El mundo estudia español. 2018 , El presente informe bienal tiene el objetivo de dar a conocer la situación de la enseñanza del español en los países en los que el Ministerio de Educación y Formación Profesional (MEFP) está presente. La publicación analiza también la puesta en práctica de los diferentes programas del Ministerio en los treinta y cuatro países estudiados. Los objetivos marcados en cada uno de ellos responden en gran medida a las circunstancias y necesidades para las que fueron creados esos programas. En el caso, por ejemplo, del programa de las Agrupaciones de Lengua y Cultura Españolas (ALCE), y también en parte de los Centros de Titularidad española, en países como Alemania, Bélgica, Francia, Italia, Luxemburgo, Portugal, Países Bajos o Suiza, uno de los objetivos principales es el de mantener y mejorar el español y el contacto con la cultura española entre los descendientes de españoles que se encuentran en el extranjero, así como mantener una presencia en lugares con fuerte relación histórica con España, como es el caso de Marruecos. También el programa de Centros de Titularidad Mixta persigue de alguna manera mantener los lazos con las colonias de españoles y descendientes que se encuentran al otro lado del Atlántico, en países como Brasil y Argentina. En otras ocasiones los esfuerzos se dirigen al alumnado nativo de los países destinatarios de los programas. Los estudiantes de español en estos centros profundizan en sus conocimientos mediante la metodología AICLE, de manera que el aprendizaje de la lengua extranjera va acompañado de contenidos culturales fundamentales, gracias a asignaturas como Literatura o Geografía e Historia. Es el caso del programa de Secciones Españolas, implantado en países como Francia, Italia o Estados Unidos, o el de Secciones Bilingües, que se extiende por países de Europa central, Europa oriental y China. Los programas de Auxiliares de Conversación y de Profesores Visitantes contribuyen, además, a fomentar el intercambio lingüístico, cultural y académico, poniendo en contacto directo a estudiantes y profesores de los países que participan en estos programas, con el apoyo significativo de la red de Asesorías Técnicas y de los Centros de Recursos Didácticos.

El mundo estudia español. 2009 Zaccagnini de Ory, Esther ,2009 Esta publicación pretende ser una radiografía de la presencia de la lengua y culturas españolas en los sistemas educativos de una treintena de países de los cinco continentes. A través de ella se puede comprobar cómo cada año crece el número de personas que estudian español como segunda lengua. Al profundizar en los datos de esta edición se observa que el español en los sistemas reglados de enseñanza primaria y

secundaria es el primer idioma extranjero elegido por los alumnos, o es estudiado como segundo idioma extranjero y, en algunos casos, como tercero o cuarto. La obra se estructura en la exposición de los datos del país analizado y en una descripción de su sistema educativo: tipos de centros educativos, fuentes de financiación, competencias educativas y etapas del sistema con tablas de datos del alumnado de cada una de ellas. El análisis de cada país se cierra con una conclusión, referencias de información complementaria y un glosario de términos educativos.

El mundo estudia español. 2016 , El presente informe bienal tiene el objetivo de dar a conocer la situación de la enseñanza del español en los que el Ministerio de Educación, Cultura y Deporte (MECD) está presente. El informe tiene una estructura similar a ediciones anteriores aunque presta mayor atención a la descripción de la situación de la enseñanza del español en cada país y recoge de forma más esquemática los datos sobre el país y su sistema educativo. La presente publicación analiza la puesta en práctica de los diferentes programas del MECD en los treinta y tres países estudiados. En primer lugar, cabe destacar la variedad y flexibilidad de los programas, que se adaptan a situaciones sociales y demográficas sumamente contrastadas, y a marcos normativos muy diversos. En ocasiones es el caso de las Agrupaciones de Lengua y Cultura Españolas (ALCE), y en parte también de los centros de titularidad española en países como Alemania, Bélgica, Francia, Italia, Luxemburgo, Portugal, Países Bajos o Suiza, uno de los objetivos principales es el de mantener y mejorar el español entre los descendientes de españoles que se encuentran en el extranjero. Pero también de mantener una presencia en lugares con fuerte relación histórica con España, como Marruecos o Brasil (donde hay, además, un centro de titularidad mixta). En otras ocasiones, los esfuerzos se dirigen a profundizar los conocimientos, a través de la metodología AICLE (Aprendizaje Integrado de Contenidos y Lenguas Extranjeras), que no se queda en el simple aprendizaje de la lengua extranjera, sino que comprende elementos culturales fundamentales, gracias a asignaturas como Literatura o Geografía e Historia. Es el caso del programa de Secciones españolas, implantado en países como Francia, Italia o Estados Unidos, o del de Secciones bilingües, que se extiende por países de Europa central y oriental, y llega hasta Turquía y China. Además, programas como los de auxiliares de conversación y de profesores visitantes contribuyen a mejorar la enseñanza del español, apoyados por una tupida red de asesorías y centros de recursos.

