World of Darkness Core Rulebook , 2004-08-01 The world is not what you think. Beneath skyscrapers' leering gargoyles, factories belching smoke and streets packed with the human throng lurk things we are not meant to see. Creatures dwell in the shadows and hidden places. They watch you, stalk you and prey upon your body and soul. The life you lead is a lie. Your darkest fears aren't make-believe. They're real. And now that you have glimpsed this world of darkness, there's no place to hide. The Storytelling System Rulebook is a stand-alone game for the World of Darkness, and is meant for use with Vampire: The Requiem, Werewolf: The Forsaken and Mage: The Awakening.

Dread and Hope Joshua Wise,2022-02-03 Christianity was born in the midst of great expectation and fear about the world's future. The existing Jewish paradigm of the coming Messiah, his antithesis, and the initiation of the coming age set the stage for Christian beliefs about the end of the current age. However, the unexpected death and resurrection of Jesus caused that paradigm to be reformed within the burgeoning Christian faith, reshaping hopes, and reworking old patterns. Dread and Hope explores the ways in which those old paradigms were challenged by Jesus's death and resurrection, how the resulting eschatological landscape was understood within Christianity, and how modern popular culture has consumed and modified various components of Christian Hope. Joshua Wise examines how the central Christian eschatological themes such as the Antichrist, the Great Persecution, Heaven, and Hell have both been transformed and preserved in novels, television, films, and video games. Drawing on works such as 1984, Diablo, The Stand, What Dreams May Come, and the Fallout series, Dread and Hope considers how the human fears and desires shaped by Christian beliefs are expressed in popular culture.

Beyond Fun Drew Davidson,2008 This book focuses on strategies for applying games, simulations and interactive experiences in learning contexts. A facet of this project is the interactive and collaborative method in which it was created. Instead of separated individual articles, the authors and editors have orchestrated the articles together, reading and writing as a whole so that the concepts across the articles resonate with each other. It is our intention that this text will serve as the basis of many more discussions across conference panels, online forums and interactive media that in turn will engender more special collaborative issues and texts.

Holy War Tim Dedopulos, Lucien Soulban,2001-09 For centuries, supernatural powers have reigned, warring among themselves, culling the human herds and lashing out from the shadows. The creatures of the night have held court since before the dawn of history. Nothing lasts forever. From the throng of humanity, individuals emerge who know the truth. They know monsters exist. Enough is enough! The forces of darkness must pay their due. The time of retribution is at hand. Travel to the Fertile Crescent -- the Middle East and Egypt -- to discover what beasts lurk even under the desert sun.

The Multilingual Mind Michael Sharwood Smith, John Truscott,2014-02-06 This book is the first detailed description of a particular theoretical framework for studying language development and language performance. The framework is called MOGUL (Modular On-line Growth and Use of Language). It has been the topic of numerous publications and presentations

since the appearance of our 2004 keynote article in *Bilingualism: Language & Cognition*. MOGUL is not just about how a language grows in the individual child: it is about how the mind expands to accommodate more than one language both in childhood and later in life and how these various linguistic systems share space and interact--

Half the Sky Nicholas D. Kristof, Sheryl WuDunn, 2009-09-08 #1 NATIONAL BESTSELLER • A passionate call to arms against our era's most pervasive human rights violation—the oppression of women and girls in the developing world. From the bestselling authors of *Tightrope*, two of our most fiercely moral voices With Pulitzer Prize winners Nicholas D. Kristof and Sheryl WuDunn as our guides, we undertake an odyssey through Africa and Asia to meet the extraordinary women struggling there, among them a Cambodian teenager sold into sex slavery and an Ethiopian woman who suffered devastating injuries in childbirth. Drawing on the breadth of their combined reporting experience, Kristof and WuDunn depict our world with anger, sadness, clarity, and, ultimately, hope. They show how a little help can transform the lives of women and girls abroad. That Cambodian girl eventually escaped from her brothel and, with assistance from an aid group, built a thriving retail business that supports her family. The Ethiopian woman had her injuries repaired and in time became a surgeon. A Zimbabwean mother of five, counseled to return to school, earned her doctorate and became an expert on AIDS. Through these stories,

Kristof and WuDunn help us see that the key to economic progress lies in unleashing women's potential. They make clear how so many people have helped to do just that, and how we can each do our part. Throughout much of the world, the greatest unexploited economic resource is the female half of the population. Countries such as China have prospered precisely because they emancipated women and brought them into the formal economy. Unleashing that process globally is not only the right thing to do; it's also the best strategy for fighting poverty. Deeply felt, pragmatic, and inspirational, *Half the Sky* is essential reading for every global citizen.
