Ludlow Judy L. Neff, 2006 Disproportionate to its small size, Ludlow's history is undeniably spacious. Situated along the Ohio River, Ludlow is located in the northernmost region of Kentucky, south of Cincinnati. Although not officially incorporated until 1864, Ludlow had been established much earlier by a handful of affluent families. As an alternative to chaotic city life, Ludlow offered residents vast land and tranquil surroundings where they could build their estates. Shortly thereafter, however, the late 19th century would bring the railroad to Ludlow, sparking dramatic growth and expansion of the city. Images of America: Ludlow displays a spectrum of photographs, from the hardworking faces of the Cincinnati Southern Railroad to the lively happenings at the Lagoon Amusement Park. Opening in 1895, the amusement park provided over two decades of entertainment and leisure activities for the community. Extensively photographed, it now endows us with striking images featured in a unique chapter. Additional views of businesses, churches, schools, and citizens give further glimpses of early life in Ludlow. Several historic family homesteads are displayed, including Elmwood Hall, the city's earliest known permanent residence.

The Last Shelby Cobra Chris Theodore,2019-10-22 Carroll Shelby, legendary driving ace, race team owner, and designer of Shelby Cobra, Daytona, and Mustang GT350 classics is revered by automotive enthusiasts, yet little has been written about the last quarter century of Carroll Shelby's life. During that time Chris Theodore, VP at Chrysler and Ford, developed a close personal friendship with Carroll. The Last Shelby Cobra chronicles the development of the many vehicles they worked on together (Viper, Ford GT, Shelby Cobra Concept, Shelby GR1, Shelby GT500 and others). It is an insider's story about how Shelby came back to the Ford family, and the intrigue behind the five-year journey to get a Shelby badge on a Ford Production Vehicle. The author provides fresh insight and new stories into Shelby's larger-than-life personality, energy, interests and the many unpublished projects Carroll was involved with, up to his passing. Finally, the book describes their unfinished project, the Super Snake II Cobra, and the serendipitous circumstances that allowed to the author to acquire Daisy, the last Shelby Cobra. To his many fans, Carroll Shelby was truly the most interesting man in the world.

Kirtland Cutter Henry C. Matthews,2018-07-01 In the early years of the twentieth century, Spokane was singled out for praise in the West for the quality of its architecture and the impressive way it had rebuilt after the devastating fire of 1889. Major credit for the city's distinctive character was extended to Kirtland Kelsey Cutter for his rare architectural force and genius for design. His remarkable career, stretching from the Gilded Age to the Great Depression, allows a fascinating study of the evolution of an eclectic form of architecture that was an inevitable response to rich regional and historical influences during a time of transition from frontier settlements to modern city. Cutter's influence was felt beyond Spokane--in Seattle, other areas of Washington, and in Oregon, Idaho, and Montana. He was also responsible for buildings in the East and even for one in England. After financial problems ended his career in the Northwest, he began anew at age sixty-three in southern California, and worked there as an architect until his death in 1939 at age seventy-nine. Henry Matthews presents a comprehensive study of the whole body of Cutter's work, with ample photographs and illustrations. The book is based on exhaustive research in both the Northwest and California, revealing the influences on Cutter and his associates, the processes at work in the design and construction of the buildings, and the relations between the architect and the many people who commissioned his work. Particularly useful to Matthews's research was a collection of 290 sets of drawings, as well as office accounts, letters, and books from Cutter's library--materials acquired by the Eastern Washington State Historical Society. He also was able to interview former assistants and clients, who provided valuable insights on the architect and the way Cutter worked. In addition, many of the architect's residences, hotels, clubs, and commercial buildings are still standing. This book adds significantly to an understanding of Western urban and regional history. But Cutter's experimentation in many styles and the imaginative nature of his work make for a study that goes beyond regional limits and sheds light on national trends. Winner of the 1999 Washington State Book Award

Yann Tiersen - Kerber Yann Tiersen,2021-07-01 (Piano Solo Songbook). I think there is a similarity between the infinite big and the infinite smallness of everything, says Yann Tiersen. It's the same experiment looking through a microscope as it is a telescope. Named after a chapel in a small village on the island of Ushant, Kerber marks a new chapter in critically-acclaimed composer Yann Tiersen's career. A chapter still true to Tiersen's nuanced and subtle approach but one that sets out with his most overtly electronic material to date. Beautifully textured, highly immersive and thoughtfully constructed, Tiersen creates an electronic world, providing an environment in which the piano source exists. A sense of place has often been a central theme in Tiersen's work and here that is no different. Each track is tied to a place mapping out the immediate

landscape that surrounds Tiersen's home, linking back to his thoughts on the possibilities of the infinite smallness. This official, exclusive folio is beautifully printed on high-quality, uncoated paper with striking graphic artwork. All seven pieces are presented for solo piano and follow an exclusive introduction to the project.
