You Don't Need a Title to Be a Leader Mark Sanborn,2006-09-19 In his inspiring new book, *You Don't Need a Title to Be a Leader*, Mark Sanborn, the author of the national bestseller *The Fred Factor*, shows how each of us can be a leader in our daily lives and make a positive difference, whatever our title or position. Through the stories of a number of unsung heroes, Sanborn reveals the keys each one of us can use to improve our organizations and enhance our careers. Genuine leadership – leadership with a “little l”, as he puts it, is not conferred by a title, or limited to the executive suite. Rather, it is shown through our everyday actions and the way we influence the lives of those around us. Among the qualities that genuine leaders share:

- Acting with purpose rather than getting bogged down by mindless activity
- Caring about and listening to others
- Looking for ways to encourage the contributions and development of others rather than focusing solely on personal achievements
- Creating a legacy of accomplishment and contribution in everything they do

As readers across the country discovered in *The Fred Factor*, Mark Sanborn has an unparalleled ability to explain fundamental business and leadership truths through simple stories and anecdotes. *You Don't Need a Title to Be a Leader* offers an inspiring message to anyone who wants to take control of their life and make a positive difference.

The 5 Levels of Leadership John C. Maxwell,2011-10-04 Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than the boss people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to. 3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to

the next to become a more influential, respected, and successful leader.

The Fred Factor Mark Sanborn, 2008-12-26 Mark Sanborn met his postman, Fred, just after he moved to Denver. Fred knocked on his door, introduced himself and welcomed him to the neighbourhood. He also asked Sanborn about himself and how he wanted his mail handled while he was away. Needless to say, Sanborn was shocked. He asked Fred more about his job and how he approached it. Fred's answers inspired him to develop motivational seminars promoting Fred's attitude and approach to life. To embody the Fred philosophy is to realise and practise that:--Everyone can make a difference--Success is built on good relationships--You must continually create value for others and it doesn't have to cost anything--You can reinvent yourself whenever you want. In this succinct and inspiring guide, Sanborn shows us how we can all truly make a difference everyday and become a 'Fred', as well as how to recognise, reward and attract Freds into our lives.

The Leadership Gap Lolly Daskal, 2017-05-30 Do people see you as the kind of leader you want to be? Are your strongest leadership qualities getting in the way of your greatness? After decades of advising and inspiring some of the most eminent chief executives in the world, Lolly Daskal has uncovered a startling pattern: within each leader are powerful abilities that are also hidden impediments to greatness. She's witnessed many highly driven, overachieving leaders rise to prominence fueled by well-honed skill sets, only to falter when the shadow sides of the same skills emerge. Now Daskal reveals her proven system, which leaders at any level can apply to dramatically improve their results. It begins with identifying your distinctive leadership archetype and recognizing its shadow: ■ The Rebel, driven by confidence, becomes the Imposter, plagued by self-doubt. ■ The Explorer, fueled by intuition, becomes the Exploiter, master of manipulation. ■ The Truth Teller, who embraces candor, becomes the Deceiver, who creates suspicion. ■ The Hero, embodying courage, becomes the Bystander, an outright coward. ■ The Inventor, brimming with integrity, becomes the Destroyer, who is morally corrupt. ■ The Navigator, trusts and is trusted, becomes the Fixer, endlessly arrogant. ■ The Knight, for whom loyalty is everything, becomes the Mercenary, who is perpetually self-serving. Using psychology, philosophy, and her own experience, Daskal offers a breakthrough perspective on leadership. She'll take you inside some of the most cloistered boardrooms, let you in on deeply personal conversations with industry leaders, and introduce you to luminaries who've changed the world. Her insights will help you rethink everything you know to become the leader you truly want to be.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the

world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

The Way of Kings Brandon Sanderson, 2010-08-31 From #1 New York Times bestselling author Brandon Sanderson, *The Way of Kings*, Book One of the Stormlight Archive, begins an incredible new saga of epic proportion. Roshar is a world of stone and storms. Uncanny tempests of incredible power sweep across the rocky terrain so frequently that they have shaped ecology and civilization alike. Animals hide in shells, trees pull in branches, and grass retracts into the soiless ground. Cities are built only where the topography offers shelter. It has been centuries since the fall of the ten consecrated orders known as the Knights Radiant, but their Shardblades and Shardplate remain: mystical swords and suits of armor that transform ordinary men into near-invincible warriors. Men trade kingdoms for Shardblades. Wars were fought for them, and won by them. One such war rages on a ruined landscape called the Shattered Plains. There, Kaladin, who traded his medical apprenticeship for a spear to protect his little brother, has been reduced to slavery. In a war that makes no sense, where ten armies fight separately against a single foe, he struggles to save his men and to fathom the leaders who consider them expendable. Brightlord Dalinar Kholin commands one of those other armies. Like his brother, the late king, he is fascinated by an ancient text called *The Way of Kings*. Troubled by over-powering visions of ancient times and the Knights Radiant, he has begun to doubt his own sanity. Across the ocean, an untried young woman named Shallan seeks to train under an eminent scholar and notorious heretic, Dalinar's niece, Jasnah. Though she genuinely loves learning, Shallan's motives are less than pure. As she plans a daring theft, her research for Jasnah hints at secrets of the Knights Radiant and the true cause of the war. The result of over ten years of planning, writing, and world-building, *The Way of Kings* is but the opening movement of the Stormlight Archive, a bold masterpiece in the making. Speak again the ancient oaths: Life before death. Strength before weakness. Journey before Destination. and return to men the Shards they once bore. The Knights Radiant must stand again. Drive Daniel H. Pink, 2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Good to Great Jim Collins, 2001-10-16 The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a

culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?
