**Passing to América** Thomas A. Abercrombie, 2018-11-01 In 1803 in the colonial South American city of La Plata, Doña Martina Vilvado y Balverde presented herself to church and crown officials to denounce her husband of more than four years, Don Antonio Yta, as a “woman in disguise.” Forced to submit to a medical inspection that revealed a woman’s body, Don Antonio confessed to having been María Yta, but continued to assert his maleness and claimed to have a functional “member” that appeared, he said, when necessary. *Passing to América* is at once a historical biography and an in-depth examination of the sex/gender complex in an era before “gender” had been divorced from “sex.” The book presents readers with the original court docket, including Don Antonio’s extended confession, in which he tells his life story, and the equally extraordinary biographical sketch offered by Felipa Ybañez of her “son María,” both in English translation and the original Spanish. Thomas A. Abercrombie’s analysis not only grapples with how to understand the sex/gender system within the Spanish Atlantic empire at the turn of the nineteenth century but also explores what Antonio/María and contemporaries can teach us about the complexities of the relationship between sex and gender today. *Passing to América* brings to light a previously obscure case of gender transgression and puts Don Antonio’s life into its social and historical context in order to explore the meaning of “trans” identity in Spain and its American colonies. This accessible and intriguing study provides new insight into historical and contemporary gender construction that will interest students and scholars of gender studies and colonial Spanish literature and history. *Tourism and Dictatorship* S. Pack, 2006-10-02 Following WWII, the authoritarian and morally austere dictatorship of General Francisco Franco's Spain became the playground for millions of carefree tourists from Europe's prosperous democracies. This book chronicles how this helped to strengthen Franco's regime and economic and political standing.

*Paying the Price of Freedom* Christine Hünefeldt, 2024-06-14 Christine Hünefeldt documents in impressive, moving detail the striving and ingenuity, the hard-won triumphs and bitter defeats of slaves who sought liberation in nineteenth-century urban Peru. Drawing on judicial, ecclesiastical, and notarial records—including the testimony of the slaves themselves—she

uncovers the various strategies slaves invented to gain their freedom. Hünefeldt pays particular attention to marriage relations and family life. Slaves used their family solidarity as a strategy, while slaveowners used the conflicts within families to prevent manumission. The author's focus on gender relations between slaveowners and slaves, as well as between slaves, is particularly original. Her eye for ethnographic detail and her perceptive reading of the documentary evidence make this book a rich and important contribution to the study of slavery in Latin America. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. Taking Power John Foran, 2005-11-17 *Taking Power* analyzes the causes behind some three dozen revolutions in the Third World between 1910 and the present. It advances a theory that seeks to integrate the political, economic, and cultural factors that brought these revolutions about, and links structural theorizing with original ideas on culture and agency. It attempts to explain why so few revolutions have succeeded, while so many have failed. The book is divided into chapters that treat particular sets of revolutions including the great social revolutions of Mexico 1910, China 1949, Cuba 1959, Iran 1979, and Nicaragua 1979, the anticolonial revolutions in Algeria, Vietnam, Angola, Mozambique, and Zimbabwe from the 1940s to the 1970s, and the failed revolutionary attempts in El Salvador, Peru, and elsewhere. It closes with speculation about the future of revolutions in an age of globalization, with special attention to Chiapas, the post-September 11 world, and the global justice movement.

**A Comparative History of Literatures in the Iberian Peninsula** Fernando Cabo Aseguinolaza, Anxo Abuín González, César Domínguez, 2010 *A Comparative History of Literatures in the Iberian Peninsula* is the second comparative history of a new subseries with a regional focus, published by the Coordinating Committee of the International Comparative Literature Association. As its predecessor for East-Central Europe, this two-volume history distances itself from traditional histories built around periods and movements, and explores, from a comparative viewpoint, a space considered to be a powerful symbol of inter-literary relations. Both the geographical pertinence and its symbolic condition are obviously discussed, when not even contested. Written by an international team of researchers who are specialists in the field, this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula. The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda. *A Comparative History of Literatures in the Iberian Peninsula* undermines the primacy claimed for national and linguistic boundaries, and provides a geo-cultural account of literary inter-systems which cannot otherwise be explained.

