Creating the Jazz Solo Vic Hobson, 2018-10-09 Throughout his life, Louis Armstrong tried to explain how singing with a barbershop quartet on the streets of New Orleans was foundational to his musicianship. Until now, there has been no in-depth inquiry into what he meant when he said, "I figure singing and playing is the same," or, "Singing was more into my blood than the trumpet." Creating the Jazz Solo: Louis Armstrong and Barbershop Harmony shows that Armstrong understood exactly the relationship between what he sang and what he played, and that he meant these comments to be

taken literally: he was singing through his horn. To describe the relationship between what Armstrong sang and played, author Vic Hobson discusses elements of music theory with a style accessible even to readers with little or no musical background. Jazz is a music that is often performed by people with limited formal musical education. Armstrong did not analyze what he played in theoretical terms. Instead, he thought about it in terms of the voices in a barbershop quartet. Understanding how Armstrong, and other pioneer jazz musicians of his generation, learned to play jazz and how he used his background of singing in a quartet to develop the jazz solo has fundamental implications for the teaching of jazz history and performance today. This assertive book provides an approachable foundation for current musicians to unlock the magic and understand jazz the Louis Armstrong way.

Higher Math Jennifer Ball, 1991-11-01 Chronicles the life and times of amateur mathematician and former stand-up comic Marissa Moose Minnion who, due to an allergic reaction to Brazil nuts, is in a coma

Telling It Like It Is Joe Darenbourg, Peter Vacher, 1987-09-29 The autobiography of one of the foremost jazz clarinetists who is well known for his recordings with Edward 'Kid' Ory and the Louis Armstrong All Stars. Darenbourg was born in Baton Rouge, LA, in 1906 and heard many early New Orleans jazz bands as a young boy. For most of his life he lived on the West Coast and the book is a first-rate reference source for students of jazz and popular music in the urban centres of Seattle and Los Angeles.

George Lewis Tom Bethell, 2023-11-10 George Lewis, one of the great traditional jazz clarinetists, was born in 1900 at about the same time that jazz itself first appeared in New Orleans. And by the time he died, on the last day of 1968, New Orleans jazz had pretty much run its course, too. By then a jazz museum stood on Bourbon Street, and a cultural center was under construction where Globe Hall had stood. Lewis's life thus paralleled that of New Orleans jazz, and in his later years

new as the best known standard bearer of his city's music. He came to the attention of the jazz world at the time of the so-called New Orleans Revival of the 1940's, when veteran trumpeter Bunk Johnson was recorded by a number of jazz enthusiasts, notably William Russell. In this new biography, Tom Bethell challenges a favorite myth of the history of jazz: that the music became moribund in New Orleans after the legal red light district, Storyville, was closed in 1917, resulting in most jazz musicians going up the river. In fact, Bethell shows, many more jazzmen stayed in the city than left, and the musical style continued to develop and grow. Thus the jazz fans who arrived in the city in the early 1940's did not encounter a revival of an old style so much as an ongoing tradition, with clarinetists like Lewis having been influenced by Benny Goodman and the Swing Era in addition to Lorenzo Tio and the Creole School. After Bunk Johnson's death in 1949, at a time when many other social changes were beginning to be felt in the city, the New Orleans jazz tradition began to go into a decline. It became increasingly rigid and repetitive, and was often designed to please what one observer called Dixieland fans yelling for their favorite members. The book is based on lengthy research in New Orleans, including interviews with George Lewis shortly before his death, and unpublished material from the diaries kept by William Russell on his visits to New Orleans between 1942 and 1949. It also includes a statement by Lewis on jazz and the best way to play it and a complete Lewis discography. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1977.

McNeil's ultimate goal is to share his love of music and history and the ways in which they intertwine together throughout the years.

Hidden History of Louisiana's Jazz Age Sam Irwin ,2023 Step backstage in this look at little-known and utterly fascinating aspects of Jazz Age Louisiana. New Orleans' early jazz greats like Louis Armstrong, Jelly Roll Morton, Kid Ory and Buddy

Bolden had fascinating careers, but Hidden History of Louisiana's Jazz Age is filled with tales of murder, lust and adventure. Clarinetist Joe Darensbourg of Baton Rouge ran away and joined the circus three times before the age of 20. The Martel Band of Opelousas witnessed a legal public hanging of a convicted serial murderer in 1923 Evangeline Parish. Trumpeter Evan Thomas of Crowley could have been a rival to Satchmo but was cut down on the bandstand in the Promised Land neighborhood of Rayne, La. Author Sam Irwin explores the odd and quirky in these fascinating stories of the Roaring Twenties.--Provided by publisher.

