 2020-08-25 The history of the Palestine War does not only concern military history. It also involves social, humanitarian and religious history, as in the case of the Roman Catholic Diocese of Jerusalem. A Liminal Church offers a complex narrative of the Latin patriarchal diocese, commonly portrayed as monolithically aligned with anti-Zionist and anti-Muslim positions during the “long” year of 1948. Making use of largely unpublished archives in the Middle East, Europe and the United States, including the recently released Pius XII papers, Maria Chiara Rioli depicts a church engaged in multiple and sometimes contradictory pastoral initiatives, amid harsh battles, relief missions for Palestinian refugees, theological reflections on Jewish converts to Catholicism, political relations with the Israeli and Jordanian authorities, and liturgical responses to a fluid and uncertain scenario. The pieces of this history include the Jerusalem grand mufti’s appeal to Pius XII to support the Arab cause, the Catholic liturgies for peace and international mobilization during the Palestine War and Suez crisis, refugees petitioning the patriarch for aid, and Jewish converts establishing Christian kibbutzim. New archival collections and records reveal hidden aspects of the lives of women, children and other silenced actors, faith communities and religious institutions during and after 1948, connecting narratives that have been marginalized by a dominant historiography more focused on military campaigns or confessional conflicts. A Liminal Church weaves diocesan history with global history. In the momentous decade from 1946 to 1956, the study of the transnational Jerusalem Latin diocese, as split between Israel, Jordan, Egypt and Cyprus, with ties to diaspora and religious international networks and comprising clergy from all over the world, attests to the possibilities of contrapuntal narratives, reintroducing complexity to a deeply and painfully polarized debate, exposing false assumptions and situating changes and ruptures in a long-term perspective.

*A Map of Absence* Atef Alshaer, 2019-05-13 A Map of Absence presents the finest poetry and prose by Palestinian writers

over the last seventy years. Featuring writers in the diaspora and those living under occupation, these striking entries pay testament to one of the most pivotal events in modern history - the 1948 Nakba. This unique, landmark anthology includes translated excerpts of works by major authors such as Mahmoud Darwish, Ghassan Kanafani and Fadwa Tuqan alongside those of emerging writers, published here in English for the first time. Depicting the varied aspects of Palestinian life both before and after 1948, their writings highlight the ongoing resonances of the Nakba. An intimate companion for all lovers of world literature, *A Map of Absence* reveals the depth and breadth of Palestinian writing.

**The Ethnic Cleansing of Palestine** Ilan Pappé, 2007-09-01 The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking work on the formation of the State of Israel. 'Along with the late Edward Said, Ilan Pappé is the most eloquent writer of Palestinian history.' NEW STATESMAN Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called 'ethnic cleansing'. Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East. \*\*\* 'Ilan Pappé is Israel's bravest, most principled, most incisive historian.' JOHN PILGER 'Pappé has opened up an important new line of inquiry into the vast and fateful subject of the Palestinian refugees. His book is rewarding in other ways. It has at times an elegiac, even sentimental, character, recalling the lost, obliterated life of the Palestinian Arabs and imagining or regretting what Pappé believes could have been a better land of Palestine.' TIMES LITERARY SUPPLEMENT 'A major intervention in an argument that will, and must, continue. There's no hope of lasting Middle East peace while the ghosts of 1948 still walk.' INDEPENDENT

**The Ancient Israelite World** Kyle H. Keimer, George A. Pierce, 2022-10-27 This volume presents a collection of studies by international experts on various aspects of ancient Israel's society, economy, religion, language, culture, and history, synthesizing archaeological remains and integrating them with discussions of ancient Near Eastern and biblical texts. Driven by theoretically and methodologically informed discussions of the archaeology of the Iron Age Levant, the 47 chapters in *The Ancient Israelite World* provide foundational, accessible, and detailed studies in their respective topics. The volume considers the history of interpretation of ancient Israel, studies on various aspects of ancient Israel's society and history, and avenues for present and future approaches to the ancient Israelite world. Accompanied by over 150 maps and figures, it allows the reader to gain an understanding of key issues that archaeologists, historians and biblical scholars have faced and are currently facing as they attempt to better understand ancient Israelite society. *The Ancient Israelite World* is an essential

reference work for students and scholars of ancient Israel and its history, culture, and society, whether they are historians, archaeologists or biblical scholars.

*The Walls between Conflict and Peace* ,2016-11-21 The Walls between Conflict and Peace discusses how walls are not merely static entities, but are in constant flux, subject to the movement of time. Walls often begin life as a line marking a radical division, but then become an area, that is to say a border, within which function civil and political societies, national and supranational societies. Such changes occur because over time cooperation between populations produces an active

quest for peace, which is therefore a peace in constant movement. These are the concepts and lines of political development analysed in the book. The first part of the book deals with political walls and how they evolve into borders, or even disappear. The second part discusses possible and actual walls between empires, and also walls which may take shape within present-day empires. The third part analyses various ways of being of walls between and within states: Berlin, the Vatican State and Italy, Cyprus, Israel and Palestine, Belfast, Northern European Countries, Gorizia and Nova Gorica, the USA and Mexico. In addition, discussion centres on a possible new Iron Curtain between the two Mediterranean shores and new and different walls within the EU. The last part of the book looks at how walls and borders change as a result of cooperation between the communities on either side of them. The book takes on particular relevance in the present circumstances of the proliferation of walls between empires and states and within single states, but it also analyses processes of conflict and peace which come about as a result of walls.
