

# Enemies Within The Global Politics Of Fifth Columns

**John E. Schmitz**

**Enemies Within** Scott Radnitz, 2022 The invocation of fifth columns in the political arena -- whether contrived or based on real fears -- has recurred periodically throughout history and is experiencing an upsurge in our era of democratic erosion and geopolitical uncertainty. Fifth columns accusations can have baleful effects on governance and trust, as they call into question the loyalty and belonging of the targeted populations. They can cause human rights abuses, political repression, and even ethnic cleansing. *Enemies Within* is the first book to systematically investigate the roots and implications of the politics of fifth columns. In this volume, a multidisciplinary group of leading scholars address several related questions: When are actors likely to employ fifth-column claims and against whom? What accounts for changes in fifth-column framing over time? How do the claims and rhetoric of governments differ from those of societal groups? How do accusations against ethnically or ideologically defined groups differ? Finally, how do actors labeled as fifth columns respond? To answer these questions, the contributors apply a common theoretical framework and work within the tradition of qualitative social science to analyze cases from three continents, oftentimes challenging conventional wisdom. *Enemies Within* offers a unique perspective to better understand contemporary challenges including the rise of populism and authoritarianism, the return of chauvinistic nationalism, the weakening of democratic norms, and the persecution of ethnic or religious minorities and political dissidents.

**Critical Issues in Contemporary China** Czeslaw Tubilewicz, 2024-09-11 The third edition of *Critical Issues in Contemporary China* offers an in-depth and up-to-date analysis of Xi Jinping's strategies to address critical domestic and international challenges facing China in a 'new era'. This book joins the current debates about Xi Jinping's 'new era', reflecting upon the continuity and change in the CCP's domestic and foreign policies under Xi's leadership and Xi's capacity to realize the Chinese Dream of national rejuvenation. The international team of contributors evaluate such pressing issues as: Xi's re-centralization of power and securitization of domestic politics the Chinese economic model state-civil society relations Xi's gender policy and return to the traditional family values Beijing's responses to unrest in Xinjiang and Hong Kong Xi's evolving unification strategies towards Taiwan the Belt and Road Initiative, and the deterioration of US-China relations. Providing readers with rich empirical assessment of Xi's responses to the political, economic, social and international challenges facing contemporary China, the third edition of *Critical Issues* will be an essential resource for

students of Chinese politics, economy, society and foreign relations.

**Glocalized Security** Abu Bakarr Bah,2025-06-03 What forces drive violent conflicts, and whose interests are protected by military involvement? In those conflicts, how do domestic factors fuse with external dynamics, and what issues spell the difference between successful and failed intervention? Enter Glocalized Security—a concept that argues that this fusion of domestic and external matters produces new war dynamics which require both substantial domestic reforms and realignment of external interests to achieve sustainable peace. In this edited collection, contributors use this concept to examine grievances and interests in and around war-torn countries. Combining a variety of disciplines, from sociology and political science to peace studies and public policy and administration, these case studies draw from over three decades of international military interventions around the world, including Afghanistan, Turkey, Somalia, Iraq, Nigeria, and Nepal. Analyzing the intersectional relationship of the local and global, Glocalized Security provides new insights into the problems of international security and why international military interventions often fail to ensure peace and security in conflict zones where these factors have morphed into terrorism warfare or zones of national interest among major world and regional powers. By focusing on ethnicity, religion, poverty, governance, and the other most common motivators of violent conflicts, Glocalized Security provides a crucial conceptual basis for understanding international relations in the twenty-first century.

*Religion and Genocide* Steven Leonard Jacobs,2022-10-31 Religion and Genocide: Changing the Conversation is a cutting-edge introduction to the complex and controversial relationship between religion and genocide. This book aims to widen the reader's understanding of religion and those who practice it, the nexus of religion and violence, and those who legitimate their violence by framing it in religious terms by looking at notions of holy wars, religious wars, and genocide and the practitioners of such. This book delves into our current thinking of ourselves as biological entities, our relationship to genocide, and the impact of geography (including climate change) and diseases on our humanity and our ability to commit genocide. Tying together all these seemingly disparate threads, this text concludes with the significant and still largely unanswered question: Where do we go from here?. Highlighting the complex relationship between religion and genocide, this is an essential read for students and academics studying religion and violence, Judaism, Judaic studies, and holocaust and genocide studies. Religion and Genocide will also be of interest to researchers in related subjects such as history, politics, sociology, and anthropology.

