Shane Parrish, Rhiannon Beaubien

How to Have Impossible Conversations Peter Boghossian, James Lindsay, 2019-09-17 From politics and religion to workplace negotiations, ace the high-stakes conversations in your life with this indispensable guide from a persuasion expert. In our current political climate, it seems impossible to have a reasonable conversation with anyone who has a different opinion. Whether you're online, in a classroom, an office, a town hall—or just hoping to get through a family dinner with a stubborn relative—dialogue shuts down when perspectives clash. Heated debates often lead to insults and shaming, blocking any possibility of productive discourse. Everyone seems to be on a hair trigger. In *How to Have Impossible Conversations*, Peter Boghossian and James Lindsay guide you through the straightforward, practical, conversational techniques necessary for every successful conversation—whether the issue is climate change, religious faith, gender identity, race, poverty, immigration, or gun control. Boghossian and Lindsay teach the subtle art of instilling doubts and opening minds. They cover everything from learning the fundamentals for good conversations to achieving expert-level techniques to deal with hardliners and extremists. This book is the manual everyone needs to foster a climate of civility, connection, and empathy. This is a self-help book on how to argue effectively, conciliate, and gently persuade. The authors admit to getting it wrong in their own past conversations. One by one, I recognize the same mistakes in me. The world would be a better place if everyone read this book. —Richard Dawkins, author of *Science in the Soul* and *Outgrowing God*

A Manual for Creating Atheists Peter Boghossian,2014-07-01 For thousands of years, the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another. Indeed, the faithful often view converting others as an obligation of their faith—and are trained from an early age to spread their unique brand of religion. The result is a world broken in large part by unquestioned faith. As an urgently needed counter to this tried-and-true tradition of religious evangelism, *A Manual for Creating Atheists* offers the first-ever guide not for talking people into faith—but for talking them out of it. Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality, cast doubt on their religious beliefs, mistrust their faith, abandon superstition and irrationality, and ultimately embrace reason.

Strange Glow Timothy J. Jorgensen,2017-08-22 The fascinating science and history of radiation More than ever before, radiation is a part of our modern daily lives. We own radiation-emitting phones, regularly get diagnostic x-rays, such as mammograms, and submit to full-body security scans at airports. We worry and debate about the proliferation of nuclear weapons and the safety of nuclear power plants. But how much do we really know about radiation? And what are its actual dangers? An accessible blend of narrative history and science, *Strange Glow* describes mankind's extraordinary, thorny relationship with radiation, including the hard-won lessons of how radiation helps and harms our health. Timothy Jorgensen explores how our knowledge of and experiences with radiation in the last century can lead us to smarter personal decisions about radiation exposures today. Jorgensen introduces key figures in the story of radiation—from Wilhelm Roentgen, the discoverer of x-rays, and pioneering radioactivity researchers Marie and Pierre Curie, to Thomas Edison and the victims of the recent Fukushima Daiichi nuclear power plant accident. Tracing the most important events in the evolution of radiation, Jorgensen explains exactly what radiation is, how it produces certain health consequences, and how we can protect ourselves from harm. He also considers a range of practical scenarios such as the risks of radon in our basements, radiation levels in the fish we eat, questions about cell-phone use, and radiation's link to cancer. Jorgensen empowers us to make informed choices while offering a clearer understanding of broader societal issues. Investigating radiation's benefits and risks, *Strange Glow* takes a remarkable look at how, for better or worse, radiation has transformed our society.

Everybody Is Wrong About God James A. Lindsay,Peter Boghossian,2015-12-01 A call to action to address people's psychological and social motives for a belief in God, rather than debate the existence of God With every argument for theism long since discredited, the result is that atheism has become little more than the noises reasonable people make in the presence of unjustified religious beliefs. Thus, engaging in interminable debate with religious believers about the existence of God has become exactly the wrong way for nonbelievers to try to deal with misguided—and often dangerous—belief in a higher power. The key, author James Lindsay argues, is to stop that particular conversation. He demonstrates that whenever

people say they believe in God, they are really telling us that they have certain psychological and social needs that they do not know how to meet. Lindsay then provides more productive avenues of discussion and action. Once nonbelievers understand this simple point, and drop the very label of atheist, will they be able to change the way we all think about, talk about, and act upon the troublesome notion called God.

Conversations with God for Teens Neale Donald Walsch, 2012-10-01 Suppose you could ask God any question and get an answer. What would it be? Young people all over the world have been asking those questions. So Neale Donald Walsch, author of the internationally bestselling *Conversations with God* series had another conversation. *Conversations with God for Teens* is a simple, clear, straight-to-the-point dialogue that answers teens questions about God, money, sex, love, and more. *Conversations with God for Teens* reads like a rap session at a church youth group, where teenagers discuss everything they ever wanted to know about life but were too afraid to ask God. Walsch acts as the verbal conduit, showing teenagers how easy it is to converse with the divine. When Claudia, age 16, from Perth, Australia, asks, Why can't I just have sex with everybody? What's the big deal?, the answer God offers her is: Nothing you do will ever be okay with everybody. 'Everybody' is a large word. The real question is can you have sex and have it be okay with you? There's no doubt that the casual question-and-answer format will help make God feel welcoming and accessible to teens. *Conversations with God for Teens* is the perfect gift purchase for parents, grandparents, and anyone else who wants to provide accessible spiritual content for the teen(s) in their lives.

The Power of Paradox: Impossible Conversations Markus Locker, 2019-05-07 This book argues that all truths systems include paradoxes. Paradoxes, such as found in the sciences, philosophy and religion offer themselves as mutually shared partners in a dialogue of arguably incommensurable truths on the basis of their underlying truth. Paradoxes leap beyond the epistemic border of individual truth claims. A dialogue of truths, grounded in paradox, reaches before, and at the same time past singular truths. A paradox-based dialogue of truths elevates the communication of disciplines, such as the sciences and religion, to a meta-discourse level from which differences are not perceived as obstacles for dialogue but as complementary

aspects of a deeper and fuller truth in which all truths are grounded.

Sand Talk Tyson Yunkaporta, 2020-05-12 A paradigm-shifting book in the vein of *Sapiens* that brings a crucial Indigenous perspective to historical and cultural issues of history, education, money, power, and sustainability—and offers a new template for living. As an indigenous person, Tyson Yunkaporta looks at global systems from a unique perspective, one tied to the natural and spiritual world. In considering how contemporary life diverges from the pattern of creation, he raises important questions. How does this affect us? How can we do things differently? In this thoughtful, culturally rich, mind-expanding book, he provides answers. Yunkaporta's writing process begins with images. Honoring indigenous traditions, he makes carvings of what he wants to say, channeling his thoughts through symbols and diagrams rather than words. He yarns

with people, looking for ways to connect images and stories with place and relationship to create a coherent world view, and he uses sand talk, the Aboriginal custom of drawing images on the ground to convey knowledge. In Sand Talk, he provides a new model for our everyday lives. Rich in ideas and inspiration, it explains how lines and symbols and shapes can help us make sense of the world. It's about how we learn and how we remember. It's about talking to everyone and listening carefully. It's about finding different ways to look at things. Most of all it's about a very special way of thinking, of learning to see from a native perspective, one that is spiritually and physically tied to the earth around us, and how it can save our world. Sand Talk include 22 black-and-white illustrations that add depth to the text.
