Two Way Teaching and Learning Nola Purdie, Gina Milgate, Hannah Rachel Bell, 2012-01-01 Within the Education Revolution lies another, quieter revolution that attempts to raise the profile and status, and improve the learning outcomes, of Australia's Aboriginal and Torres Strait Islander peoples - children, young adults, women and men. Two Way Teaching and Learning addresses the interface where two cultures meet - in the classroom, the school and the community. Most of the contributors to this book are Indigenous, and all are highly experienced practitioners drawn from academia, the teaching profession or the community. Together, and through a diversity of voices, they put the spotlight on policies and processes that facilitate informed, respectful relationships in education, as well as those that reinforce cultural inequity and inequality. The implications of policies that can be liberating, or devastating, for Aboriginal and Torres Strait Islander students at all levels are exposed and explored with forensic care.

Re-awakening Languages John Robert Hobson, 2010 The Indigenous languages of Australia have been undergoing a renaissance over recent decades. Many languages that had long ceased to be heard in public and consequently deemed 'dead' or 'extinct', have begun to emerge. Geographically and linguistically isolated, revitalisers of Indigenous Australian languages have often struggled to find guidance for their circumstances, unaware of the others walking a similar path. In this context *Re-awakening Languages* seeks to provide the first comprehensive snapshot of the actions and aspirations of Indigenous people and their supporters for the revitalisation of Australian languages in the 21st century. The contributions to this volume describe the satisfactions and tensions of this ongoing struggle. They also draw attention to the need for effective planning and strong advocacy at the highest political and administrative levels, if language revitalisation in Australia is to be successful and people's efforts are to have longevity.

Learning and Teaching Together Michele TD Tanaka,2016-11-15 Across Canada, new curriculum initiatives require teachers to introduce students to Aboriginal content. In response, many teachers unfamiliar with Aboriginal approaches to learning and teaching are seeking ways to respectfully weave this material into their lessons. Learning and Teaching Together introduces teachers of all levels to an indigenist approach to education. Tanaka recounts how pre-service teachers enrolled in a crosscultural course in British Columbia immersed themselves in indigenous ways of knowing as they worked alongside indigenous wisdom keepers. Transforming cedar bark, buckskin, and wool into a mural that tells stories about the land upon which the course took place, they discovered new ways of learning that support not only intellectual but also tactile, emotional, and spiritual forms of knowledge. By sharing how one group of non-indigenous teachers learned to privilege indigenous ways of knowing in the classroom, Tanaka opens a path for teachers to nurture indigenist crosscultural understanding in their own classrooms.

Aboriginal Ways of Using English Diana Eades,2013-06-14 This new collection by Professor Diana Eades addresses the way non-traditional language Aboriginal speakers of English use and speak English. Here she draws together some of her best writing over the past thirty years. Older chapters are brought up to date with contemporary reflections, informed by her many years' experience in research and teaching as well as the practical applications of her scholarly work. The introduction includes an overview about Aboriginal ways of speaking English and the implications for both education and the law, as well as discussing the use of the term 'Aboriginal English'. To understand Aboriginal ways of speaking English leads to be better understanding Aboriginal identity, a better engagement in intercultural communication, and learning about the complexities of how English is used by and with Aboriginal people in the legal process. This is invaluable reading for university undergraduates in a range of disciplines but also postgraduate courses where theres little information available. Educated readers and students with or without a linguistics background will find the book accessible.

Teaching Indigenous Students Thelma Perso,2020-07-16 Indigenous children, like all children, deserve a future they choose for themselves. This book aims to empower teachers to help halt the cycle of disadvantage for Aboriginal and Torres Strait Islander students and make a real difference to their relationships, learning outcomes and opportunities in the short and long term. Based on their many years of experience in teaching and research, the authors provide approaches that have been proven to be effective. There are strategies for developing sensitivity to a student's cultural background, creating a tone in the classroom conducive to learning, building strong teacher-student relationships and effectively managing student behaviour. The authors show how to bridge the demands of the curriculum with the learning Indigenous students bring with them to the classroom and how to work with the learning styles of Aboriginal and Torres Strait Islander students. There is a

focus on the best approaches for assessment and an exploration of the particular challenges for teachers of students in remote locations. Both practical and inspiring, this is an essential reference for all teachers working with Indigenous students, whether they be in the city or rural areas, in a class of twenty-five or just one student. 'Teaching Indigenous Students should be essential reading for all educators. This book will challenge the mind and stir the spirit of the practitioner and will help forge a new future for the teaching of Aboriginal and Torres Strait Islander students. A seminal piece of work.' - Professor Mark Rose, Executive Director of Indigenous Strategy and Education, La Trobe University 'Hayward and Perso provide the knowledge, wisdom and insights that guarantee success to any teacher who is prepared to embrace their messages, and work hard to make Indigenous students stronger and smarter.' - Dr Chris Sarra, Chairman, Stronger Smarter Institute 'This is a quality piece of work that will contribute to a more informed Australian teaching workforce and more happier and successful Indigenous learners.' - Professor Peter Buckskin PSM FACE, Dean, Indigenous Scholarship, Engagement and Research, University of South Australia Teaching Indigenous Students has been shortlisted for the 2016 Educational Publishing Awards in the category Tertiary (Wholly Australian) Student Resource.

