A Neotropical Companion John C. Kricher,1997 Widely praised, *A Neotropical Companion* is an extraordinarily readable introduction to the American tropics, the lands of Central and South America, their rainforests and other ecosystems, and the creatures that live there. 177 color illustrations.

International Tourism Marie-Françoise Lanfant,John B Allcock,Edward M Bruner,1995-08-15 `This book is one of several indications that the sociology of tourism is on the move.... these articles raise relevant important themes in the study of tourism.... The contributors to this very readable book provide valuable insights, many of which have been derived from empirical research, that should interest anyone involved in the study of international tourism. And by moving us away from polarised positions over the social impact of tourism toward more complex but also more considered perspectives they have also helped alter the agenda for future research´ - David Harrison, University of Sussex Tourism is becoming an increasingly prominent feature of contemporary life. More of us travel for pleasure than ever before, yet the social scientific literature on tourism is relatively scant. This book provides an original contribution to the field of tourist studies. The contributors to *International Tourism* reconceptualize the local and the global, avoiding such crude oppositions as centre v periphery, modern v traditional, macro v micro and North v South. Instead, they demonstrate that the local cannot be understood without the global, and that the global can never be isolated from the regional setting within which it operates. Providing new insights into theories of touristic practice, this volume places tourism within the same framework as other transnational global studies.

European Prison Rules Council of Europe. Committee of Ministers,2006-01-01 This publication examines the rules in force in Europe governing prisons and the treatment of prisoners, including the use of force, the selection of prison staff and the protection of prisoners' human rights, based on Recommendation Rec (2006) 2 on the European Prison Rules (which was adopted by the Committee of Ministers of the Council of Europe in January 2006). It contains the text of the recommendation

with a detailed commentary on it, together with a report which considers recent developments and analyses the effectiveness of these rules and of imprisonment as a form of punishment.

Science Education Research and Practice in Europe Doris Jorde, Justin Dillon, 2012-12-17 Each volume in the 7-volume series *The World of Science Education* reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe, Arab States, and Sub-Saharan Africa. The focus of this Handbook is on science education in Europe. In producing this volume the editors have invited a range of authors to describe their research in the context of developments in the continent and further afield. In reading this book you are invited to consider the historical, social and political contexts that have driven developments in science education research over the years. A unique feature of science education in Europe is the impact of the European Union on research and development over many years. A growing number of multi-national projects have contributed to the establishment of a community of researchers increasingly accepting of methodological diversity. That is not to say that Europe is moving towards homogeneity, as this volume clearly shows.

Ten Landscapes Mario Schjetnan , Mario Schjetan is one of the world's most versatile and accomplished contemporary landscape architects -- a cosmopolitan designer who is also empathetically Mexican. His work has been influenced by Mexican art, by twentieth-century awareness, and by his friendships with modernist designers, including Luis Barragan, Max Cetto, and Mario Pani. He has worked on historic and modern sites, and has successfully adapted his work to the increasingly global demands on landscape design.

History and the Historians of Medieval Spain Peter Linehan, 1993 A study of medieval Spain and its historians, from the chroniclers of the Middle Ages to the revisionists of the post-Franco era. This book reveals history in the making during the 800 years between the Roman period and what is now described as the birth of the modern state.

Envisioning an English Empire Robert Appelbaum, John Wood Sweet, 2012-05-23 *Envisioning an English Empire* brings together leading historians and literary scholars to reframe our understanding of the history of Jamestown and the literature of empire that emerged from it. The founding of an English colony at Jamestown in 1607 was no isolated incident. It was one event among many in the long development of the North Atlantic world. Ireland, Spain, Morocco, West Africa, Turkey, and the Native federations of North America all played a role alongside the Virginia Company in London and English settlers on the ground. English proponents of empire responded as much to fears of Spanish ambitions, fantasies about discovering gold, and dreams of easily dominating the region's Natives as they did to the grim lessons of earlier, failed outposts in North America. Developments in trade and technology, in diplomatic relations and ideology, in agricultural practices and property relations were as crucial as the self-consciously combative adventurers who initially set sail for the Chesapeake. The collection begins by exploring the initial encounters between the Jamestown settlers and the Powhatan Indians and the

