The Spiritual Life and the Word of God Emanuel Swedenborg,

Lay Siege to Heaven Louis De Wohl, 2010-11-29 Continuing his popular series of novels about saints of the Church, de Wohl devotes his considerable talents to an interpretation of one of the most unusual women of all time, Saint Catherine of Siena. The daughter of a prosperous dyer in fourteenth-century Siena, Catherine never forgot the mystical experience of her extreme youth; at that time she devoted herself to Christ. It was, however, a shock to her family when, refusing marriage, she insisted on giving her life totally to God. Her career was extraordinary. In that confused and dangerous era of history, the Pope was living at Avignon: Catherine persuaded him to return to Rome. The City-States of Italy were at war with each other: Catherine subdued them. There was pestilence: Catherine served and saved. She performed miracles, she received the stigmata, she drew about her a crowd of devoted men and women. A saint who would not let the Lord God alone, she really did lay siege to heaven and changed the face of her world. This novel, which is also a vivid biography, brings Catherine of Siena to life in a remarkable way. She lives on every page.

The Philosophy of Spiritual Activity Rudolf Steiner, 2007-05 Dr. Ehrenfried Pfeiffer writes: Research carried on since 1925 has shown that the formation and arrangement of crystals during the process of crystallization can, under certain conditions, be greatly influenced by the admixture of various substances.... Hence, from these alterations (in form) apriori conclusions can be drawn about the qualities and characteristics of the admixture itself. This is an essential element in his work of analyzing the health and qualities of human blood as an aid in the process of diagnoses.

New World Poetics George B. Handley, 2010 A simultaneously ecocritical and comparative study, *New World Poetics* plumbs the earthly depth and social breadth of the poetry of Walt Whitman, Pablo Neruda, and Derek Walcott, three of the Americas' most ambitious and epic-minded poets. In Whitman's call for a poetry of New World possibility, Neruda's invocation of an American love, and Walcott's investment in the poetic ironies of an American epic, the adamic imagination of their poetry does not reinvent the mythical Garden that stands before history's beginnings but instead taps the foundational powers of language before a natural world deeply imbued with the traces of human time. Theirs is a postlapsarian Adam seeking a renewed sense of place in a biocentric and cross-cultural New World through language and nature's capacity for regeneration in the wake of human violence and suffering. The book introduces the environmental history of the Americas and its relationship to the foundation of American and Latin American studies, explores its relevance to each poet's ambition to recuperate the New World's lost histories, and provides a transnational poetics of understanding literary influence and

textual simultaneity in the Americas. The study provides much needed in-depth ecocritical readings of the major poems of the three poets, insisting on the need for thoughtful regard for the challenge to human imagination and culture posed by nature's regenerative powers; nuanced appreciation for the difficulty of balancing the demands of social justice within the context of deep time; and the symptomatic dangers as well as healing potential of human self-consciousness in light of global environmental degradation.

Modern Esoteric Spirituality Antoine Faivre, Jacob Needleman, Karen Voss, 1995 An excellent overview of spiritual movements throughout the last few centuries . . . a superb panorama (The Book Reader), this book covers esoterica from its ancient beginnings through the alchemists to Gurdjieff and Jung.

Spiritual Emergency Stanislav Grof, Christina Grof, 1989-09 Argues that many episodes of transformational crisis have been misdiagnosed as mental illness, and explains how to use such a crisis for spiritual development.

The Other Voice Octavio Paz, 1991 A collection of essays by Octavio Paz on poetry and its place in our day. These essays are a continuation of the final part of *Los hijos del limo* (Children of the mire). They deal with the twilight of the avant-garde and the place of poetry in the contemporary period.

What is Spiritism? Allan Kardec, 2010 A work that is still up-to-date, *What is Spiritism?* is useful for adherents of the Spiritist Doctrine as well as for those who want to understand the nature of Spiritism and its fundamental points. Kardec's logic and common sense are obvious in this book as he confounds Spiritism's detractors while answering the questions of those who believe in and aspire to a superior life. The book is divided into three chapters. The first is composed of dialogues between Kardec and a critic, a skeptic and a priest, providing answers to those who do not understand the basic principles of Spiritism. It also presents appropriate refutations to its opponents. The second chapter presents practical and experimental aspects of the science and is a kind of summary of *The Mediums' Book*. The third chapter is a short synthesis of *The Spirits' Book*, with solutions to psychological, moral and philosophical problems according to the Spiritist Doctrine. In addition, the book is prefaced with an abridged version of Henri Sausse's biography of Allan Kardec.--
