S=EX2 Pere Estupinyà, 2016-08-25 You have in your hands the most rigorous, complete and readable book ever written about the fascinating science of human sexuality. This book goes beyond the well-worn sexual education advice and the usual evolutionist psychology. After *The Brain Snatcher*, Pere Estupinyà comes back with the first popular science book on sex aimed at a wide audience. While there are some tips for the more adventurous, there is also a wealth of new information to be discovered. Distancing himself from the many books on advice or techniques, Estupinyà brings sex to another dimension by combining popular beliefs and science. Do you want proof that our decision-making in the “heat of the moment” is less rational than we think? Did you know that mind and vagina each go their own way? Are you interested in learning about the effects of yoga on sexual pleasure? Did you know about the attempts in the 60s to “cure” homosexuals with electric shock therapy, the chemical analysis of female ejaculation, or the fundamental relationship between the sympathetic and parasympathetic nervous system? The author has spoken directly with asexual and intersexual individuals, fetishists, multi-orgasmic women, women who never have orgasms through penetration, and men who have no refractory period. He has also participated in sadomasochistic events; learned tantric techniques with a couple of coaches, spoken with porn performers at Barcelona’s Bagdad, and attended workshops in which a woman teaches how to have orgasms with your mind and breathing. The result is an incredible miscellany of information that appeals to both the scientific community and the curious.

Overkill Sandra Brown, 2022-08-16 #1 New York Times bestselling author Sandra Brown delivers a riveting thriller in which a conflict of conscience for a former football star and an ambitious state prosecutor swiftly intensifies into a fight for their lives. Former Super Bowl MVP quarterback Zach Bridger hasn’t seen his ex-wife, Rebecca Pratt, for some time—not since their volatile marriage imploded—so he’s shocked to receive a life-altering call about her. Rebecca has been placed on life support after a violent assault, and he—despite their divorce—has medical power-of-attorney. Zach is asked to make an impossible choice: keep her on life support or take her off of it. Buckling under the weight of the responsibility and the glare of public scrutiny, Zach ultimately walks away, letting Rebecca's parents have the final say. Four years later, Rebecca's attacker, Eban—the scion of a wealthy family in Atlanta—gets an early release from prison. The ludicrous miscarriage of

justice reeks of favoritism, and Kate Lennon, a brilliant state prosecutor, is determined to put him back behind bars. Rebecca's parents have kept her alive all these years, but if her condition were to change—if she were to die—Eban could be retried on a new charge: murder. It isn't lost on Zach that in order for Eban to be charged with Rebecca's murder, Zach must actually be the one to kill her. He rejects Kate's legal standpoint but can't resist their ill-timed attraction to each other. Eban, having realized the jeopardy he's in, plots to make certain that neither Zach nor Kate lives to see the death of Rebecca—and the end of his freedom. Includes a reading group guide.

**Gender Trouble** Judith Butler, 2011-09-22 With intellectual reference points that include Foucault and Freud, Wittig, Kristeva and Irigaray, this is one of the most talked-about scholarly works of the past fifty years and is perhaps the essential work of contemporary feminist thought.

**World Report on Violence and Health** World Health Organization, 2002 This report is part of WHO's response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials.

*Human Enhancement* Julian Savulescu, Nick Bostrom, 2009-01-22 To what extent should we use technology to try to make better human beings? Because of the remarkable advances in biomedical science, we must now find an answer to this question. Human enhancement aims to increase human capacities above normal levels. Many forms of human enhancement are already in use. Many students and academics take cognition enhancing drugs to get a competitive edge. Some top athletes boost their performance with legal and illegal substances. Many an office worker begins each day with a dose of caffeine. This is only the beginning. As science and technology advance further, it will become increasingly possible to enhance basic human capacities to increase or modulate cognition, mood, personality, and physical performance, and to control the biological processes underlying normal aging. Some have suggested that such advances would take us beyond the bounds of human nature. These trends, and these dramatic prospects, raise profound ethical questions. They have generated intense public debate and have become a central topic of discussion within practical ethics. Should we side with bioconservatives, and forgo the use of any biomedical interventions aimed at enhancing human capacities? Should we side with transhumanists and embrace the new opportunities? Or should we perhaps plot some middle course? Human Enhancement presents the latest moves in this crucial debate: original contributions from many of the world's leading ethicists and moral thinkers, representing a wide range of perspectives, advocates and sceptics, enthusiasts and moderates. These are the arguments that will determine how humanity develops in the near future.

*Secrets of Attraction* Sandra Anne Taylor, 2010-06 In this uniquely fascinating book, the author reveals how the Universal

Laws - and even quantum physics - actually direct the course of your relationship destiny. Energy is the center of all life, and your energy is the center of all that you attract. You project this energy ahead of you in time and space, magnetically determining whom you will meet, as well as what the dynamics of any particular relationship will be like. In *Secrets of Attraction*, you'll discover what makes up your personal energy field, how you broadcast it, and why it has much more impact on your relationships than your looks, intellect, or financial status. No matter what you've been through in the past, you do have the power to change your relationship energy and manifest the intimacy and true love that has been eluding you for so long!