Music in the USA Judith Tick,Paul Beaudoin,2008-09-26 Music in the USA: A Documentary Companion charts a path through American music and musical life using as guides the words of composers, performers, writers and the rest of us ordinary folks who sing, dance, and listen. The anthology of primary sources contains about 160 selections from 1540 to 2000. Sometimes the sources are classics in the literature around American music, for example, the Preface to the Bay Psalm Book, excerpts from Slave Songs of the United States, and Charles Ives extolling Emerson. But many other selections offer uncommon sources, including a satirical story about a Yankee music teacher; various columns from 19th-century German American newspapers; the memoirs of a 19th-century diva; Lottie Joplin remembering her husband Scott; a little-known reflection of Copland about Stravinsky; an interview with Muddy Waters from the Chicago Defender; a letter from Woody Guthrie on the spunkfire attitude of a folk song; a press release from the Country Music Association; and the Congressional testimony around Napster. Sidebar entries occasionally bring a topic or an idea into the present, acknowledging the extent to

which revivals of many kinds of music play a role in American contemporary culture. This book focuses on the connections between theory and practice to enrich our understanding of the diversity of American musical experiences. Designed especially to accompany college courses which survey American music as a whole, the book is also relevant to courses in American history and American Studies.

The Melody Man Bruce Bastin, 2012-08-01 Joe Davis (1896-1978), the focus of *The Melody Man*, enjoyed a fifty-year career in the music industry, which covered nearly every aspect of the business. He hustled sheet music in the 1920s; copyrighted compositions by artists as diverse as Fats Waller, Carson Robison, Otis Blackwell, and Rudy Vallee; oversaw hundreds of recording sessions; and operated several record companies beginning in the 1940s. Davis also worked fearlessly to help ensure that black recording artists and song writers gained equal treatment for their work. Much more than a biography, this book is an investigation of the role played by music publishers during much of the twentieth century. Joe Davis was not a music “great,” but he was one of those individuals who enabled “greats” to emerge. A musician, manager, and publisher, his long career reveals much about the nature of the music industry and offers insight into how the industry changed from the 1920s to the 1970s. By the summer of 1924, when Davis was handling the “race talent” for Ajax records, he had already worked in the music business for most of a decade, and there were more than five decades of musical career ahead of him. The fact that his fascinating life has gone so long underappreciated is remedied by the publication of this book. Originally published in England in 1990 as *Never Sell a Copyright: Joe Davis and His Role in the New York Music Scene, 1916-1978*, this book was never released in the United States and only made available in a very limited print run in England. The author, noted blues scholar and folklorist Bruce Bastin, has worked with fellow music scholar Kip Lornell to completely update, condense, and improve the book for this first-ever American edition.

Buck Clayton's Jazz World Buck Clayton, 1995-11-27 Spanning nearly seventy years, Buck Clayton's autobiography offers fascinating insights into not only the life of one of the most significant trumpeters and bandleaders in jazz, but also American social history in general. This engaging volume depicts Clayton's childhood in Parson, Kansas, where he learned how to play the trumpet and first came into contact with church and gospel music. It then details his move to the West Coast in the 1930s when he began to play jazz professionally. Clayton recounts the many important events that followed, including a Hollywood-style wedding, his trip to Shanghai in 1934 with his band, his involvement with the Count Basie Orchestra in New York, his enlistment in the U.S. Army in the 1940s, his work as a soloist and leader in both the U.S. and Europe, and his later career as an arranger and composer, as well as his days spent lecturing in jazz studies at Hunter College, City University of New York. Chronicling his encounters with many of the most influential jazz figures, such as Billie Holiday, Count Basie, Coleman Hawkins, Lester Young, and Jimmy Rushing, Clayton presents a fascinating record of jazz history, both in the United States and abroad.

Visions of Jazz Gary Giddins,1998-10-22 Poised to become a classic of jazz literature, *Visions of Jazz: The First Century* offers seventy-nine chapters illuminating the lives of virtually all the major figures in jazz history. From Louis Armstrong's renegade-style trumpet playing to Sarah Vaughan's operatic crooning, and from the swinging elegance of Duke Ellington to the pioneering experiments of Ornette Coleman, jazz critic Gary Giddins continually astonishes the reader with his unparalleled insight. Writing with the grace and wit that have endeared his prose to *Village Voice* readers for decades, Giddins also widens the scope of jazz to include such crucial American musicians as Irving Berlin, Rosemary Clooney, and Frank Sinatra, all primarily pop performers who are often dismissed by fans and critics as mere derivatives of the true jazz idiom. And he devotes an entire quarter of this landmark volume to young, still-active jazz artists, boldly expanding the horizons of jazz--and charting and exploring the music's influences as no other book has done.
