**Golden Age of the Moor** Ivan Van Sertima, 1992 This work examines the debt owed by Europe to the Moors for the Renaissance and the significant role played by the African in the Muslim invasions of the Iberian peninsula. While it focuses mainly on Spain and Portugal, it also examines the races and roots of the original North African before the later ethnic mix of the blackmoors and tawny Moors in the medieval period. The study ranges from the Moor in the literature of Cervantes and Shakespeare to his profound influence upon Europe's university system and the diffusion via this system of the ancient and medieval sciences. The Moors are shown to affect not only European mathematics and map-making, agriculture and architecture, but their markets, their music and their machines. The ethnicity of the Moor is re-examined, as is his unique contribution, both as creator and conduit, to the first seminal phase of the industrial revolution.

*African Presence in Early Europe* Ivan Van Sertima, 1985 This book places into perspective the role of the African in world civilization, in particular his little known contributions to the advancement of Europe. A major essay on the evolution of the Caucasoid discusses recent scientific discoveries of the African fatherhood of man and the shift towards albinism (dropping of pigmentation) by the Grimaldi African during an ice age (the Wurm Interstadial) in Europe. The debt owed to African and Arab Moors for certain inventions usually credited to the Renaissance is discussed, as well as the much earlier Afro-Egyptian influence on Greek science and philosophy. The book is divided into six parts: The First Europeans: African Presence in the Ancient Mediterranean Isles and Mainland Greece; Africans in the European Religious Hierarchy (madonnas, saints and popes); African Presence in Western Europe; African Presence in Northern Europe; African Presence in Eastern Europe.

**Black Women in Antiquity** Ivan Van Sertima, 1984 This unique volume provides an overview of the black queens, madonnas, and goddesses who dominated the history and imagination of ancient times. The authors have concentrated on Ethiopia and Egypt because the documents of the Nile Valley are voluminous compared to the sketchier records in other parts of Africa, but also because the imagination of the world, not just that of Africa, was haunted by these women. They are just as prominent a feature of European mythology as of African reality. The book is divided into three parts: Ethiopia and

Egyptian Queens and Goddesses; Black Women in Ancient Art; and Conquerors and Courtesans. This second edition contains two new chapters, one on Hypatia and women's rights in ancient Egypt, and the other on the diffusion into Europe of Isis, the African goddess of Nile Valley civilizations.

Blacks in Science Ivan Van Sertima,1983 Providing an overview of the lost sciences of Africa and of contributions that blacks have made to modern American science, Blacks in Science presents a range of new information from Africanists. The book also includes bibliographical guides that are crucial to further research and teaching. The lineaments of a lost science are now emerging and we can glimpse some of the once buried reefs of this remarkable civilization. A lot more remains to be revealed. But enough has been found in the past few years to make it quite clear that the finest heart of the African world receded into the shadow while its broken bones were put on spectacular display. The image of the African, therefore, has been built up so far upon his lowest common denominator. In the new vision of the ancestor, we need to turn our eyes away from the periphery of the primitive to the more dynamic source of genius in the heartland of the African world. -- Ivan Van Sertima

**EGYPT REVISITED.** Ivan Van Sertima,1989

*Early America Revisited* Ivan Van Sertima,1998 Early America Revisited is a vigorous defense and amplification of Ivan Van Sertima's classic work, *They Came Before Columbus*. The book makes a carefully balanced case for an African presence in America before Columbus' voyages. At the same time, the work in no way denies the importance of the Columbus voyages for opening up the New World to Europe, and hence changing the economic and political map of the world for all time. Van Sertima's critical cutting edge is that there is an anthropological and ethnographic dimension to the process of discovery, one in which black Africans of non-European origins played a central role. He marshals literary and pictorial evidence and shows its authenticity to be beyond question. The impact of these early discoveries is of far more than historical interest. They serve as a basis to examine anew the study of culture contacts between civilizations, and in so doing, offer a serious base to a

multifaceted re-examination of earlier hypotheses of influences in both directions. *Early America Revisited* provides anthropological evidence about the physical presence of Africans in pre-Columbian America. It is also the study of how two peoples and cultures can lead to cross-fertilization. The borrowing of artifacts and ideas does not mean that the outsider is superior to the native, or that indigenous cultures are insignificant. Van Sertima contends that such relationships can be unpleasant as well as pleasant, conflictual as well as consensual. But, whatever the character of the interaction, its very existence merits awareness. This book is likely to engender disputes and disagreements. But there is no question that it will enrich the study of a wide range of subjects, from archaeology to anthropology, and result in profound changes in the reordering of historical priorities and pedagogy. It should be of wide interest to social scientists, historians, and all those for whom the question of race and culture is a central facet of their own work and lives. Jacqueline L. Patten Van Sertima, who is responsible for the photographic materials in this volume, has had her work exhibited at the Museum of the City of New York, the National Urban League, Columbia University, and many galleries across the country. Her publications include *The Black Photographers Annual* and *Black Photographers*.