Madrid Maria Paz Moreno,2017-11-10 As the capital city of Spain, Madrid is nowadays considered one of the most interesting “food towns” in the world. This is perhaps due to the wide variety of specialty dishes that its cuisine boasts, ranging from the old-fashioned and traditional to the modern, and even the futuristic; a cuisine that has consistently received high praise from the likes of New York Times’ critic Mark Bittman and TV celebrity chefs such as Anthony Bourdain and Mario Battali, to name just a few. But how did a once humble and unsophisticated city like Madrid become the vibrant food metropolis that it is today? How did contemporary madrileño cuisine come to be, and what are its main identifying dishes? What role have its legendary restaurants, cafés and markets played in putting Madrid in the map as one of the world’s top food destinations? Maria Paz Moreno looks at the gastronomical history of Madrid throughout the ages. She traces the historical origins and evolution of Madrid’s cuisine, exploring major trends, most innovative chefs, restaurants and dishes, and telling the story of this fascinating city from the point of view of a food lover. She discusses the diverse influences that have shaped Madrid’s cuisine over the centuries, including the introduction of foods from the New World since the 16th century, the transition from famines to abundance during the second part of the 20th century, the revolution of the Michelin-starred young chefs at the beginning of the 21st century, and how madrileños’ sense of identity is built through their food. The sense of community created through communal eating experiences is also explored, focusing on the culture of sharing tapas, as well as traditional and avant-garde eating establishments, from restaurants to bars to chocolaterías, and even markets and festivals where food plays an important part. Anyone wishing to know more about the city, the culture, the richness of its food and people, will find a delightful review in these pages.

Runaway World Anthony Giddens,2011-05-26 'Before the current global era it is impossible to imagine that comparable events [like September 11] could have occurred, reflecting as they do our new-found interdependence. The rise of global terrorism, like world-wide networks involving in money-laundering, drug-running and other forums of organised crime, are all parts of the dark side of globalisation.' From the new Preface This book is based on the highly influential BBC Reith lecture series on globalisation delivered in 1999 by Anthony Giddens. Now updated with a new chapter addressing the post-September 11th global landscape, this book remains the intellectual benchmark on how globalisation is reshaping our lives. The changes are explored in five main chapters: * Globalisation * Risk * Tradition * Family * Democracy.

Radical Solutions for Digital Transformation in Latin American Universities Daniel Burgos,John Willian Branch,2021-07-24 This book presents how Digital Transformation is a requirement to upgrade Latin American universities

to a next level in management, lecturing and learning processes and strategies. The book starts with a thorough introduction of the Latin American context addressing the three main topics in the book: Digital Transformation, Higher Education and Artificial Intelligence & Industry 4.0. They will be depicted by region, with a clear distribution between Central America & Mexico, Comunidad Andina (Perú, Colombia, Chile, Ecuador, Bolivia), Mercosur (Argentina, Brasil, Paraguay and Uruguay), and other countries. The book also shows how online learning is a key part of the transformation, with a clear focus on learning management systems, innovation and learning analytics. Further, personalised services for every single profile at the university (students, lecturers, academic managers) are presented to guarantee inclusive education service aggregation for networked campuses. Following, the book addresses strategy and overall services that concentrate on sustainability and revenue models integrated with a strategic planning. Finally a set of chapters will show specific experiences and case studies of direct application of Artificial Intelligence and Technology 4.0, where the readers can learn from and transfer directly into their educational contexts.

Beyond the Green Economy Ricardo Abramovay, 2015-09-07 The world needs a new economy. In spite of tremendous and growing material prosperity, inequality is on the rise and the current organization of the Earth's natural resources has failed to address the basic human needs of billions of people. This book exposes the bottlenecks of the present path of economic growth and discusses the main path to alternatives. In spite of undeniable advances, all evidence points towards the growing depletion of the very ecosystems that societies depend on. By placing ethics squarely in the middle of economic life, this book demonstrates the need for a new economy, one that fosters unity between society, nature, economics and ethics. It questions the most important scientific and political pillar that forms the basis for evaluating social resource use: economic growth. Written in a non-specialist language, this book is an introduction to the main issues involving sustainable development. It will be essential reading for both students and professionals working in the field of socio-environmental responsibility.

