History of the World in 500 Railway Journeys Sarah Baxter,2019-06-01 History is everywhere, and is never as complete as when it can be accessed on a part of history itself. The locomotive is one of the great steps in progress of civilisation that undoubtably connects us to land and history that was shaped by the machine itself. Although a basic form of railway, or rutway, did exist in Ancient Greek and Roman times - notably the ship trackway between Diolkos and the Isthmus of Corinth around 600 BC - it would take several thousand years before the first fare-paying passenger service was launched in the early nineteenth century. Some two hundred years on, it is possible to travel by train to some of the world's most remote and remarkable destinations, and track the many wonderful legacies of the Earth's extensive history - man-made and otherwise. From prehistoric rock formations to skyscraper cities, slow steam engines to high-speed bullet trains, let A History of the World in 500 Railway Journeys be your guide. Through its beautifully illustrated pages, and 500 awe-inspiring railway journeys, you can chart your own transcontinental itinerary through time. Chug through canyons, steam past ancient monuments, speed through cities, luxuriate in the railcars of presidents and queens, or make express connections between key historical moments or epic eras, A History of the World in 500 Railway Journeys has it all. A must-read for travellers,

railfans and history buffs alike, offering inspiration and information in equal measure.

Wanderlust Rebecca Solnit, 2014-05-01 What does it mean to be out walking in the world, whether in a landscape or a metropolis, on a pilgrimage or a protest march? In this first general history of walking, Rebecca Solnit draws together many histories to create a range of possibilities for this most basic act. Arguing that walking as history means walking for pleasure and for political, aesthetic, and social meaning, Solnit homes in on the walkers whose everyday and extreme acts have shaped our culture, from the peripatetic philosophers of ancient Greece to the poets of the Romantic Age, from the perambulations of the Surrealists to the ascents of mountaineers. With profiles of some of the most significant walkers in history and fiction - from Wordsworth to Gary Snyder, from Rousseau to Argentina's Mother of the Plaza de Mayo, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja - *Wanderlust* offers a provocative and profound examination of the

interplay between the body, the imagination, and the world around the walker.

Fox World Jack Russell, 2021-10-13 Fox World, based on true events, takes the reader under the canopy of an urban forest on the outskirts of Washington, D.C. for a year-long walk with a weary sales executive and his muse, a wild red fox. Aged, ill and injured, both fox and man seek healing in their journey, not only for themselves, but for the ecologically stressed forest which is under siege. They are joined on their five-hundred-mile walkabout by the fox's forest friends – owl, buck deer, hawk, blue heron, and raccoon, and each animal's story illustrates why this small forest is so soothing and majestic in its allure. Starting in brutally cold winter, followed by the wettest summer on record, fox and man face daunting life challenges on their walks, from heart arrhythmia which ends the executive's career to a coyote attack and critical illnesses faced by the elderly fox. And through these traumatic events, the two bond for survival, and the fox's wild perspective teaches his human friend unforgettable lessons about healing, coping, serenity, wonderment, mindfulness, and simple treasures (e.g., the sun setting atop the great oaks, an owl serenade under moon beams, a shared cup of bison bone broth on an icy day). Drawn in by the plight of the fox's forest as destruction looms, the man decides to take a stand and help the fox and his animal friends. Richly graced with gorgeous nature photos and infused with insights that can only be imparted by those who have come to genuinely appreciate life, Fox World is an exhilarating walk in the woods that you'll never forget.

**The 50 Greatest Walks of the World** Barry Stone, 2016-04-07 Barry Stone, author of 1001 Walks You Must Experience Before You Die, delves into some of the lesser-known aspects of the world's most famous – and not-quite-famous-yet – trails. The perfect accompaniment to practical guidebooks, Stone relates how slings and carabiners kept him from falling headlong off the Sydney Harbour Bridge, and reports on the progress of the continental-wide monster, the Trans Canada Trail, gaps in which are still being filled by countless grass-roots communities. With walks that will appeal to everyone regardless of ability, The 50 Greatest Walks of the World includes British classics such as the Pennine Way, Offa's Dyke Path, and the Old Man of Hoy as well as personal favourites such as Italy's Cinque Terre Classic and the Isle of Skye's Trotternish Ridge, one of Britain's finest ridge traverses with almost 2,500m of ascents. Whether it's a climb, a stroll, or a life-changing slog, this book has the walk for you.

