Paulo Freire

Pedagogy of Hope Paulo Freire, 2021-05-20 With the publication of *Pedagogy of the Oppressed*, Paulo Freire established himself as one of the most important and radical educational thinkers of his time. In *Pedagogy of Hope*, Freire revisits the themes of his masterpiece, the real world contexts that inspired them and their impact in that very world. Freire's abiding concern for social justice and education in the developing world remains as timely and as inspiring as ever, and is shaped by both his rigorous intellect and his boundless compassion. *Pedagogy of Hope* is a testimonial to the inner vitality of generations denied prosperity and to the often-silent, generous strength of millions throughout the world who refuse to let hope be extinguished. This edition includes a substantial new introduction by Henry A. Giroux, University Chair for Scholarship in the Public Interest and the Paulo Freire Distinguished Scholar in Critical Pedagogy at McMaster University, Canada. Translated by Robert R. Barr.

The Story of Lynx Claude Lévi-Strauss, 1996-12 In olden days, in a village peopled by animal creatures, lived Wild Cat (another name for Lynx). He was old and mangy, and he was constantly scratching himself with his cane. From time to time, a young girl who lived in the same cabin would grab the cane, also to scratch herself. In vain Wild Cat kept trying to talk her out of it. One day the young lady found herself pregnant; she gave birth to a boy. Coyote, another inhabitant of the village, became indignant. He talked all of the population into going to live elsewhere and abandoning the old Wild Cat, his wife, and their child to their fate . . . So begins the Nez Percé myth that lies at the heart of *The Story of Lynx*, Claude Lévi-Strauss's most accessible examination of the rich mythology of American Indians. In this wide-ranging work, the master of structural anthropology considers the many variations in a story that occurs in both North and South America, but especially among the Salish-speaking peoples of the Northwest Coast. He also shows how centuries of contact with Europeans have altered the tales. Lévi-Strauss focuses on the opposition between Wild Cat and Coyote to explore the meaning and uses of gemellarity, or twinning, in Native American culture. The concept of dual organization that these tales exemplify is one of non-equivalence: everything has an opposite or other, with which it coexists in unstable tension. In contrast, Lévi-Strauss argues, European notions of twinning—as in the myth of Castor and Pollux—stress the essential sameness of the twins. This fundamental cultural difference lay behind the fatal clash of European and Native American peoples. *The Story of Lynx* addresses and clarifies all the major issues that have occupied Lévi-Strauss for decades, and is the only one of his books in which he

explicitly connects history and structuralism. The result is a work that will appeal to those interested in American Indian mythology.

Hans Staden's True History Hans Staden, 2008-07-16 In 1550 the German adventurer Hans Staden was serving as a gunner in a Portuguese fort on the Brazilian coast. While out hunting, he was captured by the Tupinambá, an indigenous people who had a reputation for engaging in ritual cannibalism and who, as allies of the French, were hostile to the Portuguese. Staden's True History, first published in Germany in 1557, tells the story of his nine months among the Tupi Indians. It is a dramatic first-person account of his capture, captivity, and eventual escape. Staden's narrative is a foundational text in the history and European "discovery" of Brazil, the earliest European account of the Tupi Indians, and a touchstone in the debates on cannibalism. Yet the last English-language edition of Staden's True History was published in 1929. This new critical edition features a new translation from the sixteenth-century German along with annotations and an extensive introduction. It restores to the text the fifty-six woodcut illustrations of Staden's adventures and final escape that appeared in the original 1557 edition. In the introduction, Neil L. Whitehead discusses the circumstances surrounding the production of Staden's narrative and its ethnological significance, paying particular attention to contemporary debates about cannibalism. Whitehead illuminates the value of Staden's True History as an eyewitness account of Tupi society on the eve before its collapse, of ritual war and sacrifice among Native peoples, and of colonial rivalries in the region of Rio de Janeiro. He chronicles the history of the various editions of Staden's narrative and their reception from 1557 until the present. Staden's work continues to engage a wide range of readers, not least within Brazil, where it has recently been the subject of two films and a graphic novel.

