Blackness Without Ethnicity L. Sansone,2003-08-01 *Blackness Without Ethnicity* draws on fifteen years of his research in Bahia, Rio Suriname, and Amsterdam. Sansone uses his findings to explore the very different ways that race and ethnicity are constructed in Brazil and the rest of Latin America. He compares these Latin American conceptions of race to dominate notions of race that are defined by a black-white polarity and clearly identifiable ethnicities, formulations he sees as highly influenced by the US and to a lesser degree Western Europe. Sansone argues that understanding more complex and ambiguous notions of culture and identity will expand the international discourse on race and move it away from American dominated notions that are not adequate to describe racial difference in other countries (and also in the countries where the notions originated). He also explores the effects of globalization on constructions of race.

Witch Craze Lyndal Roper,2004-12-11 From the gruesome ogress in Hansel and Gretel to the hags at the sabbath in Faust, the witch has been a powerful figure of the Western imagination. In the sixteenth and seventeenth centuries thousands of women confessed to being witches—of making pacts with the Devil, causing babies to sicken, and killing animals and crops—and were put to death. This book is a gripping account of the pursuit, interrogation, torture, and burning of witches during this period and beyond. Drawing on hundreds of original trial transcripts and other rare sources in four areas of Southern Germany, where most of the witches were executed, Lyndal Roper paints a vivid picture of their lives, families, and tribulations. She also explores the psychology of witch-hunting, explaining why it was mostly older women that were the victims of witch crazes, why they confessed to crimes, and how the depiction of witches in art and literature has influenced the characterization of elderly women in our own culture.

Power in the Blood David Warren Sabean,1984 This book is based on a series of episodes from village or small town life in the duchy of Württemberg in southwest Germany between 1580 and 1800, in which state authorities conducted a special investigation into local events. The cases and characters involved include peasants' refusal to celebrate church rituals; a self-proclaimed prophet who encountered an angel in his vineyard; a thirteen-year-old-witch; a paranoid pastor; a murder; and live burial of a village bull.

Biological Diversity of Mexico T. P. Ramamoorthy,1993 Mexico is among the richest countries in the world in terms of the number of native animal and plant species. Found in a wide variety of habitats--from alpine meadows and tropical forests to vast stretches of desert and isolated pockets of biogeographical uniqueness--these species comprise a fascinating, important, and vastly underutilized biological laboratory. This volume presents a collection of selected papers that explore this

marvelous biological abundance. The book is divided into six parts. The first section sets the stage with geological and paleobotanical overviews; the succeeding five sections employ a strong taxonomic base to document species richness, endemism and distribution for animals and plants, followed by reviews of contrasting ecosystems and plants that are closely associated with humans. The last section summarizes the disheartening rate of habitat destruction which threatens to diminish this diversity. In addition to the purely scientific value of this important work, it provides the much-needed basic data that will help conservation policymakers assess and respond to Mexico's ecological evolution.

Woman as Force in History Mary Ritter Beard, 1976 In this classic, pioneering work on the status and position of women, Mary R. Beard challenges the widely held belief that women have been subject to men throughout the ages. She tests this idea of subjection against historical realities--legal, religious, economic, social, intellectual, military, political, and philosophical--and finds it to be meritless. Beard traces the error back to Sir William Blackstone's interpretation of women's legal status after marrying (the very being or legal existence of the woman is suspended during marriage) and argues against this view. In answer to male historians who have failed to acknowledge the real influence of women in history, she provides a lengthy record of outstanding women and their contributions throughout history.
