Scrivere la Terra Claudio Ferrata, 2024-07-30T00:00:00+02:00 Scritte da un autore che ha praticato la geografia sotto varie forme, queste pagine contengono una presa di posizione per la stessa disciplina, accessibile agli studenti e non solo. A quali domande risponde la geografia, fortemente presente nella nostra vita quotidiana? A molte e assai diverse fra loro. Per esempio: perché certi luoghi suscitano in noi una grande attrazione? Dove decidiamo di risiedere? Qual è la collocazione pertinente per una scuola all'interno di una regione? Quale è la dimensione spaziale di un'epidemia? Quale è stata e qual è oggi la funzione di questa scienza? Quali opportunità professionali offre? Come sta cambiando?

The Speckled People Hugo Hamilton, 2011-10-04 Adapted for the stage from the best-selling memoir, *The Speckled People* tells a profoundly moving story of a young boy trapped in a language war. Set in 1950s Ireland, this is a gripping, poignant, and at times very funny family drama of homesickness, control and identity. As a young boy, Hugo Hamilton struggles with what it means to be speckled, half and half... Irish on top and German below. An idealistic Irish father enforces his cultural crusade by forbidding his son to speak English while his German mother tries to rescue him with her warm-hearted humour and uplifting industry. The boy must free himself from his father and from bullies on the street who persecute him with taunts of Nazism. Above all he must free himself from history and from the terrible secrets of his mother and father before he can find a place where he belongs. Surrounded by fear, guilt, and frequently comic cultural entanglements, Hugo tries to understand the differences between Irish history and German history and to turn the strange logic of what he is told into truth. It is a journey that ends in liberation but not before the long-buried secrets at the back of the parents' wardrobe have been laid bare.

On Schmitt and Space Claudio Minca, Rory Rowan, 2015-07-24 This book represents the first comprehensive study of the influential German legal and political thinker Carl Schmitt's spatial thought, offering the first systematic examination

from a Geographic perspective of one of the most important political thinkers of the twentieth century. It charts the development of Schmitt's spatial thinking from his early work on secularization and the emergence of the modern European state to his post war analysis of the spatial basis of global order and international law, whilst situating his thought in relation to his changing biographical and intellectual context, controversial involvement in Weimar politics and disastrous support for the Nazi regime. It argues that spatial concepts play a crucial structural role throughout Schmitt's work, from his well-known analyses of sovereign power and states of exception to his often overlooked spatial history of modernity. Locating a fundamental relationship between space and 'the political' lies at the core of his thought. The book explores the critical insight that Schmitt's spatial thought bears on some of the key political questions of the twentieth century whilst tracking his profound and enduring influence on key debates on sovereignty, international relations, war and the nature of world order at the start of the twenty first century.

Moroccan Dreams Claudio Minca, Lauren Wagner, 2016-08-02 Morocco has long been a mythic land, firmly rooted in the European colonial imagination. For more than a century it has been appropriated by travellers, explorers, writers and artists. It is just these images and imaginings that are now being reconstructed for nostalgic consumption. In *Moroccan Dreams*, Claudio Minca examines this aestheticised re-enactment of the colonial, exploring the ways in which Moroccans themselves have become complicit in the re-writing of their homes and lives. Richly illustrated, the book provides a fascinating journey that will engage and delight all those enamoured of Morocco and its extraordinary geographies.

Camps Revisited Irit Katz, Diana Martin, Claudio Minca, 2018-11-23 This book focuses on past and present camp geographies and on the dispositifs that make them an ever-present spatial formation in the management of unwanted populations characterizing many authoritarian regimes as well as many contemporary democracies.

After Heritage Hamzah Muzaini, Claudio Minca, 2018-07-27 Focusing on the practices and politics of heritage-making at the individual and the local level, this book uses a wide array of international case studies to argue for their potential not only to disrupt but also to complement formal heritage-making in public spaces. Providing a much-needed clarion call to reinsert the individual as well as the transient into more collective heritage processes and practices, this strong contribution to the field of Critical Heritage Studies offers insight into benefits of the 'heritage from below approach' for researchers, policy makers and practitioners.

Politiche europee per il paesaggio: proposte operative Aa.Vv., 2012-05-08T00:00:00+02:00 Nell'attuale società, il tema del paesaggio suscita "esigenze" e stimola "attese" di tipo diverso a causa delle tante componenti sociali, scientifiche e

culturali che lo coinvolgono, in particolare per la profonda “crisi dei luoghi”, quel malessere che si manifesta nelle periferie prive di identità, nelle campagne e lungo le coste spesso sfigurate, nel mutato rapporto tra l’ambiente naturale e le comunità che lo abitano. Per “esigenze” della società contemporanea intendiamo le diffuse aspirazioni nei confronti di un generale miglioramento della qualità della vita, di un cambiamento di rotta nelle politiche di trasformazione territoriale, di una revisione del concetto di tutela e di conservazione da intendere in senso attivo e innovativo con il ripristino della stabilità degli ecosistemi, con un’attenta considerazione dell’identità dei luoghi, un rinnovato e più corretto rapporto con l’ambiente naturale e i valori culturali e sociali del territorio. Le “attese” possono riguardare la maggiore e migliore disponibilità di aree verdi ricreative nelle conurbazioni metropolitane; la bonifica e la riqualificazione dei paesaggi degradati e un corretto riuso delle aree industriali dismesse; il recupero dell’identità culturale e delle connotazioni naturali dei siti storici; un idoneo inserimento di nuove opere nel territorio e un’accurata valorizzazione delle risorse paesistiche da trasmettere alle generazioni future. La “Convenzione Europea del Paesaggio” recupera una centralità strategica, nei confronti del paesaggio, nelle politiche territoriali e nella considerazione della nostra società, richiamando l’attenzione degli Stati Membri ad una unitarietà di regole e di governo che guidi l’azione umana nel territorio, secondo comportamenti coerenti e azioni sostenibili; sottolinea l’importanza di un’attenzione al paesaggio ed ai suoi valori non solo nei parchi, nelle aree protette o in zone di particolare bellezza, ma in ogni territorio, in tutti gli strumenti urbanistici e nell’attività progettuale in genere.