A biopolítica e o paradoxo dos Direitos Humanos no sistema penal custodial brasileiro Sarah Caroline, 2021-08-23 O objetivo desta obra é analisar o modo pelo qual a biopolítica age sobre o corpo das pessoas, de maneira a modalizar as relações que o Direito mantém com os sujeitos sob a tutela de um determinado ordenamento jurídico, num específico território, com o propósito de evidenciar a polissemia do conceito atual de Direitos Humanos. Tais direitos não protegem o indivíduo não inserido em determinado ordenamento jurídico, o que ressalta a sua paradoxalidade hodierna - em especial nos casos em que o sistema penal se encarrega de promover segurança por intermédio da aplicação de sanção penal, tanto sob a forma da pena como das medidas de segurança. Um conceito que serviu de guia para as análises foi o de biopolítica, de acordo com o qual o Direito em geral e os Direitos Humanos são refletidos à luz dos conceitos de biopolítica e de biopoder, tendo base teórica principal a obra de Michel Foucault. O livro demonstra a junção entre biopolítica, biopoder e Direito nas vigentes instituições de sequestro, arrimadas no sistema penal, tais como as prisões, os Hospitais de Custódia e Tratamento Psiquiátrico, analisando-as de acordo com o atual paradigma biopolítico, de acordo com o qual o exercício do poder, tanto sob

a forma da lei como da norma tem o sentido de encarregar-se da gestão política da vida. Tecnologias de poder assumem a forma do domínio sobre os corpos individuais (disciplinas), assim como sobre o corpo genérico da população (regulamentações previdenciárias).

Shaping Entrepreneurship Research Saras D. Sarasvathy,Nicholas Dew,Sankaran Venkataraman,2020 Shaping Entrepreneurship Research: Made, as Well as Found is a collection of readings designed to support entrepreneurship research. Focused on a worldview in which the future is open-ended and shapeable through human action - i.e. made, this collection reframes entrepreneurship as a science of the artificial rather than as a natural or social science. It posits an open-ended universe for the making of human artifacts even if large swathes of nature and society are not within the control of the people making them. The book explores the notion of made through 25 foundational readings - classics from the history of ideas. Organized into five sections, each classic is individually introduced by the editors in one of five chapters written to explain its relevance and significance for a made view of entrepreneurship. Readers will benefit from exposure to these classic ideas and ongoing research in a variety of areas that fall somewhat outside the line-of-sight of traditional entrepreneurship research. Both individually and collectively, the readings suggest opportunities to ask new questions and develop new ways of framing entrepreneurship research that carry the discussion beyond worlds found to worlds made as well as found. The book is crafted to be valuable to three groups of scholars: young scholars with limited or no access to research infrastructure but with a desire to participate in deep conversations; young scholars with access to research infrastructure who also desire to listen-in on a different kind of conversation; and established entrepreneurship scholars who are contemplating an alternative set of foundational ideas to support their conversations in the discipline.

A Guerra: a ascensão do PCC e o mundo do crime no Brasil Bruno Paes Manso,Camila Nunes Dias,2018-08-06 Uma reportagem de alta temperatura, que comprova a falência da segurança pública no Brasil. Os autores entrevistaram diversos integrantes do PCC e revelam as entranhas das organizações criminosas. Este livro é uma reportagem capaz de fixar a fisionomia do crime no Brasil. Os autores obtiveram relatos inéditos de integrantes das facções e contam essa história sob um ângulo inédito e revelador. Geridas de dentro dos presídios, as facções criminosas se profissionalizaram. Quem assumiu a dianteira desse processo foi o PCC, responsável por um grau inédito de organização nos presídios brasileiros. Criada em 1993, meses após o Massacre do Carandiru, quando 111 presos foram mortos pela polícia, a facção passou a ditar as regras do crime nos presídios de São Paulo, impôs sua influência sobre outros estados e agora se internacionaliza a uma velocidade vertiginosa. Nunca essa realidade foi retratada com tintas tão fortes.

Dialogical Multiplication Danilo Silva Guimarães, 2019-11-27 This book presents a theoretical framework developed to support psychologists working with indigenous people and interethnic communities. Departing from the cultural shock experienced as a psychologist working with indigenous people in Brazil, Dr. Danilo Silva Guimarães identifies the limits of traditional psychological knowledge to deal with populations who don't share the same ethos of the European societies who gave birth to psychology as a modern science and proposes a new approach to go beyond the epistemological project that aimed to construct a subject able to represent the world free from any cultural mediation. According to the author, the purpose of cultural psychology is to produce general psychological theories about the cultural mediation of the self, others and world relationships. Based on this assumption, he argues that to achieve this aim, cultural psychology needs to understand how indigenous perspectives participate in the process of knowledge construction, transforming psychological conceptions and practices. In this volume, the author presents his own contribution to open cultural psychology to indigenous perspectives by discussing the theoretical and practical implications of the notion of dialogical multiplication for the construction of work in co-authorship in the relation between psychology and indigenous peoples. With the growing migrations around the world, competences in psychological communication across cultures are more demanded each day, which makes Dialogical Multiplication - Principles for an Indigenous Psychology a critical resource for psychologists working with interethnic and intercultural communities around the world.

