A Tale of the Dispossessed Laura Restrepo,2013-08-06 How can I tell him that he will never find her, after he has been searching for her all his life? If I could talk to him without breaking his heart, there is something I would tell him, in hopes it would stop his sleepless nights and wrongheaded search for a shadow. I would repeat this to him: 'Your Matilde Lina is in limbo, the dwelling place of those who are neither dead nor alive.' But that would be like severing the roots of the tree that supports him. Besides, why do it if he is not going to believe me. In the midst of war, the protagonists of A Tale of the Dispossessed are continuously searching: for a promised land, a destiny, the face of a woman who has disappeared—searching for an impossible love and, conversely, for a love that is possible. A way station for refugees from violence is the setting for an intense love triangle in which an uprooted and wandering people lead the reader to experience the collective drama of forced relocation. A Tale of the Dispossessed speaks to us about the inexorable law that has led man, expelled from paradise since the days of Adam through to modern times, in his search for a way back home.

Caliban and the Witch Silvia Federici,2021-07-29 'A groundbreaking work . . . Federici has become a crucial figure for . . . a new generation of feminists' Rachel Kushner, author of The Mars Room A cult classic since its publication in the early years of this century, Caliban and the Witch is Silvia Federici's history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages through the European witch-hunts, the rise of scientific rationalism and the colonisation of the Americas, it gives a panoramic account of the often horrific violence with which the unruly human material of pre-capitalist societies was transformed into a set of predictable and controllable mechanisms. It is a study of indigenous traditions crushed, of the enclosure of women's reproductive powers within the nuclear family, and of how our modern world was forged in blood. 'Rewarding . . . allows us to better understand the intimate relationship between modern patriarchy, the rise of the nation state and the transition from feudalism to capitalism' Guardian

Foucault's Pendulum Umberto Eco,2014-08-29 Three book editors, jaded by reading far too many crackpot manuscripts on the mystic and the occult, are inspired by an extraordinary conspiracy story told to them by a strange colonel to have some fun. They start feeding random bits of information into a powerful computer capable of inventing connections between the entries, thinking they are creating nothing more than an amusing game, but then their game starts to take over, the deaths start mounting, and they are forced into a frantic search for the truth

The Book of Salsa César Miguel Rondón,2008 Rondón tells the engaging story of salsa's roots in Puerto Rico, Cuba, Colombia, the Dominican Republic, and Venezuela, and of its emergence and development in the 1960s as a distinct musical movement in New York. Rondón presents salsa as a truly pan-Caribbean phenomenon, emerging in the migrations and interactions, the celebrations and conflicts that marked the region. Although salsa is rooted in urban culture, Rondón explains, it is also a commercial product produced and shaped by professional musicians, record producers, and the music industry. --from publisher description.

Black Skin, White Masks Frantz Fanon,2017 Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace.Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation.With an introduction by Paul Gilroy, author of There Ain't No Black in the Union Jack.

Why Nations Fail Daron Acemoglu,James A. Robinson,2012-03-20 NEW YORK TIMES AND WALL STREET JOURNAL BESTSELLER • From two winners of the 2024 Nobel Prize in Economic Sciences, “who have demonstrated the importance of

societal institutions for a country's prosperity" "A wildly ambitious work that hopscotches through history and around the world to answer the very big question of why some countries get rich and others don't."—The New York Times FINALIST: Financial Times and Goldman Sachs Business Book of the Year Award • ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, Financial Times, The Economist, BusinessWeek, Bloomberg, The Christian Science Monitor, The Plain Dealer Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, or geography that determines prosperity or poverty? As *Why Nations Fail* shows, none of these factors is either definitive or destiny. Drawing on fifteen years of original research, Daron Acemoglu and James Robinson conclusively show that it is our man-made political and economic institutions that underlie economic success (or the lack of it). Korea, to take just one example, is a remarkably homogenous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The differences between the Koreas is due to the politics that created those two different institutional trajectories. Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, the Soviet Union, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, among them: • Will China's economy continue to grow at such a high speed and ultimately overwhelm the West? • Are America's best days behind it? Are we creating a vicious cycle that enriches and empowers a small minority? "This book will change the way people think about the wealth and poverty of nations . . . as ambitious as Jared Diamond's *Guns, Germs, and Steel*."—BusinessWeek

Developing Poverty Jose Itzigsohn, 2010-11-01 Using data from local surveys, interviews, and rational statistics, this is a comparative study of two Central American cities similarly positioned in the world economy. It explores how development and state policies have affected the lives of people working in the informal economy.