**The Christian Right in Europe** Gionathan Lo Mascolo,2023-11-30 Inspired by the success of the US Christian Right and the rise of the global far-right, ultraconservative Christians in Europe are joining forces and seek to reshape Europe. By assembling in anti-gender movements and sharing anti-Muslim narratives, they actively influence the political landscape and shape government policies. The contributors offer new perspectives on the protagonists and the entangled networks that work to abolish liberal democracy in Europe behind the scenes. This anthology is the first to bring together case studies on

the Christian Right in over 20 European countries, providing a transnational perspective and an accessible insight for clergy, politicians, and academics alike.

**Civic and Uncivic Values in Hungary** Sabrina P. Ramet, László Kürti, 2024-09-16 This book offers an analysis of values in Hungary. Following the proposition that civic values are crucial to liberal democracy and conducive to international peace, this book examines the extent to which these values are respected and practised in a number of policy spheres, with chapters devoted to the political system, the media, religion, relations with the European Union, history textbooks, cinema, Roma, and the attitudes of Hungarian women voters. The book also charts how, under Prime Minister Orbán, Hungary has gravitated away from the civic values spelled out in the Universal Declaration of Human Rights and the Charter of the European Union. This book will prove to be of great use to scholars and students of democracy, East Central Europe, minorities, Hungarian contemporary history and politics, civic culture, gender studies, nationalism, human rights, and more broadly the social sciences.

*State Responses to Anti-LGBT Violence* Piotr Godzisz,

Coming Clean Eric Heinze, 2025-04-08 What has gone wrong with the left—and what leftists must do if they want to change politics, ethics, and minds. Leftists have long taught that people in the West must take responsibility for centuries of classism, racism, colonialism, patriarchy, and other gross injustices. Of course, right-wingers constantly ridicule this claim for its “wokeness.” In *Coming Clean*, Eric Heinze rejects the idea that we should be less woke. In fact, we need more wokeness, but of a new kind. Yes, we must teach about these bleak pasts, but we must also educate the public about the left’s own support for regimes that damaged and destroyed millions of lives for over a century—Stalin in the Soviet Union, Mao Zedong in China, Pol Pot in Cambodia, or the Kim dynasty in North Korea. Criticisms of Western wrongdoing are certainly important, yet Heinze explains that leftists have rarely engaged in the kinds of open and public self-scrutiny that they demand from others. Citing examples as different as the Ukraine war, LGBTQ+ people in Cuba, the concept of “hatred,” and the problem of leftwing antisemitism, Heinze explains why and how the left must change its memory politics if it is to claim any ethical high ground.

Russia and Ukraine Maria Popova, Oxana Shevel, 2023-11-08 In February 2022, Russian missiles rained on Ukrainian cities, and tanks rolled towards Kyiv to end Ukrainian independent statehood. President Zelensky declined a Western evacuation offer and Ukrainians rallied to defend their country. What are the roots of this war, which has upended the international legal order and brought back the spectre of nuclear escalation? How did these supposedly “brotherly peoples” become each other’s worst nightmare? In *Russia and Ukraine: Entangled Histories, Diverging States*, Maria Popova and Oxana Shevel explain how since 1991 Russia and Ukraine diverged politically, ending up on a collision course. Russia slid back into authoritarianism and imperialism, while Ukraine consolidated a competitive political system and pro-European

identity. As Ukraine built a democratic nation-state, Russia refused to accept it and came to see it as an “anti-Russia” project. After political and economic pressure proved ineffective, and even counterproductive, Putin went to war to force Ukraine back into the fold of the “Russian world.” Ukraine resisted, determined to pursue European integration as a sovereign state. These irreconcilable goals, rather than geopolitical wrangling between Russia and the West over NATO expansion, are – the authors argue – essential to understanding Russia’s war on Ukraine.

*Embedded Autocracy* András Bozóki,Zoltán Fleck,2024-07-17 *Embedded Autocracy: Hungary in the European Union* considers the new Hungarian autocracy as a political regime that is deeply entrenched in the make-up of Hungarian society. The deterioration of the social conditions of democracy did not begin in 2010, when Viktor Orbán came to power, so it cannot be reduced to a leadership issue only. András Bozóki and Zoltán Fleck avoid the trap of historical determinism as well. The Orbán's regime is not based solely on the autocratic traits of the leader, nor on simply institutional failures, but on social contexts and cultural configurations. The analysis employed in this book is complex. Hungary's democratic future depends on our ability to understand the mechanisms of autocracy embedded in society. Scenarios for the destruction of democracy are voluminous, and autocratic legalism is one of them, which requires complex analytical tools to understand. Bozóki and Fleck describe the unexpected collapse of Hungarian democracy with the aim of contributing to the exposure of the structural weaknesses of contemporary democracy. Understanding the operational characteristics of the first autocratic regime within the European Union will contribute to the success of those policy makers who aspire to guard the stability of democracy.

