Raymond Calcraft, Elizabeth Matthews

La música medieval en España María del Carmen Gómez Muntané, 2001

The Rosary Cantoral Lorenzo F. Candelaria, 2008 *The Rosary Cantoral: Ritual and Social Design in a Chantbook from Early Renaissance Toledo* presents a model for realizing the fuller significance of illuminated music manuscripts as cultural artifacts, and offers unprecedented insights into the social and devotional life of Toledo, Spain, around the turn of the sixteenth century. After solving the mystery of the Rosary Cantoral's origins, subsequent essays probe the meaning and cultural significance of the manuscript's iconography (including a border decoration after Albrecht Durer), its rare Spanish chants for the Mass, and two striking musical works for multiple voices (one by Josquin Desprez and another on L'homme arme). Ultimately, this book focuses on the extraordinary circumstances that engendered the compilation of the Rosary Cantoral around 1500: a system of patronage between a brotherhood of suspected heretics and a religious house that was a key supporter of the Inquisition in Toledo.--BOOK JACKET.

Motets from the Chansonier de Noailles Gaël Saint-Cricq, Eglal Doss-Quinby, Samuel N. Rosenberg, 2017-01-01 *The collection of motets in manuscript Paris, Bibliothèque nationale de France, fonds fr. 12615, known as the "Chansonier de Noailles,"* brings together ninety-one thirteenth-century motets in two to four parts, whose upper voices are all sung to vernacular texts. It is one of six diverse collections contained in the manuscript; it shares space with three different compilations of monophonic songs, a collection of songs and dits, various nonlyric texts, and several later additions, all gathered in a codex closely tied to the former northern province of Artois and in particular to the city of Arras. The motet collection is notable in several respects: with its ninety-one pieces it is the fourth-largest repository of thirteenth-century motets and the third-largest of motets in French; it is one of only two sizable sets of polyphonic motets preserved in provincial songbooks rather than Parisian collections, a fact that broadly affects the style of several groups of its motets; finally, it transmits an unusually high number of unica, due to the anthology's inclusion in an Artesian chansonier. Although the Chansonier de Noailles has sparked the interest of bibliophiles and scholars since the first half of the eighteenth century, its faulty polyphonic notation has made editing the motets difficult; past editions have thus been incomplete and relied heavily upon concordant readings. This volume presents the music and texts (with translations into English) of the motets from the Chansonier de Noailles, for the first time published in a single, coordinated, comprehensive critical edition.

Female-Voice Song and Women's Musical Agency in the Middle Ages ,2022-08-22 This collection presents fresh evidence and new perspectives on the diverse ways in which women created and interacted with cultures of song between c. 600 and c. 1500.

Forms and imaginings Peter Dronke,2007

The Resilient Apocalypse Julia A. Kushigian,2024-05-01 Portraits of good battling evil in the geography of hell come in many forms in the Hispanic World. Apocalyptic nightmares, frightful images of chaos and death are inclusive and interrelated, yet simultaneously project an exceptional quality (never seen or experienced before, the mother of all battles, I am the only one who can fix it). This investigation explores how narrative logic may challenge unified notions of finalities when images remain unfulfilled in a proscribed End. By redeploying transglobal character and narrative potential, the Apocalypse suggests bewildering complexities as it trains its lens on New Beginnings. Here analysis explores resilient formulas for combating the End through resistance in Latin America, Spain and Latin@ communities in the US. Whether revealed through gilded illustrations, messianic chronicles, poetry, Baroque letters, racially-motivated novels, sexuality and spirituality in film or intimidating immigrant photos, apocalyptic examples explode notions of final moments. The Resilient Apocalypse ironically performs as both an internal defense (a vehicle for mourning) and a counter-discourse to power (a mechanism for resistance). This study argues for a strategy that listens to and keeps the enemy in sight and in mind, a method for grappling with and engaging difference by decolonizing the politics of the End. It reformulates an incomplete, mythical, and uncanny narrative into a poetics of resistance with communal solutions and obligations. When the Apocalypse is unremittingly sought after to impose social justice, salvation and reason, it paradoxically introduces future hope against itself. In the works of Beato de Liebana, Sor Juana Ines de la Cruz, Cirilo Villaverde, Cristina Garcia, Martin Kohan, Jennifer Maytorena Taylor, Santiago Roncagliolo, Alfonso Cuaron, etc., rival traditions internalize competing apocalyptic worldviews and arrive at sustainable plans of action for negotiating the afterward. By bracketing the finality of the End and proposing a tension between conflict archaeology and the transcendence of opposition through renovation, salvation or hope, this study reveals how plural, competing viewpoints of the End go a long way to legitimizing each other. Ultimately, The Resilient Apocalypse traces a compelling narrative theory of unfulfilled promise that forever changes the way we engage the other and value the self during intervals of fear.

