Cicero's Philosophy Stefano Maso, 2022-01-19 Cicero was not only a great Roman politician, lawyer and orator: he also dealt extensively with philosophy, which he believed constituted the surest foundation for his commitment to civic affairs. Not limiting himself to the translation of previous philosophical thought, he critically addressed central theoretical questions, and thereby made a lasting impact on Roman intellectual life. This book offers a modern guide to interpretations of Cicero's philosophical studies, one that ranges across his numerous philosophical works. Addressed to students and scholars of ancient philosophy, and to interested readers in the humanities more generally, the volume aims to break down the boundaries between the philosophical, literary and linguistic dimensions of Cicero's highly influential oeuvre. Stefano Maso is a full professor in Ancient Philosophy at the University of Ca' Foscari - Venice. Among his books are: *Grasp and Dissent: Cicero and Epicurean Philosophy* (Brepols 2015); *Epicurus on Eidola: Peri Phuseos Book II. Update, Proposals, and Discussions* (ed. with F. Masi, Hakkert 2015). He is co-editor of "Lexis. Poetica, retorica e comunicazione nella tradizione classica".

Über das Schicksal / De fato Marcus Tullius Cicero, 2019-08-05 Cicero's *De fato* reflects the discussion that took place in the age of Hellenism about whether everything that happens is determined by fate in a way that makes this writing worth reading not only as a philosophical-historical testimony, but also as a contribution to systematic philosophy. For the question of fate is illuminated in it not only from the various perspectives from which the Stoics, Epicureans and Neo-Academics discussed it, but also from the various aspects from which it was the subject of this discussion as a problem touching on natural philosophy and ethics as well as logic. The fact that Cicero does not content himself with reporting on this discussion, but rather engages in it himself as an advocate of the Neo-Academics, lends his writing a special charm.

Über das Schicksal / De fato Cicero, 2013-02-27 Ist das menschliche Handeln vorbestimmt oder kann der Einzelne frei entscheiden? In Auseinandersetzung mit den Positionen von Chrysipp, Epikur und Carneades gelangt Cicero zur Auffassung, dass es für den menschlichen Willen keine von außen wirkenden und vorausgehenden Ursachen gebe, die diesen Entscheidungsprozess bestimmen. Die Mitte 44 v.Chr. begonnene und unvollendet gebliebene Schrift schließt sich unmittelbar an *De divinatione* und *De natura deorum* an.

Eingeordnete Freiheit H.S. Benjamins, 2015-12-22 *Eingeordnete Freiheit* compares Origen's notion of freedom of choice with the concepts of contemporary philosophers. The first chapter deals with the philosophical problem of freedom of choice throughout the history of Greek philosophy. In the second chapter Origen's writing on this topic is assembled, translated, analyzed and commented upon. The comparison between Origen and his contemporaries leads in chapter three to the conclusion that Origen's concept of freedom differs especially from the philosophical perspective, since human freedom does not stand in opposition to the inevitable pattern of the *pronoia* or *heimarmene* but to God's care for every individual. Chapter four shows that the notion of *oikonomia* in Christian theology is based on the concept of providence in Origen.

Caesarism, Charisma and Fate Peter Baehr, 2017-12-02 How do writers, marginalized by the authoritarian state in which they live, intervene in the political process? They cannot do so directly because they are not politicians. Other modes of engagement are possible, however. A writer may take up arms and become a revolutionary. Or, as Max Weber did, he may try to influence politics by playing the role of constitutional advisor, or by seeking to shape the dominant language in which his contemporaries think. Weber sought to reconstitute the political and social vocabulary of his day. Part I of *Caesarism, Charisma and Fate* examines a great writer's political passions and the linguistic creativity they generated. Specially, it is an analysis of the manner in which Weber reshaped the nineteenth century idea of Caesarism, a term traditionally associated with the authoritarian populism of Napoleon III and Bismarck, and transmuted it into a concept that was either neutral or positive. The coup de grace of this alchemy was to make Caesarism reappear as charisma. In that transformation, a highly contentious political concept, suffused with disapproval and anxiety, was naturalized into an ideal type of universal value-free sociology. Part II augments Weber's ideas for the modern age. A recurrent preoccupation of Weber's writings was human fate, a condition that evokes the pathos of choice, the political meaning of death, and the formation of national solidarity. Peter Baehr, marrying Weber and Durkheim, fashions a new concept, community of fate, for sociological theory. Communities of fate--such as the Warsaw Ghetto or Hong Kong dealing with the Severe Acute Respiratory Syndrome (SARS) crisis--are embattled social sites in which people face the prospect of collective death. They cohere because of an intense and broadly shared focus of attention on a common plight. Weber's work helps us grasp the nature of such communities, the mechanisms

that produce them, and, not least, their dramatic consequences.

Brill's New Pauly: Equ-Has Hubert Cancik,Helmuth Schneider,Christine F. Salazar,David E. Orton,2002 Brill's New Pauly is the English edition of the authoritative Der Neue Pauly, published by Verlag J. B. Metzler since 1996. The encyclopaedic coverage and high academic standard of the work, the interdisciplinary and contemporary approach and clear and accessible presentation have made the New Pauly the unrivalled modern reference work for the ancient world. Fifteen volumes (Antiquity, 1-15) of Brill's New Pauly are devoted to Greco-Roman antiquity and cover more than two thousand years of history, ranging from the second millennium BC to early medieval Europe. Special emphasis is given to the interaction between Greco-Roman culture on the one hand, and Semitic, Celtic, Germanic, and Slavonic culture, and ancient Judaism, Christianity, and Islam on the other hand. Five volumes (Classical Tradition, I-V) are uniquely concerned with the long and influential aftermath of antiquity and the process of continuous reinterpretation and revaluation of the ancient heritage, including the history of classical scholarship. Brill's New Pauly presents the current state of traditional and new areas of research and brings together specialist knowledge from leading scholars from all over the world. Many entries are elucidated with maps and illustrations and the English edition will include updated bibliographic references. --Book Jacket.

Absent Mothers and Orphaned Fathers Susan E. Gustafson,1995 Gustafson provides a comprehensive overview of Lessing's comments on the structure and purpose of the domestic tragedy within the context of his Laokoon essay, demonstrating that the fundamental psychic-deep structures informing his aesthetic and dramatic production are male narcissism and the abjection of the woman/the mother. As opposed to earlier studies of gender/generic questions in Lessing's dramas, this analysis explicates the theoretical basis for the rigid codification of gender which informs Lessing's fictional symbolic order.
