From Poverty to Power Duncan Green,2008 Offers a look at the causes and effects of poverty and inequality, as well as the possible solutions. This title features research, human stories, statistics, and compelling arguments. It discusses about the world we live in and how we can make it a better place.

Predatory States J. Patrice McSherry,2012-07-10 This powerful study makes a compelling case about the key U.S. role in state terrorism in Latin America during the Cold War. Long hidden from public view, Operation Condor was a military network created in the 1970s to eliminate political opponents of Latin American regimes. Its key members were the anticommunist dictatorships of Chile, Argentina, Uruguay, Bolivia, Paraguay, and Brazil, later joined by Peru and Ecuador, with covert support from the U.S. government. Drawing on a wealth of testimonies, declassified files, and Latin American primary sources, J. Patrice McSherry examines Operation Condor from numerous vantage points: its secret structures, intelligence networks, covert operations against dissidents, political assassinations worldwide, commanders and operatives, links to the Pentagon and the CIA, and extension to Central America in the 1980s. The author convincingly shows how, using extralegal and terrorist methods, Operation Condor hunted down, seized, and executed political opponents across borders. McSherry argues that Condor functioned within, or parallel to, the structures of the larger inter-American military system led by the United States, and that declassified U.S. documents make clear that U.S. security officers saw Condor as a legitimate and useful 'counterterror' organization. Revealing new details of Condor operations and fresh evidence of links to the U.S. security establishment, this controversial work offers an original analysis of the use of secret, parallel armies in Western counterinsurgency strategies. It will be a clarion call to all readers to consider the long-term consequences of clandestine operations in the name of 'democracy.'

The Strategy of Equality Julian Le Grand,1982 Monograph analysing the failure to achieve equality (equal opportunity) through public expenditure on social services in the UK - explains the theoretical concept of income redistribution, examines government policy as regards the health service, education, housing, and transport, and suggests that only major ideological and social reform can achieve equality. Bibliography pp. 176 to 186, and graphs.

Chronicle of Cuban Marine Fisheries, 1935-1995 Julio A. Baisre,Food and Agriculture Organization of the United

Nations,2000-01-01 Written by the Ministry of the Fishery Industry, Cuba, this paper presents an analysis of trends in Cuban marine fishery resources. An extended time series offers a comprehensive picture of Cuban fisheries over the last 60 years. There is a loss of stock, probably resulting from the combined action of overfishing and changes in the marine ecosystem. Some changes might be irreversible.

Mastering the Art of War Liang Zhuge, Ji Liu,2005 Composed by two prominent statesmen-generals of classical China, this book develops the strategies of Sun Tzu's classic, *The Art of War*, into a complete handbook of organization and leadership. The great leaders of ancient China who were trained in Sun Tzu's principles understood how war is waged successfully, both materially and mentally, and how victory and defeat follow clear social, psychological, and environmental laws. Drawing on episodes from the panorama of Chinese history, *Mastering the Art of War* presents practical summaries of these essential laws along with tales of conflict and strategy that show in concrete terms the proper use of Sun Tzu's principles. The book also examines the social and psychological aspects of organization and crisis management. The translator's introduction surveys the Chinese philosophies of war and conflict and explores in depth the parallels between *The Art of War* and the oldest handbook of strategic living, the *I Ching* (Book of Changes).

Corruption in Developing Countries Ronald Wraith, Edgar Simpkins,2010-11-26 First published in 1963, this study of corruption in the developing countries of Africa takes as its point of comparison Britain, pre-1880, as the authors question whether Britain's experience in overcoming corruption can throw any light the means of overcoming corruption in contemporary developing countries.

Heritage and Rights of Indigenous Peoples Manuel May Castillo, Amy Strecker,2017 In 2007, the United Nations adopted the UN Declaration on the Rights of Indigenous People, a landmark political recognition of indigenous rights. A decade later,

this book looks at the status of those rights internationally. Written jointly by indigenous and non-indigenous scholars, the chapters feature case studies from four continents that explore the issues faced by Indigenous Peoples through three themes: land, spirituality, and self-determination.

Aids Timothy Edgar, Mary Anne Fitzpatrick, Vicki S. Freimuth, 2012-12-06 Prevention through appropriate behavior is the best weapon available to fight further spread of HIV infection. However, individuals take necessary actions to prevent diseases such as AIDS only when they are properly informed and they feel motivated to respond to the information they possess. In order to achieve a clearer understanding of these two facets of the prevention process, this book examines the interplay of the messages individuals receive about AIDS at the public level and the messages exchanged between individuals at the interpersonal level. The specific purpose of the book is to provide a theoretical and conceptual foundation for understanding the pragmatic concerns related to the AIDS crisis in the United States and other parts of the world. The book represents the first systematic examination of how theory informs our understanding of AIDS and communication processes. Contributors explore the issues from a variety of theoretical and conceptual viewpoints. Their goal is to stimulate thought which will lead to the pragmatic application of the ideas presented. The chapters focus on four general communication concerns: * interpersonal interaction as it relates to choices individuals make about safer sex practices, * theory and practice of public campaigns about AIDS, * intercultural issues, and * critical and descriptive approaches for understanding news coverage of AIDS.

