H. P. Blavatsky

The Voice of the Silence Helena Petrovna Blavatsky, 2020-09-28 The following pages are derived from The Book of the Golden Precepts, one of the works put into the hands of mystic students in the East. The knowledge of them is obligatory in that school, the teachings of which are accepted by many Theosophists. Therefore, as I know many of these Precepts by heart, the work of translating has been relatively an easy task for me. It is well known that, in India, the methods of psychic development differ with the Gurus (teachers or masters), not only because of their belonging to different schools of philosophy, of which there are six, but because every Guru has his own system, which he generally keeps very secret. But beyond the Himalayas the method in the Esoteric Schools does not differ, unless the Guru is simply a Lama, but little more learned than those he teaches. The work from which I here translate forms part of the same series as that from which the Stanzas of the Book of Dzyan were taken, on which the Secret Doctrine is based. Together with the great mystic work called Paramartha, which, the legend of Nagarjuna tells us, was delivered to the great Arhat by the Nagas or Serpents (in truth a name given to the ancient Initiates), the Book of the Golden Precepts claims the same origin. Yet its maxims and ideas, however noble and original, are often found under different forms in Sanskrit works, such as the Dnyaneshvari, that superb mystic treatise in which Krishna describes to Arjuna in glowing colors the condition of a fully illumined Yogi; and again in certain Upanishads. This is but natural, since most, if not all, of the greatest Arhats, the first followers of Gautama Buddha were Hindus and Aryans, not Mongolians, especially those who emigrated into Tibet. The works left by Aryasanga alone are very numerous.

The Secret Doctrine H.P. Blavatsky, Michael Gomes, 2009-07-23 Madame Blavatsky's Victorian-era masterpiece is now scaled down to its essentials, providing the most readable, accessible experience ever of one of history's seminal occult works. The Secret Doctrine, Helena Petrovna Blavatsky's masterwork on the origin and evolution of the universe and humanity itself, is arguably the most famous, and perhaps the most influential, occult book ever written. Published since 1888 only in expensive, two-volume editions of some 1,400 pages, it has long eluded the grasp of modern readers- until now. This single-volume edition, abridged and annotated by historian and Theosophical scholar Michael Gomes, places the ideas of The Secret Doctrine within reach of all who are curious. In particular, Gomes provides a critical sounding of the book's famous stanzas on the genesis of life and the cosmos- mysterious passages that Blavatsky said originated from a primeval

source and which form the heart of The Secret Doctrine. Gomes scrupulously scales down the book's key writings on symbolism to their essentials, and offers notes and a glossary to illuminate arcane references. His historical and literary introduction casts new light on some of the book's sources and on the career of its brilliant and elusive author, one of the most intriguing personages of the nineteenth century. At once compact and representative of the work as a whole, this new edition of The Secret Doctrine brings unprecedented accessibility to the key esoteric classic of the modern era.

Isis Unveiled H. P. Blavatsky, 2015-06-01 Creating a sensation when it was first published in 1877, the first major work by the young Russian noblewoman who would found the Theosophical Society devoted 1200 pages to the mysteries of ancient and modern science and theology. This new edition abridged by Theosophical scholar Michael Gomes breathes fresh life into this classic of Western esoteric thinking. Stripped of its lengthy quotations from other writers and its repetitious commentary, Isis Unveiled is revealed to be a clear and readable exploration of the universal truths of the Ancient Wisdom Tradition by one of the most remarkable women of modern times.

Medicine of One Lomakayu, Patty Hall, 2014-12-05 From the moment we emerge into the world as an infant we begin a journey of experience. We all share the desire to be happy. In this journey we will all experience emotional and physical pain and the loss of what we love. How we meet our losses and pains will determine the amount of peace we have in our lives. If we meet them as the hardened warrior or the defeated victim we live from survival and peace escapes us. In Medicine of One, Lomakayu, spiritual teacher, Soul Dreamer, and the originator of primordial movements for emotional healing, offers us a path to spiritual awareness, self-compassion and freedom that is as simple as a Circle. Using his own unique teachings, personal experience, and poetic language, he shares a path that will enliven, bring clarity, inspire, and fulfill you no matter where you are in life. Allow yourself to open the pages of Medicine of One ... breathe in the words ... and slowly grasp all you can from what is written. You will find yourself in a Circle full of deep understanding and self compassion.

The Theosophical Society Jeffrey D. Lavoie,2012 This peer-reviewed study represents a culmination of years of research into the history of the Theosophical Society. In this unique project which combines biographies with source analyses, Jeffrey D. Lavoie records a detailed history of the early Theosophical Society and examines its relationship with the modern Spiritualist movement between the years 1875-1891. Special attention has been paid to some of the neglected figures associated with these organizations including Arthur Lillie- the Gnostic-occultist and early critic of the Theosophical Society; the Davenport Brothers- the Spiritualist mediums who developed many of the standard elements which became associated with modern Spiritualism; Alfred Wallace- the prominent scientist, Spiritualist, and supposed member of the Theosophical Society and many others. This work will appeal to a wide array of readers including those interested in modern religious movements, Western Esotericism, South Asian history, and Victorian studies.

1919 edition. Excerpt: ... MAN'S YEARNING FOR IMMORTALITY 37 that melancholy can throw at a man, to tell him that he is at the end of his nature, or that there is no future state to come, unto which this seems progressive, and otherwise made in vain. Let any religion offer itself that can supply these proofs in the shape of scientific facts, and the established system will be driven to the alternative of fortifying its dogmas with such facts, or of passing out of the reverence and affection of Christendom. Many a Christian divine has been forced to acknowledge that there is no authentic source whence the assurance of a future state could have been derived by man. How could then such a belief have stood for countless ages, were it not that among all nations, whether civilized or savage, man has been allowed the demonstrative proof? Is not the very existence of such a belief an evidence that thinking philosopher and unreasoning savage have both been compelled to acknowledge the testimony of their senses? That if, in isolated instances, spectral illusion may have resulted from physical causes, on the other hand, in thousands of instances, apparitions of persons have held converse with several individuals at once, who saw and heard them collectively, and could not all have been diseased in mind? The greatest thinkers of Greece and Rome regarded such matters as demonstrated facts. They distinguished the apparitions by the names of manes, anima and umbra: the manes descending after the decease of the individual into the Underworld; the anima, or pure spirit, ascending to heaven; and the restless umbra (earth-bound spirit) hovering about its tomb, because the attraction of matter and love of its earthly body prevailed in it and prevented its ascension to higher regions....