Las Cualidades que debe poseer un ciudadano, de acuerdo a la conceptualización Ontológica del Ser Humano y la Filosofía del Derecho Acacio Edmundo Macip Toral, 2014-02-05 El presente trabajo, es un tema que se ubica, dentro de uno mayor llamado Inteligencias múltiples. Mi propuesta es desarrollar siete inteligencias prioritarias, acordes con el ideal constitucional (...desarrollar armónicamente, todas las facultades del ser humano. Art. 3). Al desarrollar estas siete capacidades (meta-normas), desarrollaríamos una cultura jurídica tal, que estimularía una conducta acorde con la legalidad y esto evitaría un sinnúmero de acciones, fuera del orden.

Longitudes and Attitudes Thomas L. Friedman, 2002-09-11 America's leading observer of the international scene on the minute-by-minute events of September 11, 2001--before, during and after . As the Foreign Affairs columnist for the The New York Times, Thomas L. Friedman is in a unique position to interpret the world for American readers. Twice a week, Friedman's celebrated commentary provides the most trenchant, pithy, and illuminating perspective in journalism. Longitudes and Attitudes contains the columns Friedman has published about the most momentous news story of our time, as well as a diary of his experiences and reactions during this period of crisis. As the author writes, the book is not meant to be a comprehensive study of September 11 and all the factors that went into it. Rather, my hope is that it will constitute a 'word album' that captures and preserves the raw, unpolished, emotional and analytical responses that illustrate how I, and others, felt as we tried to grapple with September and its aftermath, as they were unfolding. Readers have repeatedly said that Friedman has expressed the essence of their own feelings, helping them not only by explaining who they are, but also by reassuring us about who we are. More than any other journalist writing, Friedman gives voice to America's awakening sense of its role in a changed world.

ReFocus: The Films of Pablo Larrain Hatry Laura Hatry, 2020-09-21 Pablo Larrain is among the most prominent filmmakers in contemporary Chilean cinema. Having created a highly original cinematic language and established a focused critical dialogue about Chile's troubled contemporary history, his work presents an unflinching portrait of one of the most notorious regimes of modern Latin America (indeed, the world) and its problematic aftermath. In a straightforward, often surprising, and reliably controversial series of films, Larrain never retreats in the face of violence or the painful truths that still undergird Chilean reality. Assessing his work in the context of film aesthetics, philosophy, history, adaptation studies and cultural studies, ReFocus: The Films of Pablo Larrain is the first book-length English-language anthology about this important director's cinema, offering a wide range of perspectives by a diverse range of international scholars.

Primary and Secondary Education During Covid-19 Fernando M. Reimers,2021-09-14 This open access edited volume is a

comparative effort to discern the short-term educational impact of the covid-19 pandemic on students, teachers and systems in Brazil, Chile, Finland, Japan, Mexico, Norway, Portugal, Russia, Singapore, Spain, South Africa, the United Kingdom and the United States. One of the first academic comparative studies of the educational impact of the pandemic, the book explains how the interruption of in person instruction and the variable efficacy of alternative forms of education caused learning loss and disengagement with learning, especially for disadvantaged students. Other direct and indirect impacts of the pandemic diminished the ability of families to support children and youth in their education. For students, as well as for teachers and school staff, these included the economic shocks experienced by families, in some cases leading to food insecurity and in many more causing stress and anxiety and impacting mental health. Opportunity to learn was also diminished by the shocks and trauma experienced by those with a close relative infected by the virus, and by the constraints on learning resulting from students having to learn at home, where the demands of schoolwork had to be negotiated with other family necessities, often sharing limited space. Furthermore, the prolonged stress caused by the uncertainty over the resolution of the pandemic and resulting from the knowledge that anyone could be infected and potentially lose their lives, created a traumatic context for many that undermined the necessary focus and dedication to schoolwork. These individual effects were reinforced by community effects, particularly for students and teachers living in communities where the multifaceted negative impacts resulting from the pandemic were pervasive. This is an open access book.