Teaching Aboriginal Cultural Competence Barbara Hill, Jillene Harris, Ruth Bacchus, 2020-11-11 This book examines a collaborative partnership model between academia and Indigenous peoples, the goal of which is to integrate Indigenous perspectives into the curriculum. It demonstrates how the authentic and creative approaches employed have led to an evolution of curriculum and pedagogy that facilitates cultural competence among Australian graduate and undergraduate students. The book pursues an interdisciplinary approach based on highly practical examples, exemplars and methods that are currently being used to teach in this area. It focuses on facilitating student acquisition of knowledge, understanding, attitudes and skills, following Charles Sturt University's Cultural Competence Pedagogical Framework. Further, it provides insights into the use of reflective practice in this context, and practical ideas on embedding content and sharing practices, highlighting examples of potential "ways forward," both nationally and globally.

The text is lavishly illustrated with photographs, posters, paintings, prints, ads and cartoons. Teaching Aboriginal Studies is the product of consultation and collaboration across Australia. Remarkable educators and achievers, both Aboriginal and other

Australians, tell what teachers need to know and do to help Aboriginal students reach their potential, educate all students about Aboriginal Australia and make this country all that we can be. 'The importance of this book cannot be overestimated. We have been insisting for years that pre-service teachers be required to learn about Aboriginal history, culture and identity, and that it be regarded as integral to qualifying for their education degrees.' Lionel Bamblett, General Manager, Victorian Aboriginal Education Association Inc.

Indigenous Education in Australia Marnee Shay,Rhonda Oliver,2021-03-15 This is an essential, practical resource for pre- and in-service educators on creating contexts for success for Aboriginal and Torres Strait Islander students. Based on the latest research and practice, this book provides an in-depth understanding of the colonised context within which education in Australia is located, with an emphasis on effective strategies for the classroom. Throughout the text, the authors share their personal and professional experiences providing rich examples for readers to learn from. Pedagogical Alliances between Indigenous and Non-Dualistic Cultures Neal Dreamson,2018-07-11 Pedagogical Alliances Between Indigenous and Non-Dualistic Cultures examines Indigenous education for authentic intercultural education. It critically reviews various Indigenous cultural and educational perspectives in Western education contexts, addresses relevant meta-cultural concerns, argues for pedagogical alliances cross non-dualistic cultures/religions, and articulates metaphysical approaches to the alliances. Throughout the book, the author argues that methodological enhancement of Indigenous culture can be made by proposing new values that emerge from authentic intercultural interaction, which is transcendental to the binary oppositions of Indigenous and Western education. To do so, the author discovers pedagogical and methodological vulnerabilities of Indigenous culture in Western education systems, and proposes its pedagogical alliances with non-dualistic cultures (such as Buddhist mindful pedagogy, Confucius virtues pedagogy, and Hindu contemplative pedagogy) to overcome the frame of Indigenous and Western cultures for Indigenous education and to strengthen both Indigenous and non-dualistic education. This is the first book to address the issue of why non-Indigenous cultures other than Western cultures have not been considered in Indigenous and multicultural education. As such it is an invaluable text for education academics and post-graduate students specialising in Indigenous education, cross-cultural education, inclusive pedagogy and intercultural education.

Disciplining the Savages, Savaging the Disciplines Martin N. Nakata,2007 Martin Nakata's book, *Disciplining the Savages: Savaging the Disciplines* represents the most focussed and sustained Indigenous critique of anthropological knowledge yet published. It is impressive, rigorous, and sometimes poignant: a must-read for anyone concerned with the troubled interplay of Indigenous issues and academic institutions in Australia today. The book provides an alternative reading

for those struggling at the contradictor and, ambiguous intersections of academia and Indigenous experience. In doing so it moves beyond the usual, criticisms of the disciplines which construct the way we have come to know and understand indigenous peoples. Nakata, a Torres Strait Islander academic, casts a critical gaze on the research conducted by the Cambridge Expedition in the late 1890s. Meticulously analysing the linguistic, physiological, psychological and anthropological testing conducted he offers an astute critique of the researchers' methodologies and interpretations.. He uses these insights to reveal the similar workings of recent knowledge production in Torres Strait education. In systematically deconstructing these knowledges, Nakata draws eloquently on both the Torres Strait Islander struggle and his own personal struggle to break free from imposed definitions, and reminds us that such intellectual journeys are highly personal and political. Nakata argues for the recognition of the complexity of the space Indigenous people now live in -- the cultural interface -- and proposes an alternative theoretical standpoint to account for Indigenous experience of this space.

Sustainable Learning Lorraine Graham, Jeanette Berman, Anne Bellert, 2015-01-15 The book provides readers with the knowledge and skills to be confident and effective inclusive teachers for 21st century classrooms.

Understanding Early Childhood Education and Care in Australia Joanne Ailwood, 2020-07-16 In order to effectively practise as an early childhood educator it is essential to understand the theories, policies and pedagogy that shape the discipline. *Understanding Early Childhood Education and Care in Australia* provides core foundational knowledge that is critical for best practice. Part One looks at concepts of childhood and the development of mass education before examining influential theories including developmental psychology, sociology, feminisms and critical theory. Specific approaches are also analysed including Reggio Emilia, Montessori, Multiple Intelligences and HighScope. Part Two focuses on the guiding frameworks and policies in Australia and explores in depth issues affecting Indigenous children and provisions for recognising diversity and the practice of inclusion. The final section examines teaching and leadership and considers curriculum, pedagogy and assessment, building relationships between staff and families, the care of babies and infants, the environment in which early childhood education takes place and the responsibilities and professional development of teachers. This essential reference will ensure pre-service teachers develop a sophisticated understanding of how theory underpins effective practice in early childhood education.