Principles and Applications of Narrowband Internet of Things (NBloT) Routray, Sudhir K., Mohanty, Sasmita, 2021-01-08 The internet of things (IoT) has emerged as a trending technology that is continually being implemented into various practices within the field of engineering and science due to its versatility and various benefits. Despite the levels of innovation that IoT provides, researchers continue to search for networks that maintain levels of sustainability and require fewer resources. A network that measures up to these expectations is Narrowband IoT (NBloT), which is a low power wide area version of IoT networks and is suitable for larger projects. Engineers and other industry professionals are in need of in-depth knowledge on this growing technology and its various applications. Principles and Applications of Narrowband Internet of Things (NBloT) is an essential reference source that provides an in-depth understanding on the recent advancements of NBloT as well as the crucial roles of emerging low power IoT networks in various regions of the world. Featuring research on topics such as security monitoring, sustainability, and cloud infrastructure, this book is ideally designed for developers, engineers, practitioners, researchers, students, managers, and policymakers seeking coverage on the large-scale deployment and modern applications of NBloT.

To Die in Mexico John Gibler, 2011-06-28 Mexico is in a state of siege. Since President Felipe Calderon declared a war on drugs in December 2006, more than 38,000 Mexican have been murdered. During the same period, drug money has infused over \$130 billion into Mexico's economy, now the country's single largest source of income. Corruption and graft infiltrate all levels of government. Entire towns have become ungovernable, and of every 100 people killed, Mexican police now only investigate approximately five. But the market is booming: In 2009, more people in the United States bought recreational drugs than ever before. In 2009, the United Nations reported that some \$350 billion in drug money had been successfully laundered into the global banking system the prior year, saving it from collapse. How does an extra \$350 billion in the global economy affect the murder rate in Mexico? To get the story and connect the dots, acclaimed journalist John Gibler travels across Mexico and slips behind the frontlines to talk with people who live in towns under assault: newspaper reporters and crime-beat photographers, funeral parlor workers, convicted drug traffickers, government officials, cab drivers and others who find themselves living on the lawless frontiers of the drug war. Gibler tells hair-raising stories of wild street battles, kidnappings, narrow escapes, politicians on the take, and the ordinary people who fight for justice as they seek solutions to the crisis that is tearing Mexico apart. Fast-paced and urgent, *To Die in Mexico* is an extraordinary look inside the raging drug war, and its global implications. John Gibler is a writer based in Mexico and California, the author of *Mexico Unconquered: Chronicles of Power and Revolt* (City Lights Books, 2009) and a contributor to *País de muertos: Crónicas contra la impunidad* (Random House Mondadori, 2011). He is a correspondent for KPFA in San Francisco and has published in magazines in the United States and Mexico, including *Left Turn*, *Z Magazine*, *Earth Island Journal*, *ColorLines*, *Race*, *Poverty*, *the Environment* *Fifth Estate*, *New Politics*, *In These Times*, *Yes! Magazine*, *Contralínea* and *Milenio Semanal*. Gibler's front-line reportage coupled with first-rate analysis gives an uncommonly vivid and nuanced picture of a society riddled and enervated by corruption, shootouts, and raids, where murder is the 'most popular method of conflict resolution.' . . . At great personal risk, the author unearths stories the mainstream media doesn't—or is it too afraid—to cover, and gives voice to those who have been silenced or whose stories have been forgotten.—*Publishers Weekly*, starred review Gibler argues passionately to undercut this 'case study in failure.' The drug barons are only getting richer, the murders mount and the police and military repression expand as 'illegality increases the value of the commodity.' With legality, both U.S. and Mexican society could address real issues of substance abuse through education and public-health initiatives. A visceral, immediate and reasonable argument.—*Kirkus Reviews* Gibler provides a fascinating and detailed insight into the history of both drug use in the US and the 'war on drugs' unleashed by Ronald Reagan through the very plausible—but radical—lens of social control. . . . Throughout this short but powerful book, Gibler accompanies journalists riding the grim carousel of death on Mexico's streets, exploring the realities of a profession under siege in states such as Sinaloa and just how they cover the

drugs war.—Gavin O’Toole, *The Latin American Review of Books*

On the Trial of Jesus Paul Winter,1974 After World War II, Ernst Ludwig Ehrlich (1921-2007) published works in English and German by eminent Israeli scholars, in this way introducing them to a wider audience in Europe and North America. The series he founded for that purpose, *Studia Judaica*, continues to offer a platform for scholarly studies and editions that cover all eras in the history of the Jewish religion.

The Yes of the Girls Leandro Fernández de Moratín,2021-07-06 The Yes of the Girls is a comedy about Doña Paquita, a 16-year-old girl forced by her mother Doña Irene to marry Don Diego, a sensitive and wealthy 59-year-old gentleman. However, he ignores that Doña Paquita is in love with a certain 'Don Felix', who is actually called Don Carlos, and is Don Diego's nephew. With this love triangle as an argument, the play is developed, whose main theme is the oppression of girls forced to obey their mother and enter into an unequal marriage and in this case with a great age difference between the spouses.

Sport Policy Nils Asle Bergsgard,2007 This is a cutting-edge text which responds to the increasing importance of sport policy and its relation to public investment.
