Cats' Night Out Caroline Stutson, 2010-03-23 In the city, windows light. How many cats will dance tonight? It's just a quiet evening in the city. Or is it? As the sun sets in the sky, dancing felines take to the streets and rooftops for a night on the town. Come along one night on Easy Street as a pair of cats start to groove to the beat. Count the cats by twos (and hunt for their number hidden on the page!) in this foot-tapping, finger-snapping counting book.

The Translator's Doubts Julia Trubikhina, 2019-08-28 Using Vladimir Nabokov as its "case study," this volume approaches translation as a crucial avenue into literary history and theory, philosophy and interpretation. The book attempts to bring together issues in translation and the shift in Nabokov studies from its earlier emphasis on the "metaliterary" to the more recent "metaphysical" approach. Addressing specific texts (both literary and cinematic), the book investigates Nabokov's deeply ambivalent relationship to translation as a hermeneutic oscillation on his part between the relative stability of meaning, which expresses itself philosophically as a faith in the beyond, and deep metaphysical uncertainty. While Nabokov's practice of translation changes profoundly over the course of his career, his adherence to the Romantic notion of a "true" but ultimately elusive metaphysical language remained paradoxically constant.

We'll Meet Again Kate McQuiston,2013-09-19 Unique and often startling encounters between music and the moving image in the films of Stanley Kubrick are trademarks of his style; witness the powerful effects of Strauss's Also Sprach Zarathustra in 2001: A Space Odyssey and of Beethoven's 9th Symphony in A Clockwork Orange, each excerpt vetted by Kubrick himself. We'll Meet Again argues that, for Kubrick, music is neither post-production afterthought nor background nor incidental, but instead is core to films' effects and meanings. The book first identifies the building blocks in Kubrick's sonic world and illuminates the ways in which Kubrick uses them to support his characters and to define character relationships. It then delves into the effects of Kubrick's signature musical techniques, including the use of texture, form, and inscription to render and reinforce psychological ideas and spectator responses. Finally it presents case studies that show how the history of the music plays a vital and dynamic role for the films. As a whole, the book locates Kubrick as a force in music reception history by examining the relationship between his musical choices and popular culture, and reveals the foundational role of music in his filmmaking.

Run Towards the Danger Sarah Polley,2022-04-14 FROM THE DIRECTOR AND SCREENWRITER OF WOMEN TALKING 'Fascinating, harrowing, courageous, and deeply felt, these explorations of dangerous stories, harmful past events and trials of the soul speak to all who've encountered dark waters and have had to navigate them.' Margaret Atwood Sarah Polley's work as an actor, screenwriter and director is celebrated for its honesty, complexity and deep humanity. She brings all those qualities, along with her exquisite storytelling skills, to these six essays. Each one captures a piece of Polley's life as she

remembers it, while at the same time examining the fallibility of memory and the embodied reactions of children and women adapting and surviving. The guiding light is the possibility of experiencing the past anew, as the person she is now but was not then. In this extraordinary book, Polley explores what it is to live in one's body, in a constant state of becoming, learning and changing. As she was advised after a catastrophic head injury - if we relinquish our protective crouch and run towards the danger, then life can be reset, reshaped and lived afresh. '[Polley is] a stunningly sophisticated observer of the world and an imperfect witness to the truth.' New York Times