A Little History of the World E. H. Gombrich, 2014-10-01 E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this

remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

A Walk in the Woods Bill Bryson, 2010-09-08 NEW YORK TIMES BESTSELLER • The classic chronicle of a “terribly misguided and terribly funny” (The Washington Post) hike of the Appalachian Trail, from the author of *A Short History of Nearly Everything* and *The Body* “The best way of escaping into nature.”—The New York Times Back in America after twenty years in Britain, Bill Bryson decided to reacquaint himself with his native country by walking the 2,100-mile Appalachian Trail, which stretches from Georgia to Maine. The AT offers an astonishing landscape of silent forests and sparkling lakes—and to a writer with the comic genius of Bill Bryson, it also provides endless opportunities to witness the majestic silliness of his fellow human beings. For a start there's the gloriously out-of-shape Stephen Katz, a buddy from Iowa along for the walk. But *A Walk in the Woods* is more than just a laugh-out-loud hike. Bryson's acute eye is a wise witness to this beautiful but fragile trail, and as he tells its fascinating history, he makes a moving plea for the conservation of America's last great wilderness. An adventure, a comedy, and a celebration, *A Walk in the Woods* is a modern classic of travel literature. NOW A MAJOR MOTION PICTURE

Mystical Places Sarah Baxter, 2020 Journey to the world's most enigmatic and magical destinations with this charming guide, full of folklore, unworldly mysteries and far-flung fairy tale locales.

**The Rings of Saturn** W.G. Sebald,2013-11-30 'Sebald is the Joyce of the 21st Century' The Times What begins as the record of W. G. Sebald's own journey on foot through coastal East Anglia, from Lowestoft to Bungay, becomes the conductor of evocations of people and cultures past and present. From Chateaubriand, Thomas Browne, Swinburne and Conrad, to fishing fleets, skulls and silkworms, the result is an intricately patterned and haunting book on the transience of all things human. 'A novel of ideas with a difference: it is nothing but ideas... Formally dexterous, fearlessly written (why shouldn't an essay be a novel?), and unremittingly arcane; by the end I was in tears' Teju Cole, Guardian

**Salt** Mark Kurlansky,2011-09-30 Homer called it a divine substance. Plato described it as especially dear to the gods. As Mark Kurlansky so brilliantly relates here, salt has shaped civilisation from the beginning, and its story is a glittering, often surprising part of the history of mankind. Wars have been fought over salt and, while salt taxes secured empires across Europe and Asia, they have also inspired revolution - Gandhi's salt march in 1930 began the overthrow of British rule in

India. From the rural Sichuan province where the last home-made soya sauce is produced to the Cheshire brine springs that supplied salt around the globe, Mark Kurlansky has produced a kaleidoscope of world history, a multi-layered masterpiece that blends political, commercial, scientific, religious and culinary records into a rich and memorable tale.

**Walking Methods** Maggie O'Neill, Brian Roberts, 2019-07-09 This book introduces and critically explores walking as an innovative method for doing social research, showing how its sensate and kinaesthetic attributes facilitate connections with lived experiences, journeys and memories, communities and identities. The book situates walking methods historically, sociologically, and in relation to biographical and arts-based research, as well as new work on mobilities, the digital, spatial, and the sensory. The book is organised into three sections: theorising; experiencing; and imagining walking as a new method for doing biographical research. There is a key focus upon the Walking Interview as a Biographical Method (WIBM) on the move to usefully explore migration, memory, and urban landscapes, as part of participatory, visual, and ethnographic research with marginalised communities and artists and as re-formative and transgressive. The book concludes with autobiographical walks taken by the authors and a discussion about the future of the walking interview as biographical method. Walking Methods combines theory with a series of original ethnographic and participatory research examples. Practical exercises and a guide to using walking as a method help to make this a rich resource for social science researchers, students, walking artists, and biographical researchers.
