*Reference and Information Services* Richard E. Bopp, Linda C. Smith, 2011-05-23 Reflecting the dramatic changes shaped by rapidly developing technologies over the past six years, this new fourth edition of Reference and Information Services takes the introduction to reference sources and services significantly beyond the content of the first three editions. In Part I,

Concepts and Processes, chapters have been revised and updated to reflect new ideas and methods in the provision of reference service in an era when many users have access to the Web. In Part II, Information Sources and Their Use, discussion of each source type has been updated to encompass key resources in print and on the Web, where an increasing number of freely available sources join those purchased or licensed by libraries. A number of new authors are contributors to this new edition, bringing to their chapters their experience as teachers of reference and as practitioners in different types of libraries. Discussions of services in Part I integrate digital reference as appropriate to each topic, such as how to conduct a reference interview online using instant messaging. Boxes interspersed in the text are used to present scenarios for discussion, to highlight key concepts, or to present excerpts from important documents. Discussions of sources in Part II place more emphasis on designing effective search strategies using both print and digital resources. The chapter on selection and evaluation of sources addresses the changing nature of reference collections and how to evaluate new types of sources. Each chapter concludes with an updated list of additional readings to guide further study. A new companion website will provide links to Web-accessible readings and resources as well as additional scenarios for discussion and example search strategies to supplement those presented in the text.

*World Affairs*, 1996 Includes the Annual report of the American Peace Society.

*India* Jean Drèze, Amartya Sen, 2002 This book explores the role of public action in eliminating deprivation and expanding human freedoms in India. The analysis is based on a broad and integrated view of development, which focuses on well-being and freedom rather than the standard indicators of economic growth. The authors place human agency at the centre of stage, and stress the complementary roles of different institutions (economic, social, and political) in enhancing effective freedoms. In comparative international perspective, the Indian economy has done reasonably well in the period following the economic reforms initiated in the early nineties. However, relatively high aggregate economic growth coexists with the persistence of endemic deprivation and deep social failures. Jean Dreze and Amartya Sen relate this imbalance to the continued neglect, in the post-reform period, of public involvement in crucial fields such as basic education, health care, social security, environmental protection, gender equity, and civil rights, and also to the imposition of new burdens such as the accelerated expansion of military expenditure. Further, the authors link these distortions of public priorities with deep-seated inequalities of social influence and political power. The book discusses the possibility of addressing these biases through more active democratic practice.

New and Old Wars Mary Kaldor, 2013-04-26 Mary Kaldor's *New and Old Wars* has fundamentally changed the way both scholars and policy-makers understand contemporary war and conflict. In the context of globalization, this path-breaking book has shown that what we think of as war - that is to say, war between states in which the aim is to inflict maximum violence - is becoming an anachronism. In its place is a new type of organized violence or 'new wars', which could be

described as a mixture of war, organized crime and massive violations of human rights. The actors are both global and local, public and private. The wars are fought for particularistic political goals using tactics of terror and destabilization that are theoretically outlawed by the rules of modern warfare. Kaldor's analysis offers a basis for a cosmopolitan political response to these wars, in which the monopoly of legitimate organized violence is reconstructed on a transnational basis and international peacekeeping is reconceptualized as cosmopolitan law enforcement. This approach also has implications for the reconstruction of civil society, political institutions, and economic and social relations. This third edition has been fully revised and updated. Kaldor has added an afterword answering the critics of the New Wars argument and, in a new chapter, Kaldor shows how old war thinking in Afghanistan and Iraq greatly exacerbated what turned out to be, in many ways, archetypal new wars - characterised by identity politics, a criminalised war economy and civilians as the main victims. Like its predecessors, the third edition of *New and Old Wars* will be essential reading for students of international relations, politics and conflict studies as well as to all those interested in the changing nature and prospect of warfare.

*Working Inter-culturally in Counselling Settings* Aisha Dupont-Joshua, 2003 Explores how racial issues can be recognised and worked with in a practical, clinical setting, looking at how this setting can influence practice.

*Social Learning Theory and the Explanation of Crime* Ronald L. Akers, Gary F. Jensen, 2017-07-28 Social learning theory has been called the dominant theory of crime and delinquency in the United States, yet it is often misrepresented. This latest volume in the distinguished *Advances in Criminological Theory* series explores the impact of this theory. Some equate it with differential association theory. Others depict it as little more than a micro-level appendage to cultural deviance theories. There have been earlier attempts to clarify the theory's unique features in comparison to other theories, and others have applied it to broader issues. These efforts are extended in this volume, which focuses on developing, applying, and testing the theory on a variety of criminal and delinquent behavior. It applies the theory to treatment and prevention, moving social learning into a global context for the twenty-first century. This comprehensive volume includes the latest work, tests, and theoretical advances in social learning theory and will be particularly helpful to criminologists, sociologists, and psychologists. It may also be of interest to those concerned with current issues relating to delinquency, drug use/abuse, and drinking/alcohol abuse.

*The Wars Within* Robin M. Williams (Jr.), Robin Murphy Williams, 2003 Ethnic conflict, Williams finds, can be portrayed as a set of dynamic processes that may escalate from restrained confrontations over limited issues to devastating ethnic warfare and genocide.--BOOK JACKET.

**Geopolitics** Saul Bernard Cohen, 2014-11-25 Written by one of the world's leading political geographers, this fully revised and updated textbook examines the dramatic changes wrought by ideological, economic, socio-cultural and demographic changes unleashed since the end of the Cold War. Saul Cohen considers these forces in the context of their

human and physical settings, and explores their geographical influence on foreign policy and international relations.

**American Military History** Daniel K. Blewett,2008-12-30 In this companion volume to his 1995 bibliography of the same title, Daniel Blewett continues his foray into the vast literature of military studies. As did its predecessor, it covers land, air, and naval forces, primarily but not exclusively from a U.S. perspective, with the welcome emergence of small wars from publishing obscurity. In addition to identifying relevant organizations and associations, Blewett has gathered together the very best in chronologies, bibliographies, biographical dictionaries, indexes, journals abstracts, glossaries, and encyclopedias, each accompanied by a brief descriptive annotation. This work remains a pertinent addition to the general reference collections of public and academic libraries as well as special libraries, government documents collections, military and intelligence agency libraries, and historical societies and museums.

**Genocide** Howard Ball,2010-11-18 This book presents the background and history of genocide, the key issues associated with this worldwide crime, and the problems inherent in preventing its occurrence. In 1948, the UN General Assembly adopted the Convention on the Prevention and Punishment of the Crime of Genocide (CPPCG), legally defining the crime of genocide for the first time. Amazingly, the United States did not ratify this international agreement until nearly 40 years later, when President Reagan finally signed the genocide convention bill. Attempts to enforce international law against genocide did not begin until the 1990s. *Genocide: A Reference Handbook* examines the antecedents of the term genocide in the mid-19th century and explains the current challenges of preventing or even stopping genocide, including the nation-state system and principles of state sovereignty. The author documents how crimes of genocide have continued unchecked, and asserts that a collective commitment to humanitarian intervention is the only way to address this ongoing problem.

*The State of the World Atlas* Dan Smith,1999 The State of the World Atlas provides a unique visual survey of economic, political, and social trends as the world enters the twenty first century. By translating key indicators into full-color maps and graphics, it presents in easily understandable form the new challenges posed to nations around the world by powerful security alliances; a global economy fueled by international finance and multinational corporations; popular pressures for decentralization and greater democracy; and an upsurge of nationalism.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