Revolution in History Roy Porter, Mikuláš Teich, 1986-10-09 Fifteen contributors examine the interpretative value of ideas of revolution for explaining historical development within their own speciality. They assess the existing historiography and offer their personal views.

Fanon City Meu Jaime Luis Huenún, 2017 Poetry. Latino/Latina Studies. Political poetry takes on a new definition in Jaime Huenún's FANON CITY MEU, where the voices of the colonized and their colonizers form a dissonant choir bearing testimony to the centuries of violence that have shaped Latin America. Inspired by Martinican intellectual Frantz Fanon, the book examines issues of race, colonialism, and revolution through a poetic discourse that only seems to find solace in irony. In this volume, Huenún, a renowned Chilean-Mapuche poet, draws parallels between the alienation of South American indigenous peoples and the experiences Fanon documented in the Caribbean and Algeria, breaching national and linguistic barriers that often work to isolate the wretched of the earth. FANON CITY MEU is Huenún's second full-length collection of poetry to be translated into English, following PORT TRAKL in 2008. Both books form part of an ongoing project to engage with the work of prominent international poets and intellectuals, such as George Trakl and Osip Mandelstam. Huenún questions the limits of so-called indigenous literature without abandoning issues relevant to the Mapuche struggle for self-determination, urging readers to reflect on the inseparable bond between language and politics.

Living to Tell the Tale Gabriel Garcia Marquez, 2014-03-06 In *Living to Tell the Tale* Gabriel Garcia Marquez - winner of the 1982 Nobel Prize for Literature and author of *One Hundred Years of Solitude* - recounts his personal experience of returning to the house in which he grew up and the memories that this visit conjured. 'My mother asked me to go with her to sell the house' Gabriel Garcia Marquez was twenty-three, a young man experimenting with his writing when this mother asked him to come back with her to the village of his grandparents and the memories of his Colombian childhood. In the first part of Gabriel Garcia Marquez's memoir, the Nobel Prize-winning author returns to the atmosphere and influences that shaped his formidable imagination and formed the basis of his world-famous, and much-loved, fiction. 'A treasure trove, a discovery of a lost land we knew existed but couldn't find. A thrilling miracle of a book' *The Times* 'A marvellous journey. Never less than a miracle' *Sunday Times* 'Marquez writes in this lyrical, magical language that no one else can do' Salman Rushdie

Violentology Stephen Ferry, 2012 Based upon two decades of in-depth investigative reporting in Colombia's conflict zones, this explosive volume integrates text, photography, and design to communicate the horrors that paramilitary groups, such as the United Self-Defense Forces of Colombia (as well as the other sides of the conflict in response to the violence), inflicted and continue to inflict on Colombia. An instant classic of journalism and South American political history.

Blackness Without Ethnicity L. Sansone, 2003-08-01 *Blackness Without Ethnicity* draws on fifteen years of his research in Bahia, Rio Suriname, and Amsterdam. Sansone uses his findings to explore the very different ways that race and ethnicity are constructed in Brazil and the rest of Latin America. He compares these Latin American conceptions of race to dominant notions of race that are defined by a black-white polarity and clearly identifiable ethnicities, formulations he sees as highly influenced by the US and to a lesser degree Western Europe. Sansone argues that understanding more complex and

ambiguous notions of culture and identity will expand the international discourse on race and move it away from American dominated notions that are not adequate to describe racial difference in other countries (and also in the countries where the notions originated). He also explores the effects of globalization on constructions of race.

The Flawed Foundations of General Equilibrium Theory Frank Ackerman, Alejandro Nadal, Kevin P.

Gallagher, 2004-06-24 This book, as the title suggests, explains how General equilibrium, the dominant conceptual framework in mainstream economics, describes a perfectly impossible world. Even with its counterfactual assumptions taken for granted, it fails on many levels. Under the impressive editorship of Ackerman and Nadal, this book will appeal to students and resear

Femicide in Global Perspective Diana E. H. Russell, Roberta A. Harmes, 2001 Diana E. H. Russell, acclaimed author and researcher on sexual violence against girls and women, and co-editor Roberta Harmes have produced a groundbreaking volume on femicide, the killing of females by males because they are female. Dr. Russell has contributed seven provocative original chapters to *Femicide in Global Perspective*. This anthology includes chapters on woman-killing in Algeria, Australia, Canada, China, Israel, South Africa, other Southern African countries, the United States, and brief testimony from other nations. Together, the authors brilliantly demonstrate how naming femicide helps to expose and bring attention to this most extreme yet neglected form of violence against women, and the urgent need to put femicide on local, national and international action agendas.
