Occupational Performance Coaching Fiona Graham, Ann Kennedy-Behr, Jenny Ziviani, 2020-06-02 This book presents a definitive guide to understanding, applying, and teaching Occupational Performance Coaching (OPC). Grounded in principles of occupational therapy, person-centredness, and interprofessional frameworks of health and disability, this book will be of interest across health and rehabilitation professions. Supporting people affected by disability to do well and live the life they want is the ultimate outcome of all rehabilitation professionals, no matter where on the lifespan our clients sit. Coaching is increasingly recognised as highly effective in achieving this aim. This accessible manual provides case examples related to diverse health conditions alongside practitioner reflections. Uniquely, this manual presents coaching methods designed specifically for the rehabilitation environment. This book is a manual for practitioners, researchers, students, and lecturers interested in gaining a robust understanding of OPC methods, theoretical basis, and implementation. An e-Resource linked to the book provides access to video demonstrations, a podcast from Dr Graham, and downloadable materials including a self-assessment of OPC skills (OPC Fidelity Measure), templates for clinical work, and teaching presentation material. A Dictionary of Occupational Science and Occupational Therapy Matthew Molineux, 2017-03-23 Including over 600 A to Z entries, this original dictionary provides clear and succinct definitions of the terms used in the related and developing fields of occupational science and occupational therapy. Entries cover a broad range of topics from activities of daily living and autonomy to task-oriented approach and work-life balance and have a clear occupational focus. They provide an overview of the complex nature of human occupation and the impact of illness on occupation and well-being. Descriptions and analysis are backed up by key theories from related areas such as anthropology, sociology, and medicine. This is an authoritative resource for students of occupational science and occupational therapy, as well as an accessible point of reference for practitioners from both subject areas.

Occupational Therapy Evaluation for Adults Maureen E. Neistadt, 2000 This quick reference guide helps occupational

therapy students and practitioners perform efficient and comprehensive evaluations for adults with disabilities. Designed to fit in the lab coat pocket, this book guides readers through the process of an evaluation. For easy reading, information in this spiralbound volume is organized into tables, boxes, and schematics. Features include: detailed appendices about standardized assessments and formal evaluation procedures; illustrated evaluation procedures; an evaluation checklist to help readers track each client's evaluation; suggestions for sequencing and abbreviating different evaluation procedures; and specific advice on meeting third-party payers' reimbursement requirements.

Theoretical Basis of Occupational Therapy Mary Ann McColl, 2003 *Theoretical Basis of Occupational Therapy, Second Edition* has been completely updated and revised to offer the most information in the most efficient way to occupational therapists. This exciting new edition begins with a discussion of the uses and applications of occupational therapy theory and offers ways of thinking about and organizing the theory. It includes an extensive annotated bibliography of occupational therapy theory. Significant developments in occupational therapy theory over the past 25 years are classified and discussed in a user-friendly, organized format. One of the essential components to *Theoretical Basis of Occupational Therapy, Second Edition* is the taxonomy of occupational therapy theory, which organizes the mass of theory into a filing system that is consistent with how occupational therapists think about occupation and about humans and environment. Perfect for the practicing occupational therapist or student, this necessary text contains volumes of information accessible in one convenient place. Five Theory Areas Covered Inside: Physical determinants of occupation Psychological-emotional determinants of occupation Cognitive-neurological determinants of occupation Socio-cultural determinants of occupation Environmental determinants of occupation

Occupational Performance Model (Australia) Christine Chapparo, Judy Ranka, 1997 The purpose of this monograph is to introduce the Occupational Performance Model (OPM) (Australia) in its current stage of development. The structure of the model is viewed as an alternate representation of contemporary ideas about occupational performance.

Occupational Therapy Assessments for Older Adults Kevin Bortnick, 2024-06-01 The role of measurement and the benefits of outcome measures are defined as important tools used to document change in one or more constructs over time, help to describe a client's condition, formulate a prognosis, as well as to evaluate the effects of occupational therapy intervention. *Occupational Therapy Assessments for Older Adults: 100 Instruments for Measuring Occupational Performance* presents over 100 outcome measures in the form of vignettes that encompass a brief description of each instrument, a review of its psychometric properties, its advantages and disadvantages, administration procedures, permissions to use, author contact information, as well as where and how to procure the instrument. *Occupational Therapy Assessments for Older Adults* by Dr. Kevin Bortnick narrows down the list of possible choices for the occupational therapy student or clinician to only those with an amount of peer review, bibliographic citations, as well as acceptance within the profession. The text also includes