relations of both these groups with London. It goes on to examine the international context that defined English colonialism in this period—relations with Spain, the Turks, North Africa, and Ireland. Finally, it turns to the ways both settlers and Natives were transformed over the course of the seventeenth century, considering conflicts and exchanges over food, property, slavery, and colonial identity. What results is a multifaceted view of the history of Jamestown up to the time of Bacon's Rebellion and its aftermath. The writings of Captain John Smith, the experience of Powhatans in London, the letters home of a disappointed indentured servant, the Moroccans, Turks, and Indians of the English stage, the ethnographic texts of early explorers, and many other phenomena all come into focus as examples of the envisioning of a nascent empire and the Atlantic world in which it found a hold.

Emblemata Andrea Alciati, 1996 Recognition of the great importance in Renaissance culture of the versatile and complex form of the emblem is increasingly widespread. This series aims to satisfy the needs of those who require access to texts in an edition as close to the original as possible.

Another Knowledge Is Possible Boaventura de Sousa Santos, 2020-05-05 This is the third volume of the series Reinventing Social Emancipation: Towards New Manifestoes. Another Knowledge Is Possible explores the struggles against moral and cultural imperialism and neoliberal globalization that have taken place over the past few decades, and the alternatives that have emerged in countries throughout the developing world from Brazil and Colombia, to India, South Africa and Mozambique. In particular it looks at the issue of biodiversity, the confrontation between scientific and non-scientific knowledges, and the increasing difficulty experienced by great numbers of people in accessing information and scientific-technological knowledge.

The End of the Cognitive Empire Boaventura de Sousa Santos, 2018-07-16 In *The End of the Cognitive Empire* Boaventura de Sousa Santos further develops his concept of the epistemologies of the South, in which he outlines a theoretical, methodological, and pedagogical framework for challenging the dominance of Eurocentric thought. As a collection of knowledges born of and anchored in the experiences of marginalized peoples who actively resist capitalism, colonialism, and patriarchy, epistemologies of the South represent those forms of knowledge that are generally discredited, erased, and ignored by dominant cultures of the global North. Noting the declining efficacy of established social and political solutions to combat inequality and discrimination, Santos suggests that global justice can only come about through an epistemological shift that guarantees cognitive justice. Such a shift would create new, alternative strategies for political mobilization and activism and give oppressed social groups the means through which to represent the world as their own and in their own terms.

The World as Design Otl Aicher, 2015-04-27 Otl Aicher's writings are explorations of the world, a substantive part of his work. In moving through the history of thought and design, building and construction, he assures us of the possibilities of

arranging existence in a humane fashion. As ever he is concerned with the question of the conditions needed to produce a civilised culture. These conditions have to be fought for against apparent factual or material constraints and spiritual and intellectual substitutes on offer. Otl Aicher likes a dispute. For this reason, the volume contains polemical statements on cultural and political subjects as well as practical reports and historical exposition. He fights with productive obstinacy, above all for the renewal of Modernism, which he claims has largely exhausted itself in aesthetic visions; he insists the ordinary working day is still more important than the cultural Sunday. Wolfgang Jean Stock

Common Pierre Dardot, Christian Laval, 2019-01-24 Around the globe, contemporary protest movements are contesting the oligarchic appropriation of natural resources, public services, and shared networks of knowledge and communication. These struggles raise the same fundamental demand and rest on the same irreducible principle: the common. In this exhaustive account, Pierre Dardot and Christian Laval show how the common has become the defining principle of alternative political movements in the 21st century. In societies deeply shaped by neoliberal rationality, the common is increasingly invoked as the operative concept of practical struggles creating new forms of democratic governance. In a feat of analytic clarity, Dardot and Laval dissect and synthesize a vast repository on the concept of the commons, from the fields of philosophy, political theory, economics, legal theory, history, theology, and sociology. Instead of conceptualizing the common as an essence of man or as inherent in nature, the thread developed by Dardot and Laval traces the active lives of human beings: only a practical activity of commoning can decide what will be shared in common and what rules will govern the common's citizen-subjects. This re-articulation of the common calls for nothing less than the institutional transformation of society by society: it calls for a revolution.