The Production of Alternative Urban Spaces Jens Kaae Fisker, Letizia Chiappini, Lee Pugalis, Antonella Bruzzese, 2018-10-26 Alternative urban spaces across civic, private, and public spheres emerge in response to the great challenges that urban actors are currently confronted with. Labour markets are changing rapidly, the availability of affordable housing is under intensifying pressure, and public spaces have become battlegrounds of urban politics. This edited collection brings together contributors in order to spark an international dialogue about the production of alternative urban spaces through a threefold exploration of alternative spaces of work, dwelling, and public life. Seeking out and examining existing alternative urban spaces, the authors identify the elements that provide opportunities to create radically different futures for the world’s urban spaces. This volume is the culmination of an international search for alternative practices to dominant modes of capitalist urbanisation, bringing together interdisciplinary, empirically grounded chapters from hot spots in disparate cities around the world. Offering a multidisciplinary perspective, *The Production of Alternative Urban Spaces* will be of great interest to academics working across the fields of urban sociology, human geography, anthropology, political science, and urban planning. It will also be indispensable to any postgraduate students engaged in urban and regional studies.

Theory of the Novel Guido Mazzoni,2017-01-02 In his theory of the novel, Guido Mazzoni explains that novels consist of stories told in any way whatsoever about the experiences of ordinary men and women who exist as contingent beings within time and space. Novels allow readers to step into other lives and other versions of truth, each a small, local world, absolute in its particularity.

Cities in Global Capitalism Ugo Rossi,2017-03-16 In what ways are cities central to the evolution of contemporary global capitalism? And in what ways is global capitalism forged by the urban experience? This book provides a response to these questions, exploring the multifaceted dimensions of the city-capitalism nexus. Drawing on a wide range of conceptual approaches, including political economy, neo-institutionalism and radical political theory, this insightful book examines the complex relationships between contemporary capitalist cities and key forces of our times, such as globalization and neoliberalism. Taking a truly global perspective, Ugo Rossi offers a comparative analysis of the ways in which urban economies and societies reflect and at the same time act as engines of global capitalism. Ultimately, this book shows how over the past three decades capitalism has shifted a gear - no longer merely incorporating key aspects of society into its system, but encompassing everything, including life itself - and illustrates how cities play a central role within this life-oriented construction of global capitalism.

The Copernican Revolution Thomas S. Kuhn,1957 An account of the Copernican Revolution, focusing on the significance of the plurality of the revolution which encompassed not only mathematical astronomy, but also conceptual changes in cosmology, physics, philosophy, and religion.

The Winter Vault Anne Michaels,2009-06-15 From the Orange Award-winning writer of *Fugitive Pieces* 'Michaels is a novelist of unusual and compelling power' *The Times* 'Read this book like poetry, or rather hear it like music ... Anne Michaels guides us to the top of some extraordinary peaks of feeling and perception' *Independent* 'Writing of dangerously beautiful intensity ... magnificent' *Sunday Telegraph* _____ Egypt, 1964. The great temple at Abu Simbel must be dismantled and resurrected high above the rising waters of the Aswan Dam. This daunting task is overseen by Avery, a young engineer who, at the same time, is carefully building a life with his new wife, Jean. But not everything can be saved once the floodgates have opened: villages will be deluged, thousands will be exiled from their homes, and graves will be moved. And when Avery and Jean suffer a terrible loss of their own, they begin their separate journeys through the landscape of grief. Weaving historical moments with the quiet intimacy of human lives, *The Winter Vault* is the story of a husband and a wife trying to find their way back to each other; of people and nations displaced; and of the myriad means by which we all seek out a place to call home.

Land and Sea Carl Schmitt,2015

Refugee Tales Ali Smith, Marina Lewycka, Patience Agbabi, Jade Amoli-Jackson, Chris Cleave, Stephen Collis, Inua Ellams, Abdulrazak Gurnah, David Herd, Avaes Mohammed, Hubert Moore, Dragan Todorovic, Carol Watts, Michael Zand, 2016-05-31 Two unaccompanied children travel across the Mediterranean in an overcrowded boat that has been designed to only make it halfway across... A 63-year-old man is woken one morning by border officers 'acting on a tip-off' and, despite having paid taxes for 28 years, is suddenly cast into the detention system with no obvious means of escape... An orphan whose entire life has been spent in slavery - first on a Ghanaian farm, then as a victim of trafficking - writes to the Home Office for help, only to be rewarded with a jail sentence and indefinite detention... These are not fictions. Nor are they testimonies from some distant, brutal past, but the frighteningly common experiences of Europe's new underclass - its refugees. While those with 'citizenship' enjoy basic human rights (like the right not to be detained without charge for more than 14 days), people seeking asylum can be suspended for years in Kafka-esque uncertainty. Here, poets and novelists retell the stories of individuals who have direct experience of Britain's policy of indefinite immigration detention. Presenting their accounts anonymously, as modern day counterparts to the pilgrims' stories in Chaucer's Canterbury Tales, this book offers rare, intimate glimpses into otherwise untold suffering.