*Rethinking Modern Polish Identities* Agnieszka Pasieka,Paweł Rodak,2023 A critical examination of the category of Polishness - that is, the formation, redefinition, and performance of various kinds of Polish identities - from a wide range of disciplinary perspectives. Inspired by new research in the humanities and social sciences as well as recent scholarship on national identities, this volume offers a rigorous examination of the idea of Polishness. Offering a diversity of case studies and methodological-theoretical approaches, it demonstrates a profound connection between national and transnational processes and places the Polish case in a broader context. This broader context stretches from a larger Eastern European one, a usual frame of comparison, to the overseas immigrant communities. The authors, renowned scholars from Europe and the United States, thus demonstrate that an understanding of modern Polish identity means crossing not only historical but also geographical boundaries. Consequently, the narrative on Polish identity that unfolds in the volume is a personalized and multivocal one that presents the perspectives of a wide range of subjects: peasants, workers, migrants, ethnic and sexual minorities-that is, all those actors who have been absent in grand national narratives. As such, the examination of Polishness sheds light on the identity question more broadly, emphasizing the interplay of pluralizing and homogenizing tendencies, and fostering a reflection on national identity as encompassing both sameness and difference.

**Varieties of Nationalism** Harris Mylonas,Maya Tudor,2023-08-03 Nationalism has long been a normatively and

empirically contested concept, associated with democratic revolutions and public goods provision, but also with xenophobia, genocide, and wars. Moving beyond facile distinctions between 'good' and 'bad' nationalisms, the authors argue that nationalism is an empirically variegated ideology. Definitional disagreements, Eurocentric conceptualizations, and linear associations between ethnicity and nationalism have hampered our ability to synthesize insights. This Element proposes that nationalism can be broken down productively into parts based on three key questions: (1) Does a nation exist? (2) How do national narratives vary? (3) When do national narratives matter? The answers to these questions generate five dimensions along which nationalism varies: elite fragmentation and popular fragmentation of national communities; ascriptiveness and thickness of national narratives; and salience of national identities.

**Weapons of the Wealthy** Scott Radnitz, 2010 Focusing on the region of post-Soviet Central Asia, Radnitz investigates the causes of elite-led protest in nondemocratic states, where economic and political opportunities create elites who are independent of the regime, yet vulnerable to harassment.

**Russia's National Security in Aleksandr Dugin's Neo-Eurasianism** Marcin Skladanowski, 2023-09-05 Aleksandr Dugin is an extremely radical thinker. Nevertheless, it is worth dealing with his thought because it shows in an exaggerated form how the evolution of social and political ideas took place in the history of Russia, which led to Putin's contemporary neo-imperialism. This book presents the Russian discourse on national security against a broader background of global academic reflection, takes a closer look at the sources and ideological basis of the concept of Russia's security developed by Dugin, discusses the subject and main dimensions of Russia's national security in Dugin's works, and shows the importance of Russia's foreign policy for the creation of its national security.

**Ideology and Meaning-Making under the Putin Regime** Marlene Laruelle, 2025-01-14 Much has been written to try to understand the ideological characteristics of the current Russian government, as well as what is happening inside the mind of Vladimir Putin. Refusing pundits' clichés that depict the Russian regime as either a cynical kleptocracy or the product of Putin's grand Machiavellian designs, *Ideology and Meaning-Making under the Putin Regime* offers a critical genealogy of ideology in Russia today. Marlene Laruelle provides an innovative, multi-method analysis of the Russian regime's ideological production process and the ways it is operationalized in both domestic and foreign policies. *Ideology and Meaning-Making under the Putin Regime* reclaims the study of ideology as an unavoidable component of the tools we use to render the world intelligible and represents a significant contribution to the scholarly debate on the interaction between ideas and policy decisions. By placing the current Russian regime into a broader context of different strains of strategic culture, ideological interest groups, and intellectual history, this book gives readers key insights into how the Russo-Ukrainian War became possible and the role ideology played in enabling it.

*The Politics of Nation-Building* Harris Mylonas, 2013-02-18 What drives a state's choice to assimilate, accommodate or

exclude ethnic groups within its territory? In this innovative work on the international politics of nation-building, Harris Mylonas argues that a state's nation-building policies toward non-core groups - individuals perceived as an ethnic group by the ruling elite of a state - are influenced by both its foreign policy goals and its relations with the external patrons of these groups. Through a detailed study of the Balkans, Mylonas shows that how a state treats a non-core group within its own borders is determined largely by whether the state's foreign policy is revisionist or cleaves to the international status quo, and whether it is allied or in rivalry with that group's external patrons. Mylonas injects international politics into the study of nation-building, building a bridge between international relations and the comparative politics of ethnicity and nationalism.