**What They Never Told You in History Class** Indus Khamit Kush, 1999 This new, two-volume edition of *What They Never Told You In History Class* is the first major revision in over fifteen years. It contains a wealth of new information that has never been included in any previous edition. It has now been divided into two volumes.

*The House of Wisdom* Jim Al-Khalili, 2011-03-31 A myth-shattering view of the Islamic world's myriad scientific innovations and the role they played in sparking the European Renaissance. Many of the innovations that we think of as hallmarks of Western science had their roots in the Arab world of the middle ages, a period when much of Western Christendom lay in intellectual darkness. Jim al-Khalili, a leading British-Iraqi physicist, resurrects this lost chapter of history, and given current East-West tensions, his book could not be timelier. With transporting detail, al-Khalili places readers in the hothouses of the Arabic Enlightenment, shows how they led to Europe's cultural awakening, and poses the question: Why did the Islamic world enter its own dark age after such a dazzling flowering?

**History of Britain and Ireland** DK, 2024-06-06 Discover the pivotal political, military, and cultural events that have shaped British and Irish history - from the earliest Stone Age settlers to the passing of Queen Elizabeth II. This edition includes over 700 photographs, maps, and artworks with accessible text. *History of Britain and Ireland* is a resource for families, students, and anyone seeking to learn more about the fascinating story of the UK and Ireland. In this book, you will find: Contemporary portraits and photographs, alongside important artefacts, maps, and documents that bring all of the defining episodes of British and Irish history to life Pages including information about the Celtic Tiger, Brexit, Covid, as well as the lives of Queen Elizabeth II and Prince Philip Chapters outlining the Stone Age, Medieval Britain, Tudors, and people and events that have shaped the history of Britain and Ireland. Spanning six distinct periods of British and Irish history, this

book is the best way to discover how Britain was transformed under Norman rule, fought two world wars in the 20th century, and faced new economic challenges in the 21st century. Fully revised and updated, this guide places key figures - from Alfred the Great to Winston Churchill - and major events - from the Roman invasion to the Battle of Britain - in their wider context, making it easier to learn how they influenced Britain and Ireland's development through the age of empire and into the modern era.

**The Transformation of Black Music** Samuel A. Floyd (Jr.),Melanie Zeck,Guthrie P. Ramsey,2017 The Transformation of Black Music includes a full spectrum of black musics from four continents as it argues for a re-codification of black musics and performers. Framed by a call and response argument, the authors present not only a more holistic and historically accurate understanding of musics in the African Diaspora, but also an intellectually robust future for the field of black music research.

*100 Amazing Facts About the Negro with Complete Proof* J. A. Rogers,2012-07-25 White supremacy-busting facts that ran in the black publication the Pittsburgh Courier, written by the renowned African American author and journalist. First published in 1934 and revised in 1962, this book gathers journalist and historian Joel Augustus Rogers' columns from the syndicated newspaper feature titled Your History. Patterned after the look of Ripley's popular Believe It or Not the multiple vignettes in each episode recount short items from Rogers's research. The feature began in the Pittsburgh Courier in November 1934 and ran through the 1960s. "I have been intrigued by this book, and by its author, since I first encountered it as a student in an undergraduate survey course in African-American history at Yale . . . Sometimes, [Rogers] was astonishingly accurate; at other times, he seems to have been tripping a bit, shall we say." —Henry Louis Gates, Jr., *The Root* "Rogers made great contribution to publishing and distributing little know African history facts through books and pamphlets such as *100 Amazing Facts About the Negro with Complete Proof* and *The Five Negro Presidents* . . . The common thread in Roger's research was his unending aim to counter white supremacist propaganda that prevailed in segregated communities across the United States against people of African descent." —Black History Heroes

*Nature Knows No Color-Line* J. A. Rogers,2012-01-01 The classic refutation of scientific racism from the renowned African American journalist and author of *Africa's Gift to America*. In *Nature Knows No Color-Line*, originally published in 1952, historian Joel Augustus Rogers examines the origins of racial hierarchy and the color problem. Rogers was a humanist who believed that there were no scientifically evident racial divisions—all humans belong to one "race." He believed that

color prejudice generally evolved from issues of domination and power between two physiologically different groups. According to Rogers, color prejudice was then used a rationale for domination, subjugation and warfare. Societies developed myths and prejudices in order to pursue their own interests at the expense of other groups. This book argues that many instances of the contributions of black people had been left out of the history books, and gives many examples. “Most contemporary college students have never heard of J.A Rogers nor are they aware of his long journalistic career and pioneering archival research. Rogers committed his life to fighting against racism and he had a major influence on black print culture through his attempts to improve race relations in the United States and challenge white supremacist tracts aimed at disparaging the history and contributions of people of African descent to world civilizations.” —Thabiti Asukile, “Black International Journalism, Archival Research and Black Print Culture,” *The Journal of African American History African Star Over Asia* Runoko Rashidi,2012-11-30