**Daniel Goleman Omnibus** Daniel Goleman, 2004 *Emotional Intelligence Does IQ define our destiny?* Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play a major role in thought, decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us. *Working with Emotional Intelligence* Do you want to be more successful at work? Do you want to improve your chances of promotion? Do you want to get on better with your colleagues? Daniel Goleman draws on unparalleled access to business leaders around the world and the thorough research that is his trademark. He demonstrates that emotional intelligence at work matters twice as much as cognitive abilities such as IQ or technical expertise in this inspiring sequel.

6th International Conference on the Conservation of Earthen Architecture The Getty Conservation Institute, 1991-02-28 On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing.

**My Wicked Marquess** Gaelen Foley, 2010-01-07 *The Inferno Club* - a scandalous gathering of wealthy libertines and highborn rakehells devoted to their wicked pleasures. So the Club's members are known to London Society. But little does the world suspect the true purpose of the Inferno Club--or the danger that looms over England--which these select, powerful

lords are secretly sworn to fight.

**The Little Book of Feminist Saints** Julia Pierpont, 2018-03-06 A perfect holiday gift, this beautifully illustrated collection honoring one hundred exceptional “feminist saints” throughout history is sure to inspire women and men alike. “A new set of role models and heroes—‘matron saints’—for the feminist future.”—The New York Times Book Review “The women in this book . . . blazed trails where none existed before.”—The Guardian In this luminous volume, New York Times bestselling writer Julia Pierpont and artist Manjit Thapp match short, vibrant, and surprising biographies with stunning portraits of secular female “saints”: champions of strength and progress. These women broke ground, broke ceilings, and broke molds—including Maya Angelou • Jane Austen • Ruby Bridges • Rachel Carson • Shirley Chisholm • Marie Curie & Irène Joliot Curie • Isadora Duncan • Amelia Earhart • Artemisia Gentileschi • Grace Hopper • Dolores Huerta • Frida Kahlo • Billie Jean King • Audre Lorde • Wilma Mankiller • Toni Morrison • Michelle Obama • Sandra Day O’Connor • Sally Ride • Eleanor Roosevelt • Margaret Sanger • Sappho • Nina Simone • Gloria Steinem • Kanno Sugako • Harriet Tubman • Mae West • Virginia Woolf • Malala Yousafzai Open to any page and find daily inspiration and lasting delight. Praise for *The Little Book of Feminist Saints* “A whistle-stop tour of inspiring women . . . [The artwork] deserves to be framed in every woman’s living room.”—Diva “Short, snappy and inspiring [with] glorious visuals.”—Psychologies “This beautifully illustrated collection offers daily inspiration and humorous anecdotes to remind you why we worship these women so.”—Hello Giggles “An enticing collection . . . Pierpont’s pithy write-ups are accompanied by Thapp’s funky, wonderfully expressive color illustrations, making for an engaging picture-book experience for adults. . . . Bold and sassy . . . required reading for any seeking to broaden their historical knowledge.”—Kirkus Reviews (starred review) “Small enough to tuck into a bag, this delightful book offers instant inspiration.”—BookPage

*Rainwater* Sandra Brown, 2010-05-01 Ella Barron runs her Texas boarding house with the efficiency of a ship's captain and the grace of a gentlewoman. She cares for her ten-year-old son, Solly, a sweet but challenging child whose busy behavior and failure to speak elicits undesired advice from others in town. Ella's plate is full from sunup to sundown. But when a room in her boarding house opens up and the respected town doctor, Dr. Kincaid, brings Ella a new boarder--the handsome and gallant Mr. David Rainwater--Ella is immediately resistant to opening up her home to this mysterious stranger.

*Social Psychology; Understanding Human Interaction* Robert A. Baron, Donn Erwin Byrne, William Griffitt, 1974

*Juan Gregorio Palechor* Myriam Jimeno, 2014-03-14 The Colombian activist Juan Gregorio Palechor (1923–1992) dedicated his life to championing indigenous rights in Cauca, a department in the southwest of Colombia, where he helped found the Regional Indigenous Council of Cauca. Recounting his life story in collaboration with the Colombian anthropologist Myriam Jimeno, Palechor traces his political awakening, his experiences in national politics, the disillusionment that resulted,

and his turn to a more radical activism aimed at confronting ethnic discrimination and fighting for indigenous territorial and political sovereignty. Palechor's lively memoir is complemented by Jimeno's reflections on autobiography as an anthropological tool and on the oppressive social and political conditions faced by Colombia's indigenous peoples. A faithful and fluent transcription of Palechor's life story, this work is a uniquely valuable resource for understanding the contemporary indigenous rights movements in Colombia.