research-based information with text citations and has over 100 tables, diagrams, and figures. Included in the review of each outcome measure: Description: A brief record of the measure. Psychometrics: A review of the level of research evidence that either supports or does not support the instrument, including such items as inter-rater, intra-rater, and test-retest reliabilities, as well as internal consistencies and construct validities among others. Advantages: Synopsis of the benefits of using the measure over others including its unique attributes. Disadvantages: A summary of its faults. For example, the amount of research evidence may be limited or the measure may be expensive. Administration: Information regarding how to administer, score, and interpret results. Permissions: How and where to procure the instrument, such as websites where it may be purchased or journal articles or publications that may contain the scale. Summary: A brief summation of important information. Occupational Therapy Assessments for Older Adults: 100 Instruments for Measuring Occupational Performance encourages occupational therapy and occupational therapy assistants to expand their thinking about the use of appropriate outcome measures with older adult populations. Using the appropriate outcome measure based on evidence can aid in the promotion of health, well-being, and participation of clients.

Enabling Occupation II Advancing an Occupational Therapy Vision for Health, Well-being, & Justice Through Occupation, 2015

Goal Setting and Motivation in Therapy Jenny Ziviani, Anne Poulsen, Monica Cuskelly, 2015-06-21 Drawing together motivational theory, research-based evidence and guidance for best practice, this book presents innovative models for goal-setting and goal pursuit in therapy with children. Setting goals not only allows children, and their families, to engage with the overall therapeutic process, but it also provides an essential motivational element throughout the entire therapeutic process. The editors and contributors give practical advice on empathically collaborating with the child and his or her family, to clearly identify achievable goals that can be wholeheartedly pursued. Key information on Self-Determination Theory (SDT) is accessibly explained, which will aid professional understanding of the relationship between motivation, goal-setting, and strong therapeutic practice. The approaches in this book can be used by a wide range of professionals, including those who specialise in working with children with physical disabilities, learning disabilities, and emotional and behavioural difficulties. The combination of theory, research and practical advice makes this book an essential resource for professionals working therapeutically with children, including occupational therapists, speech and language therapists, physiotherapists, counsellors, psychologists, social workers, arts therapists and psychotherapists.

Homelessness in America Kathleen Swenson Miller, Georgiana L. Herzberg, Sharon A. Ray, 2006 Learn how to better address the needs of the homeless The causes of homelessness are complex and varied. Homelessness in America provides an overview of the state of research on the homeless population from an occupation and societal participation perspective. This important resource explores the systems of care in which homeless services are organized, the tailoring of services to

meet the needs of diverse types of homeless, the newest trends in services, and crucial funding sources. Research is comprehensively examined from an occupation-based perspective, including studies on specific issues pertaining to various homeless populations. This in-depth discussion provides a vital understanding of homelessness using a client-centered and strengths-based approach in occupational therapy. Much of the research and writings of occupational therapists who work with homeless populations has been scattered throughout various diverse publications. Homelessness in America: Perspectives, Characterizations, and Considerations for Occupational Therapy gathers into one useful volume important insights, practical strategies, and valuable research into the many challenges concerning homelessness. Various effective interventions are discussed in depth. Several leading authorities explore current issues and offer illuminating case studies, extensive reference lists, and helpful tables of funding sources. Topics in Homelessness in America include: results of an Internet-based survey of assessment tools used with the homeless a critical examination of the assumptions of who becomes homeless and why typologies of homelessness current trends in service delivery federal organization and sources of funding for services exploratory study of occupational concerns and goals of homeless women with children study illustrating the value of the theory of Occupational Adaptation mother-toddler interactions in transitional housing the role of occupational therapy in the youth homelessness problem homeless youths' after-school and weekend time use guiding intervention by using the Model of Human Occupation (MOHO) productive role involvement at Project Employ study on life skills interventions with effective recommendations much more Homelessness in America is insightful, important reading for occupational therapy educators, students, practicing occupational therapists, program directors of services to the homeless, and policymakers.