Women's Writing in Colombia Cheryl Elston, 2016-12-20 Winner of the Montserrat Ordóñez Prize 2018 This book provides an original and exciting analysis of Colombian women's writing and its relationship to feminist history from the 1970s to the present. In a period in which questions surrounding women and gender are often sidelined in the academic arena, it argues that feminism has been an important and intrinsic part of contemporary Colombian history. Focusing on understudied literary and non-literary texts written by Colombian women, it traces the particularities of Colombian feminism, showing how it has been closely entwined with left-wing politics and the country's history of violence. This book therefore rethinks the place of feminism in Latin American history and its relationship to feminisms elsewhere, challenging many of the predominant critical paradigms used to understand Latin American literature and culture.

The Routledge Research Companion to the Works of Sor Juana Inés de la Cruz Emilie L. Bergmann, Stacey Schlauf, 2017-04-28 Called by her contemporaries the Tenth Muse, Sor Juana Inés de la Cruz (1648-1695) has continued to stir both popular and scholarly imaginations. While generations of Mexican schoolchildren have memorized her satirical verses, only since the 1970s has her writing received consistent scholarly attention., focused on complexities of female authorship in the political, religious, and intellectual context of colonial New Spain. This volume examines those areas of scholarship that illuminate her work, including her status as an iconic figure in Latin American and Baroque letters, popular culture in Mexico and the United States, and feminism. By addressing the multiple frameworks through which to read her work, this research guide serves as a useful resource for scholars and students of the Baroque in Europe and Latin America, colonial Novohispanic religious institutions, and women's and gender studies. The chapters are distributed across four sections that deal broadly with different aspects of Sor Juana's life and work: institutional contexts (political, economic, religious, intellectual, and legal); reception history; literary genres; and directions for future research. Each section is designed to provide the reader with a clear understanding of the current state of the research on those topics and the academic debates within each field.

*Cultural Encounters* Mary Elizabeth Perry, Anne J. Cruz, 2024-07-26 More than just an expression of religious authority or an instrument of social control, the Inquisition was an arena where cultures met and clashed on both shores of the Atlantic. This pioneering volume examines how cultural identities were maintained despite oppression. Persecuted groups were able to survive the Inquisition by means of diverse strategies—whether Christianized Jews in Spain preserving their experiences in literature, or native American folk healers practicing medical care. These investigations of social resistance and cultural persistence will reinforce the cultural significance of the Inquisition. Contributors: Jaime Contreras, Anne J. Cruz, Jesús M. **The Global Findex Database 2017** Asli Demircuc-Kunt, Leora Klapper, Dorothe Singer, Saniya Ansar, Jake Hess, 2018-04-19 In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners,

Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalfindex](http://www.worldbank.org/globalfindex).

Urban Design Under Neoliberalism Francisco Vergara Perucich, 2019-05-01 This book discusses the status of urban design as a disciplinary field and as a practice under the current and pervasive neoliberal regime. The main argument is that urban design has been wholly reshaped by neoliberalism. In this transformation, it has become a discipline that has neglected its original ethos - designing good cities - aligning its theory and practice with the sole profit-oriented objectives typical of advanced capitalist societies. The book draws on Marxism-inspired scholars for a conceptual analysis of how neoliberalism influenced the emergence of urbanism and urban design. It looks specifically at how, in urbanism's everyday dimensions, it is possible to find examples of resistance and emancipation. Based on empirical evidence, archival resources, and immersion in the socio-spatial reality of Santiago de Chile, the book illustrates the way neoliberalism compromises urban designers' ethics and practices, and therefore how its theories become instrumental to the neoliberal transformation of urban society represented in contemporary urbanisms. It will be a valuable resource for academics and students in the fields of architecture, urban studies, sociology and geography.

**The Politics of Dress in Asia and the Americas** Mina Roces, Louise P. Edwards, 2010 This book examines how the politics of dress has been incorporated in constructions of nationhood in both Asia and the Americas, and reveals how politicians and political regimes (including tribal, revolutionary, authoritarian, colonial, and democratic) manipulate sumptuary practices in order to create national identities, to legitimise hierarchies of power or to build personal political identities. In tackling these broad themes over two centuries, the editors and contributors grapple with gender politics; in particular, how men and women's dress reflect their political and economic position in the nation-states.