The Latin Chronicle of the Kings of Castile Joseph F. O'Callaghan, 2002

The Burdens of Disease J. N. Hays, J. Hays, 2009-10-15 A review of the original edition of *The Burdens of Disease* that appeared in *ISIS* stated, Hays has written a remarkable book. He too has a message: That epidemics are primarily dependent on poverty and that the West has consistently refused to accept this. This revised edition confirms the book's timely value and provides a sweeping approach to the history of disease. In this updated volume, with revisions and additions to the original content, including the evolution of drug-resistant diseases and expanded coverage of HIV/AIDS, along with recent data on mortality figures and other relevant statistics, J. N. Hays chronicles perceptions and responses to plague and pestilence over two thousand years of western history. Disease is framed as a multidimensional construct, situated at the intersection of history, politics, culture, and medicine, and rooted in mentalities and social relations as much as in biological conditions of pathology. This revised edition of *The Burdens of Disease* also studies the victims of epidemics, paying close attention to the relationships among poverty, power, and disease.

Cultural Tourism bob Mckercher, hilary du cros, 2012-10-02 Examine cultural tourism issues from both sides of the

industry! Unique in concept and content, *Cultural Tourism: The Partnership Between Tourism and Cultural Heritage Management* examines the relationship between the sectors that represent opposite sides of the cultural tourism coin. While tourism professionals assess cultural assets for their profit potential, cultural heritage professionals judge the same assets for their intrinsic value. Sustainable cultural tourism can only occur when the two sides form a true partnership based on understanding and appreciation of each other's merits. The authors--one, a tourism specialist, the other, a cultural heritage management expert--present a model for a working partnership with mutual benefits, integrating management theory and practice from both disciplines. *Cultural Tourism* is the first book to combine the different perspectives of tourism management and cultural heritage management. It examines the role of tangible (physical evidence of culture) and intangible (continuing cultural practices, knowledge, and living experiences) heritage, describes the differences between cultural tourism products and cultural heritage assets, and develops a number of conceptual models, including a classification system for cultural tourists, indicators of tourism potential at cultural and heritage assets, and assessment criteria for cultural and heritage assets with tourism potential. *Cultural Tourism* examines the five main constituent elements involved in cultural tourism: cultural and heritage assets in tourism sites such as the Royal Palace in Bangkok, the Cook Islands, and Alcatraz Prison in San Francisco. tourism--what it is, how it works, and what makes it a success five different types of cultural tourists consumption of products, value adding, and commodification integrating the first four elements to satisfy the tourist, meet the needs of the tourism industry, and conserve the intrinsic value of the asset Though tourism and cultural heritage management professionals have mutual interests in the management, conservation, and presentation of cultural and heritage assets, the two sectors operate on parallel planes, maintaining an uneasy partnership with surprisingly little dialogue. *Cultural Tourism* provides professionals and students in each field with a better understanding of their own roles in the partnership, bridging the gap via sound planning, management, and marketing to produce top-quality, long-lasting cultural tourism products. Now translated into simplified Chinese.

Epistemologies of the South Boaventura de Sousa Santos, 2015-11-17 This book explores the concept of 'cognitive injustice': the failure to recognise the different ways of knowing by which people across the globe run their lives and provide meaning to their existence. Boaventura de Sousa Santos shows why global social justice is not possible without global cognitive justice. Santos argues that Western domination has profoundly marginalised knowledge and wisdom that had been in existence in the global South. She contends that today it is imperative to recover and valorize the epistemological diversity of the world. *Epistemologies of the South* outlines a new kind of bottom-up cosmopolitanism, in which conviviality, solidarity and life triumph against the logic of market-ridden greed and individualism.