Measuring Occupational Performance Mary Law, Carolyn M. Baum, Winnie Dunn, 2024-06-01 As the profession of occupational therapy continues to mature and expand its practice, the measurement of occupational performance is one of the key avenues that all practicing clinicians will need to explore and master. Measuring Occupational Performance: Supporting Best Practice in Occupational Therapy, Third Edition summarizes the measurement tools needed to assess client occupational performance, to provide the best intervention, and to document the effectiveness of that intervention. These measurement tools are not just a compilation of all that are available for measurement relevant to occupational therapy; they are an elite group of tools carefully selected by the editors through a process of rigorous theoretical, clinical, and scientific reasoning. In this Third Edition, Drs. Mary Law, Carolyn Baum, and Winnie Dunn have updated current chapters and added new topics that have not been covered in past editions, such as a chapter on measuring school performance, a key area of practice. Also included is a chapter on measurement principles and development to highlight the concepts common to all the measures included in the text. The Third Edition also has a focus on the best measures and measures that are used most frequently. Features of the Third Edition: Offers insight into the importance of measuring functional performance,

methodologies, measurement issues, and best approach for outcome measurement Conveys a broad focus on occupational performance and offers examples from a wide range of practice settings and from multiple spots throughout the lifespan Explains the technical aspects of measurement development and methodologies and which components of functioning are to be measured and how Develops an understanding of the theoretical aspects and evidence for both standardized tests and non-standardized tests Instructors in educational settings can visit www.efacultyounge.com for additional material to be used for teaching in the classroom. New in the Third Edition: Focus on strengths-based approaches Measures health and disability at both individual and population levels using the International Classification of Functioning, Disability and Health (ICF) An emphasis on evidence-based practice and using evidence from other disciplines, not just from occupational therapy New chapter focused on school-based practice New content on reliability, validity, and responsiveness New content on goal attainment Additional material on decision making in practice In this changing health care environment, *Measuring Occupational Performance: Supporting Best Practice in Occupational Therapy, Third Edition* explains how core values and beliefs can be put into everyday practice and is the essential reference manual for the evidence-based occupational therapy and occupational therapy assistant student and practitioner.

The Kawa Model Michael K. Iwama, 2006-07-25 A landmark publication in occupational therapy and a significant contribution to the rehabilitation theory literature! The Kawa Model presents a new conceptual model of practice that differs from contemporary theories in regard to: origin (East Asia), underlying philosophical base (East Asia), being heavily infused with a natural-ecological, holistic world view, and relational structure. The model is based on the metaphor of nature (a river) that stands for the meanings of life. Because of the familiarity of the metaphor, to both therapists and clients alike, the Kawa Model is relatively easy to comprehend, remarkably simple, yet comprehensive and effective. Unlike other models, it was raised from clinical practice, by practitioners, through a process of qualitative research methods. It is the first conceptual model and substantial theoretical work of occupational therapy from outside of the Western world. - A 'must-read' for all students of occupational therapy - The first substantial work in occupational therapy from outside of the Western world - Introduces an Eastern perspective on matters of theory and culture in occupational therapy - Eight case studies, four from Western practice contexts and four from the East - Developed by clinicians and practitioners for their peers - Questions the cultural boundaries of occupational therapy, its knowledge (epistemology), theory and practice. It puts the reader in touch with the cultural nature of self, client and profession - Enables readers to develop critical analysis skills for examining matters of theory and culture, as opposed to learning theory as 'recipes'

Occupational Therapy Practice Framework: Domain and Process Aota, 2014 As occupational therapy celebrates its centennial in 2017, attention returns to the profession's founding belief in the value of therapeutic occupations as a way to remediate illness and maintain health. The founders emphasized the importance of establishing a therapeutic relationship

with each client and designing an intervention plan based on the knowledge about a client's context and environment, values, goals, and needs. Using today's lexicon, the profession's founders proposed a vision for the profession that was occupation based, client centered, and evidence based--the vision articulated in the third edition of the Occupational Therapy Practice Framework: Domain and Process. The Framework is a must-have official document from the American Occupational Therapy Association. Intended for occupational therapy practitioners and students, other health care professionals, educators, researchers, payers, and consumers, the Framework summarizes the interrelated constructs that describe occupational therapy practice. In addition to the creation of a new preface to set the tone for the work, this new edition includes the following highlights: a redefinition of the overarching statement describing occupational therapy's domain; a new definition of clients that includes persons, groups, and populations; further delineation of the profession's relationship to organizations; inclusion of activity demands as part of the process; and even more up-to-date analysis and guidance for today's occupational therapy practitioners. Achieving health, well-being, and participation in life through engagement in occupation is the overarching statement that describes the domain and process of occupational therapy in the fullest sense. The Framework can provide the structure and guidance that practitioners can use to meet this important goal.