**Mexicans on Death Row** Ricardo Ampudia, 2010-11-30 They stole 15 years of my life. A native of Monterrey, Mexico, Ricardo Aldape Guerra was sentenced to death in 1982 for the first-degree murder of a Houston Police Officer that took place three months earlier. He spent 15 years in a maximum security prison in Huntsville, Texas, before his death sentence was overturned and he was set free. Ricardo Ampudia, former Consul General of Mexico in Houston, Texas, explores the history and ethics of the death penalty in this fascinating look at its impact on Mexicans sentenced to death in the United States. A fervent opponent of capital punishment, Ampudia came to his beliefs because of his involvement in defending Aldape. The author offers a brief introduction about the death penalty, both in the U.S. and around the world, and notes that in 2001, 90% of all known executions occurred in China, Iran, Saudi Arabia, and the United States. Most of the countries that apply the death penalty have dictatorial regimes or repressive governments, with the U.S. being the notable exception. Subsequent chapters focus on the phenomenon of the death penalty in the U.S. and the work done by the Mexican government to protect its citizens abroad. The final chapters focus on the Ricardo Aldape Guerra case. In this section written by Scott Atlas, the attorney who handled his defense, and Michael Mucchetti, both from the Vinson & Elkins law firm, it's revealed that the reopened investigation of the crime uncovered evidence that the jury never heard when Aldape was convicted. And in fact, a shocking pattern of police and prosecutorial intimidation, misconduct, and abuse came to light. Originally published in Mexico as *Mexicanos al grito de muerte*, this absorbing account of the history, use, and flaws of the death penalty is a must-read for anyone interested in the criminal justice system in the United States.

*On Intelligence* Jeff Hawkins, Sandra Blakeslee, 2007-04-01 From the inventor of the PalmPilot comes a new and compelling theory of intelligence, brain function, and the future of intelligent machines Jeff Hawkins, the man who created the PalmPilot, Treo smart phone, and other handheld devices, has reshaped our relationship to computers. Now he stands ready to revolutionize both neuroscience and computing in one stroke, with a new understanding of intelligence itself. Hawkins develops a powerful theory of how the human brain works, explaining why computers are not intelligent and how, based on this new theory, we can finally build intelligent machines. The brain is not a computer, but a memory system that stores experiences in a way that reflects the true structure of the world, remembering sequences of events and their nested relationships and making predictions based on those memories. It is this memory-prediction system that forms the basis of intelligence, perception, creativity, and even consciousness. In an engaging style that will captivate audiences from the

merely curious to the professional scientist, Hawkins shows how a clear understanding of how the brain works will make it possible for us to build intelligent machines, in silicon, that will exceed our human ability in surprising ways. Written with acclaimed science writer Sandra Blakeslee, *On Intelligence* promises to completely transfigure the possibilities of the technology age. It is a landmark book in its scope and clarity.

**How to Spot a Dangerous Man Before You Get Involved** Sandra L. Brown, 2011-01-01 This savvy, straightforward book pairs real women's stories with research and the expertise of a domestic violence counselor to help women of all ages identify Dangerous Men -- before they become too involved. Brown describes eight types of Dangerous Men, their specific traits and characteristics. In separate chapters, she explores victim's stories that tell how they came in contact with this type of Dangerous Man and their outcome. Brown then shows readers how to develop a Defense Strategy -- how to spot, avoid, or rid themselves of this type of Dangerous Man. Brown explains women's innate red flag systems -- how they work to signal impending danger, and why many women learn to ignore them. With red flags in hand, Brown then guides readers through their own personal experiences to develop a personalized Do Not Date list. With these tools, Brown shows women how they can spot and avoid patterns of engagement with Dangerous Men.

**Feminism and Ecology** Mary Mellor, 2013-04-23 The relationship between feminism and ecology has grown in importance in recent years. This book provides a comprehensive introduction to the ecofeminist movement and its history, as well as an extended analysis of the main perspectives within it. Mellor examines the connections between feminism and the green movement, and outlines the contributions of the major participants, while contextualizing them within a wider range of debates. She re-examines classic feminist texts from an ecofeminist perspective, and explores the relationship between ecofeminism and other ecological movements, such as 'deep' ecology, social ecology and ecosocialism. Mellor discusses the association of women with biology and 'nature', and argues that the relationship between women and the environment can help us to understand the relationship between humanity and the natural world. Against the trends towards radical economic liberalism, global capitalism and postmodernist pluralism, she argues that there is within the feminist and green movements the basis of a new radical movement which draws on the principles of both. A useful and engaging account of feminist perspectives on ecology, the book will be welcomed by students and researchers in feminism and gender studies, sociology and political theory.