**The Zelensky Effect** Olga Onuch, Henry E. Hale, 2022-12-01 With Russian shells raining on Kyiv and tanks closing in, American forces prepared to evacuate Ukraine's leader. Just three years earlier, his apparent main qualification had been playing a president on TV. But Volodymyr Zelensky reportedly retorted, 'I need ammunition, not a ride.' Ukrainian forces won the battle for Kyiv, ensuring their country's independence even as a longer war began for the southeast. You cannot understand the historic events of 2022 without understanding Zelensky. But the Zelensky effect is less about the man himself than about the civic nation he embodies: what makes Zelensky most extraordinary in war is his very ordinariness as a Ukrainian. The Zelensky Effect explains this paradox, exploring Ukraine's national history to show how its now-iconic president reflects the hopes and frustrations of the country's first 'independence generation'. Interweaving social and political background with compelling episodes from Zelensky's life and career, this is the story of Ukraine told through the journey of one man who has come to symbolize his country.

*Strategic Review*, 1986 ... dedicated to the advancement and understanding of those principles and practices, military and political, which serve the vital security interests of the United States.

**Enemies Among Us** John E. Schmitz, 2021-08 Recent decades have drawn more attention to the United States' treatment of Japanese Americans during World War II. Few people realize, however, the extent of the country's relocation, internment, and repatriation of German and Italian Americans, who were interned in greater numbers than Japanese Americans. The United States also assisted other countries, especially in Latin America, in expelling "dangerous" aliens, primarily Germans. In *Enemies among Us* John E. Schmitz examines the causes, conditions, and consequences of America's selective relocation and internment of its own citizens and enemy aliens, as well as the effects of internment on those who experienced it. Looking at German, Italian, and Japanese Americans, Schmitz analyzes the similarities in the U.S. government's procedures for those they perceived to be domestic and hemispheric threats, revealing the consistencies in the government's treatment of these groups, regardless of race. Reframing wartime relocation and internment through a broader chronological perspective and considering policies in the wider Western Hemisphere, *Enemies among Us* provides new conclusions as to why the United States relocated, interned, and repatriated both aliens and citizens considered enemies.

**Routledge Handbook of Conspiracy Theories** Michael Butter, Peter Knight, 2020-02-17 Taking a global and interdisciplinary approach, the Routledge Handbook of Conspiracy Theories provides a comprehensive overview of conspiracy theories as an important social, cultural and political phenomenon in contemporary life. This handbook provides the most complete analysis of the phenomenon to date. It analyses conspiracy theories from a variety of perspectives, using both qualitative and quantitative methods. It maps out the key debates, and includes chapters on the historical origins of conspiracy theories, as well as their political significance in a broad range of countries and regions. Other chapters consider the psychology and the sociology of conspiracy beliefs, in addition to their changing cultural forms, functions and modes of transmission. This handbook examines where conspiracy theories come from, who believes in them and what their consequences are. This book presents an important resource for students and scholars from a range of disciplines interested in the societal and political impact of conspiracy theories, including Area Studies, Anthropology, History, Media and Cultural Studies, Political Science, Psychology and Sociology.

When somebody should go to the ebook stores, search instigation by shop, shelf by shelf, it is truly problematic. This is why we offer the books compilations in this website. It will entirely ease you to look guide **Enemies Within The Global Politics Of Fifth Columns** as you such as.

### **Enemies Within The Global Politics Of Fifth Columns Introduction**

In today's digital age, the availability of Enemies Within The Global Politics Of Fifth Columns books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Enemies Within The Global Politics Of Fifth Columns books and manuals for download, along with some

popular platforms that offer these resources. One of the significant advantages of Enemies Within The Global Politics Of Fifth Columns books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Enemies Within The Global Politics Of Fifth Columns versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Enemies Within The Global Politics Of Fifth Columns books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Enemies Within The Global Politics Of Fifth Columns books and manuals, several platforms offer an extensive collection of resources. One such platform is

Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Enemies Within The Global Politics Of Fifth Columns books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Enemies Within The Global Politics Of Fifth Columns books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital

libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Enemies Within The Global Politics Of Fifth Columns books and manuals for download and embark on your journey of knowledge?

### **FAQs About Enemies Within The Global Politics Of Fifth Columns Books**

1. Where can I buy Enemies Within The Global Politics Of Fifth Columns books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Enemies Within The Global Politics Of Fifth Columns book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi,

- etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations.  
Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Enemies Within The Global Politics Of Fifth Columns books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
  5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
  6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
  7. What are Enemies Within The Global Politics Of Fifth Columns audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
  8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
  9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
  10. Can I read Enemies Within The Global Politics Of Fifth Columns books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
