**Gustav Mahler** Donald Mitchell, 1980-01-01 Available again for a new generation of Mahlerians, Donald Mitchell's famous study of the composer's early life and music, revised and updated in 1980, includes a new introduction by the author, and supplementary addenda, which bring this classic work once again to the forefront of Mahler studies. Tracing Mahler's life from his birth in Bohemia, then part of the mighty Austro-Hungarian empire, to his early works (many now lost) *Gustav Mahler: The Early Years* forms an indispensable prelude to the period during which the cycle of great symphonies was to evolve. The conflicts which came to mark Mahler's music and personality had their beginnings in his childhood and youth. Without understanding the territorial, social and familial conflicts of this time one cannot truly appreciate the impulses behind the major symphonies and song cycles of his later years. Book jacket.

*On flower power. The role of the vase in arts, crafts and design. Catalogo della mostra (Roma, 16 luglio-29 settembre 2019). Ediz. italiana e inglese* Martí Guixé, 2019 Published with the exhibition at the Galleria Nazionale d'Arte Moderna e Contemporanea in Rome, this book brings together history, art, and industry in a single object: the vase. The vase has been the subject and object of a narrative in which artists and designers have portrayed, photographed, and reinvented it. It has filled roles as both an art object, with its intrinsic value, and an industrial object with the same functions and no less artistic value. Curated by Spanish designer Martí Guixé, the exhibition offers an opportunity to reflect on the relationship between artisanship, design, and contemporary art, and compare visual languages that are more similar than we may think. Exhibition: Galleria Nazionale d'Arte Moderna e Contemporanea, Rome, Italy (16.07.-29.09.2019).

*Incompiuto. La nascita di uno Stile-The birth of a style. Ediz. bilingue* Gabriele Basilico, 2018 & *Incompiuto. La nascita di uno stile* è la prima e unica indagine, frutto di dieci anni di ricerca sul campo, di un fenomeno molto discusso nel nostro paese ma non ancora completamente riconosciuto: la presenza massiccia sul territorio di edifici e infrastrutture la cui realizzazione non si è mai conclusa. La dimensione del fenomeno, l'estensione territoriale e le incredibili peculiarità architettoniche fanno dell'*Incompiuto* il più importante stile architettonico italiano dal dopoguerra a oggi. Questa è la tesi

che sostiene, in modo provocatorio ma ineccepibile, il gruppo di lavoro che in questi anni ha raccolto migliaia di scatti, ha vagliato centinaia di segnalazioni su tutto il territorio nazionale, a partire dalla Sicilia, per poi risalire la penisola. &Incompiuto. La nascita di uno stile& accompagna il lettore in un moderno Grand Tour, tra le rovine contemporanee. Testi di: Alterazioni Video, Marc Augé, Marco Biraghi, Davide Giannella, Filippo Minelli, Leoluca Orlando, Antonio Ricci, Salvatore Settis, Robert Storr, Paul Virilio, Wu Ming. Fotografie di: Alterazioni Video, Gabriele Basilico.

*Josef Frank* Christopher Long, Josef Frank, 2002 Architect, designer, and theorist Josef Frank (1885-1967) was known throughout Europe in the 1920s as one of the continent's leading modernists. Yet despite his important contributions to the development of modernism, Frank has been largely excluded from histories of the movement. *Josef Frank: Life and Work* is the first study that comprehensively explores the life, ideas, and designs of this complex and controversial figure. Educated in Vienna just after the turn of the century, Frank became the leader of the younger generation of architects in Austria after the First World War. But Frank fell from grace when he emerged as a forceful critic of the extremes of modern architecture and design during the early 1930s. Dismissing the demands for a unified modern style, Frank insisted that it was pluralism, not uniformity, that most characterized life in the new machine age. He called instead for a more humane modernism, one that responded to people's everyday needs and left room for sentimentality and historical influences. He was able to put these ideas into practice when, in 1933, he was forced to leave Vienna for Sweden. There his work came to define Swedish (or Scandinavian) modern design. For more than thirty years he was the chief designer for the Stockholm furnishings firm Svenskt Tenn, producing colorful, cozy, and eclectic designs that provided a refreshing alternative to the architectural mainstream of the day and presaged the coming revolt against modernism in the 1960s. In this sensitive study of one of the twentieth century's seminal architects and thinkers, Christopher Long offers new insight into Josef Frank's work and ideas and provides an important contribution to the understanding of modernist culture and its history.

*Inside Architecture* Vittorio Gregotti, 1996 *Inside Architecture* is a concise, insightful examination of the role the modernist project has played in late twentieth-century building, as well as an attempt to reconcile the dilemmas and shortcomings of modern orthodoxy with a renewed vision of modernism. Gregotti first identifies the elements of mass culture and public institutions that have led to the deterioration of natural and man-made environments. He then investigates eight issues - precision, technique, monumentality, modification, atopia, simplicity, procedure, and image - that influence the activities of contemporary architects. Gregotti is particularly suspicious of the deconstructivist argument and its heavy reliance on literary models. And he provides an incisive critique of the recent interest in modernist aesthetics, warning against reviving the forms of an old movement without considering the cultural and social criteria that once gave it purpose and meaning.

**Colour and colour naming: crosslinguistic approaches** João Paulo Silvestre,Esperança Cardeira,Alina Villalva,2016-09-01 The Colour and Colour Naming conference, held in 2015 at the University of Lisbon, offered a chance to explore colour naming processes from a cross-linguistic approach. The conference was an initiative of the working group Lexicography And Lexicology from a Pan-European Perspective, itself part of the COST action European Network of Lexicography. The working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage. The proceedings gather together a selection of studies originally presented at the conference. The first section of the volume outlines a Pan-European perspective of colour names; the second section is devoted to the categorisation and lexicographic description of colour terms.

**Colour and Painting in Ancient Egypt** W. V. Davies,2001 This volume arises from the International Colloquium on Colour and Painting in Ancient Egypt, organized by the Department of Egyptian Antiquities in the British Museum in 1996. Contributions range from the search for accurate methods of recording painted scenes on the monuments, through ancient painting techniques, to the symbolic meaning of colour to the ancient Egyptians, an understanding of which allows a better appreciation of their artistic creations. The application of the latest scientific techniques to ancient pigments is also well

represented, a field of study that casts new light on the materials used to create the artistic masterpieces of Egypt.
