**Asian Yearbook of International Law, Volume 27 (2021)** ,2023-11-20 Launched in 1991, the Asian Yearbook of International Law is a major internationally-refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective. It is published under the auspices of the Foundation for the Development of International Law in Asia (DILA) in collaboration with DILA-Korea, the Secretariat of DILA, in South Korea. When it was launched, the Yearbook was the first publication of its kind, edited by a team of leading international law scholars from across Asia. It provides a forum for the publication of articles in the field of international law and other Asian international legal topics. The objectives of the Yearbook are two-fold: First, to promote research, study and writing in the field of international law in Asia; and second, to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues. Each volume of the Yearbook contains articles and shorter notes; a section on Asian state practice; an overview of the Asian states' participation in multilateral treaties and succinct analysis of recent international legal developments in Asia; a bibliography that provides information on books, articles, notes, and other materials dealing with international law in Asia; as well as book reviews. This publication is important for anyone working on international law and international relations.

**Philippine Materials in International Law** Raul C Pangalangan,2021-11-15 This is a collection of international law materials relating to the Philippines: excerpts of treaties and declarations; international judicial and arbitral decisions; and Philippine constitutional clauses, statutes and Supreme Court decisions. Today new theories abound, calling for comparative perspectives that look at international law through the lens of national and regional practice. This book engages with that challenge at a concrete level, e.g., how Marcos's human rights abuses were litigated abroad but never in Philippine courts, and how victim claims for reparations are, ironically, blocked by the Philippine Government citing the Filipino people's competing claims over Marcos's ill-gotten wealth. It retells Philippine history using international law, and re-examines

international law using the Philippine experience.

*The Privileges and Immunities of International Organizations in Domestic Courts* August Reinisch,2013-09-12

International organizations are increasingly operating across borders and engaging in legal transactions in virtually all jurisdictions. This makes, familiarity with the applicable law and practice imperative for both international organizations and those who engage in legal relations with them. Furthermore, the issue of whether, how, and to what extent domestic courts take into account decisions of foreign and international courts and tribunals in their own decision-making has become increasingly important in recent years. This book provides a comprehensive empirical study of this transnational judicial dialogue, focusing on the law and practice of domestic jurisdictions concerning the legal personality, privileges, and immunities of international organizations. It presents a selection of detailed country-by-country studies, examining the manner of judicial dialogue across domestic jurisdictions, and between national and international courts. The approach taken in this book intersects with three highly topical areas of international legal scholarship: the rapidly evolving law of international institutions; the burgeoning research into the role of domestic courts in the international legal system; and the recent rise of empirically-oriented legal scholarship. Utilizing OUP's International Law in Domestic Courts database, the book presents analysis of little-known cases which have real international significance, illustrating the impact and extent of transnational judicial dialogue in the international legal system. The book provides important perspectives on the evolution and status of the law of immunity of international organizations, and contributes to the understanding of relationships between national courts, and between national and international courts.
