Becoming Aware Daniel J. Siegel, MD,2021-10-05 This hands-on user's guide to the groundbreaking Wheel of Awareness meditation practice featured in the New York Times bestseller *Aware* takes readers step-by-step through a twenty-one-day journey to discover what it means to be truly present and aware in our daily lives. In today's increasingly fast-paced world it can be difficult to find moments to catch your breath, regain inner balance, and just . . . be. This simple yet profound guide shows readers how to strengthen their minds by learning to focus attention, open awareness, and develop a positive state of mind—the three pillars of mindfulness practice that research shows lead to greater physical and mental well-being. Psychiatrist and cofounder of the Mindsight Institute, Daniel J. Siegel, M.D., created the science-grounded meditation practice called the Wheel of Awareness to unlock the power of the brain to integrate its many functions and develop internal resources that lead to an enduring sense of calm and quiet. Packed with guided meditation instructions, practical exercises, and everyday tools and techniques, *Becoming Aware* meets readers where they are and offers a simple program to enhance our inner sense of clarity and even our interpersonal well-being.

The Laws of Human Nature Robert Greene,2018-10-25 WINNER OF THE INTERNATIONAL BUSINESS BOOK AWARD 2019 From the million-copy bestselling author of *The 48 Laws of Power* Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defence.

The book aims to identify an appropriate and applicable legal framework which supports legal certainty for cross-border estate planning and protects the legitimate expectations of the relevant parties. This is an area of private international law that has yet to be handled satisfactorily - as can be seen by the inadequate treatment of clawback from third parties in the 1989 Hague Convention on the Law Applicable to Succession to the Estates of Deceased Persons, and the 2012 EU Succession Regulation.