The Routledge Atlas of the First World War Martin Gilbert, 2002 From its origins to its terrible legacy, the tortuous and bloody course of the Great War is vividly set out in a series of 164 fascinating maps. From its origins to its terrible legacy, the tortuous and bloody course of the Great War is vividly set out in a series of 164 fascinating maps. Together the maps form a comprehensive and compelling picture of the war that shattered Europe, and illustrate its military, social, political and economic aspects. Beginning with the tensions that already existed, the atlas covers: * the early months of the war: from the fall of Belgium to the fierce fighting at Ypres and Tannenberg * the developing war in Europe: from Gallipoli to the horrors of the Somme and Verdun * life at the front: from living underground, the trench system and the mud of Passchendaele to the war graves * war in the air and at sea: from the Zeppelin raids to the battles in the North Sea, shipping losses and the Atlantic convoys * technology and the new horrors: from phosgene gas attacks to submarines, tanks and mines * the home fronts: from

German food riots to the air defence of Britain, the Russian Revolution and the collapse of Austria-Hungary* the Aftermath: from war debts and war deaths to the new map of Europe.

A Tropical Belle Epoque Jeffrey D. Needell, 1987 This book, originally published in 1987, is a socio-cultural analysis of a tropical belle époque: Rio de Janeiro between 1898 and 1914. It relates how the city's elite evolved from the semi-rural, slave-owning patriarchy of the coffee-port seat of a monarchy into an urbane, professional, rentier upper crust dominating the centre of a 'modernising' oligarchical republic. It explores such varied topics as architecture, literature, prostitution, urban reform, the family, secondary schools, and the salon. It evokes a milieu increasingly marked by Europe, demonstrating how French and English culture permeated the lives of elite members who adapted it to their needs and perspectives as a dominant stratum of relatively recent and varied origin. This exploration of cultural 'dependency' in a unique, cosmopolitan, fin-de-siècle urban culture will also interest those concerned with the broader questions of culture and colonialism during the high tide of European imperialism.

The Viceroy of Ouidah Bruce Chatwin, 1988-06-07 Bruce Chatwin's debut novel: "Conrad's Heart of Darkness seen through a microscope" (The Atlantic) In this vivid, powerful novel, Chatwin tells of Francisco Manoel de Silva, a poor Brazilian adventurer who sails to Dahomey in West Africa to trade for slaves and amass his fortune. His plans exceed his dreams, and soon he is the Viceroy of Ouidah, master of all slave trading in Dahomey. But the ghastly business of slave trading and the open savagery of life in Dahomey slowly consume Manoel's wealth and sanity.

Ethnographies of 'On Demand' Films Alex Vailati, Gabriela Zamorano Villarreal, 2021-09-30 Over the last two decades, the advent of cheap, user-friendly video technologies has contributed to a revolution in representational agency. Videos are now made by production units that are at times composed of families, churches, musical groups, community associations or other institutions. Thus, on-demand videos produced and distributed within local and atypical networks profoundly shape contemporary urban imaginaries. This book explores the intertwined relations among infrastructure, technology, and modernity through an ordinary, yet little studied field of on-demand audiovisual production, which involves processes of negotiation and interaction between clients and commissioned video makers. On-demand films are considered as a space of collaboration and self-representation, that allows to reflect on the potential of fiction, artifice, and montage to render material desires, aspirations, and ideas of the future.

The Cuban Revolution Luis Fernando Ayerbe, 2018-01-27 For more than fifty years, the revolutionary experience in Cuba was the stage for such remarkable personalities as Che Guevara and for dramatic events like the missile crisis. All these 20th century historic icons are interwoven with the deep internal restructuring of the Cuban economy and society, and the related challenge to the United States' prior unopposed hegemony over Latin America. The complexities of these

elements should not be dismissed, for, in them selves, they are an explanation for the passions and interpretative battles that are evoked still today by this Caribbean revolution.

First-Time Richard Price,2002-09-15 A classic of historical anthropology, *First-Time* traces the shape of historical thought among peoples who had previously been denied any history at all. The top half of each page presents a direct transcript of oral histories told by living Saramakas about their eighteenth-century ancestors, Maroons who had escaped slavery and settled in the rain forests of Suriname. Below these transcripts, Richard Price provides commentaries placing the Saramaka accounts into broader social, intellectual, and historical contexts. *First-Time's* unique style of presentation preserves the integrity of both its oral and documentary sources, uniting them in a profound meditation on the roles of history and memory. This second edition includes a new preface by the author, discussing *First-Time's* impact and recounting the continuing struggles of the Saramaka people.