The High Middle Ages Kari Elisabeth Børresen,Adriana Valerio,2015-11-20 An international collection of ecumenical, gender-sensitive interpretations The latest volume in the Bible and Women series examines the relationship between women and the Bible's reception in the centuries of the High and Late Middle Ages in Europe. Contributors bring a variety of new insights to questions of how women of the Bible were treated in literary, mystical, and doctrinal texts as well as in art and music. Though the Bible was used to legitimize the subordination of women to men and to exclude them from power, during

this period women produced works of theology and biblical interpretation. Contributors include Gemma Avenozza, Marina Benedetti, Dinora Corsi, Maria Laura Giordano, Elisabeth Gössmann, Maria Leticia Sánchez Hernández, Hildegund Keul, Linda Maria Koldau, Martina Kreidler-Kos, Rita Librandi, Gary Macy, Constant J. Mews, Magda Motté, Rosa María Parrinello, María Isabel Toro Pascua, Claudia Poggi, Carmel Posa, Marina Santini, Valeria Ferrari Schiefer, Andrea Taschl-Erber, Adriana Valerio, and Paola Vitolo. Features Essays on the treatment of women in commentaries and didactic moral literature written by men Close study of women as scholars and interpreters of the Bible from the twelfth through the fifteen centuries Twenty-one essays from twenty-three scholars from around the world

The Later Cambridge Songs John E. Stevens, John Stevens, 2005 This is an edition of Cambridge, University Library, MS Ff. I 17(1), a manuscript of 35 non-liturgical songs in Latin of English provenance dating from the 12th century. Apart from an edition in German and an edition published in Ottawa in 1989, the manuscript has not been widely studied. In this edition the late Professor Stevens challenges the assumption that everything of real cultural interest was happening on the continent, to be only palely imitated in insular Britain. A facsimile of the original manuscript is also included.

A Musical Offering Martin Bernstein, 1977 In the great tradition of the German *Festschrift*, this book brings together articles by Professor Bernstein's colleagues, friends and students to honor him on his 70th birthday. Ranging in subject from the trouv e song through esoteric aspects of Renaissance studies and authenticity in 18th-century musical sources to a lively and irreverent attack on performance practices today, the twenty essays by many of America's most distinguished scholars reflect the breadth and variety of Martin Bernstein's far-reaching interests and demonstrates the vitality and relevance of

what is best in musicology today.

The Use of Models in Medieval Book Painting Monika E. Müller, 2014-06-02 Until recently, the phenomenon of copying in medieval book painting has been considered mainly in terms of the reconstruction of pictorial sources used for the composition or iconography of miniatures, initials, or decorative elements. Although historic sources only rarely mention the circumstances of manuscripts' production, one particular widely-accepted hypothesis has prevailed until now, according to which artists used model drawings or sketch books with the aim of facilitating the production of copies and the creation of new picture cycles. However, it is no longer sufficient to regard medieval book painting in its diachronic dimension only through these lenses. Rather, one should consider Robert W. Scheller's critique that "When using the model hypothesis one must always be mindful of other factors which are known to have played a part in the transmission of art in the Middle Ages". The contributions of this volume deal with these issues by focusing on book painting between the 10th and 16th centuries.

Joaquín Rodrigo Raymond Calcraft, Elizabeth Matthews, 2021-11-30 Joaquín Rodrigo, Spain's leading composer of the second half of the twentieth century, was also a writer of considerable distinction. In addition to his 170 compositions in almost every musical form, including the world-famous *Concierto de Aranjuez* for guitar and orchestra, he published articles and critical reviews throughout his working life. This volume makes available Rodrigo's writings to English-speaking readers throughout the world. The generous selection reveals an outstanding critical mind, equally illuminating on the main developments in the history of classical music and its most important composers, from Bach and Mozart to Verdi and Puccini, as well as Rodrigo's contemporaries. Rodrigo's writings also cover many aspects of the culture and music of Spain and the country's major composers, as well as being an invaluable guide to an understanding and appreciation of Rodrigo's own works. The composer's style of writing is extremely varied, by turns incisive, eloquent, poetic, or delightfully humorous. Given the worldwide fame and popularity of his music, the availability in English of a large number of the composer's many articles and critical reviews will be of the greatest interest to musicians, scholars, music critics, and music-lovers alike.

The Divine Office in the Latin Middle Ages Margot Elsbeth Fassler, Rebecca Anne Baltzer, 2000 The Divine Office, or the cycle of daily worship services other than the Mass, constitutes a body of liturgical texts and music for medieval studies. This is a collection of spiritual works that is central to the culture of the Middle Ages.

Revisiting the Codex Buranus Tristan E. Franklins, Henry Hope, 2020 Enables the less well-known aspects of the Codex Buranus to receive greater scrutiny, and bring new perspectives to bear on the more thoroughly explored parts of the manuscript. Making accessible existing discourse and encouraging fresh debates on the codex, the essays advocate fresh

modes of engagement with its contents, contexts, and composition.
