Isabel la Católica Alfredo Alvar Ezquerro,2002 En el año del Quinto Centenario de la muerte de Isabel la Católica, es más que oportuna esta nueva edición de la ya clásica biografía de la Reina Católica del eminente historiador Alfredo Alvar Ezquerro. Isabel de Trastámara, más conocida como Isabel la Católica, no estaba destinada a figurar con grandes letras en la Historia. No era la princesa heredera, la educación que recibió de niña estaba encaminada a hacer de ella una infanta más dócil, piadosa y moderadamente culta. Sin embargo, un auténtico asalto al poder, orquestado inicialmente por una parte de la nobleza, la convirtió en reina de Castilla y, por su matrimonio con Fernando, en soberana pactada de Aragón. La importancia de su reinado, punto de partida del estado moderno, es indiscutible. Aún hoy, la figura de Isabel I de Castilla es uno de los referentes obligados en la memoria histórica colectiva de los españoles. Alvar Ezquerro traza un vigoroso fresco de aquel reinado tan crucial como controvertido, al tiempo que responde a los numerosos interrogantes que aún persisten

acerca de la intimidad de la reina. ¿Cuál fue el proceso, personal y sociocultural, por el que aquella mujer, educada por un fraile tardomedieval dejó de ser un títere en manos de la nobleza para convertirse en una soberana ambiciosa e inflexible en materia política? ¿Cómo concilió, en su propia conciencia, fe religiosa y razón de Estado? ¿Cuál fue su reacción, como esposa, ante las infidelidades del Rey? ¿Qué sintió, como madre, ante la locura de su hija Juana o la prematura muerte del infante don Juan, el príncipe que murió de amor? Rigurosa y apasionante, la obra se completa con un comentario sobre el proceso de beatificación de la Reina Católica.

New Reflections on Grammaticalization Ilse Wischer, Gabriele Diewald,2002-04-12 The contributions in this volume cover a wide range of theoretical and methodological issues and raise a number of new questions that indicate the future direction of grammaticalization studies. The volume focuses on issues such as grammaticalization and lexicalization; the unidirectionality hypothesis; the issue of the relevance of contexts for grammaticalization; the description of grammaticalization paths. Much of the current work concentrates on such categories, as discourse markers, honorifics or classifiers, which have not previously been central to works on grammaticalization. Other studies take a new perspective on known grammaticalization paths by applying concepts adopted from other linguistic fields, such as prototype theory, morphocentricity, or by discussing their findings from a comparative or typological angle, presenting data from a large number of languages, often based on extensive empirical investigations of written and spoken text corpora.

Estudio sobre el Evangelio de Juan Oscar Daniel Duarte,2022-05-31 No he escatimado esfuerzos a la hora de preparar este estudio sobre el evangelio de Juan, y así ofrecer al lector interesado una obra exacta y actualizada, despoblada de dobles discursos o de doctrinas ajenas a lo que el mismo evangelio menciona, trate de que toda la información aquí presentada tenga el menor margen de error posible. Se corresponde a un estudio no solo de las palabras del evangelio (exégesis), sino además es un estudio, social, económico, político, religioso e histórico, del tiempo en que Jesús desarrollo su vida publica entre nosotros. La lectura he tratado de que sea amena, para que pueda llegar a todo el publico interesado en conocer más de este evangelio. Para el creyente sea fuente de su fe, para él no creyente guía de estudio.

Rites, Rituals & Religions Dr Debra D Andrist,2023-04-01 Philosophers have contemplated the meaning of life, the who & the why, since nascent self-consciousness of the evolving hominid species. Yet practical efforts, i.e., control of life, have always transcended the philosophical: how to dominate what happens to the physical body itself, how to control the environment, and the interaction therefrom. Thus are born rites, rituals & religions. A rite can be a prescribed religious or other solemn ceremony or act it can be a social custom or practice, or even a mundane conventional act. A ritual can be the established form for a ceremony, the order of words used for example; a ritual observance can be either a system of ceremonial acts or actions, or an act or series of acts regularly repeated in a set precise manner. Religion generally encompasses a socio-cultural system of designated behaviors and practices, morals, beliefs, worldviews, texts, sanctified places, prophecies, ethics, or organizations, that relates humanity to supernatural, transcendental, and spiritual elements. Religion is a set of beliefs, especially when considered as the creation of a superhuman agency or agencies, usually involving devotional and ritual observances (rites and rituals). Control efforts highlighted in this volume range from prehistoric cave paintings, Amerindian ceremonies, Christian denominational (especially Roman Catholic), traditions & Afro-Caribbean syncretic rites, to crossovers, which deal with the more socio-cultural rites of passage like the quinceanera, and/or dance rites & rituals like the Southern Cone tango, African candombe, Cuban habanera and European waltzes and polkas and the corrido, from the public ritual known as tauromaquia. The premise behind this comparative volume is to discover how rites, rituals & religions are addressed in real life in these divergent societies by exploring the visual and literary representations of control. Rites, Rituals and Religions is eighth and final volume in the Hispanic Worlds series

Missionary Linguistics/Lingüística misionera Otto Zwartjes,Even Hovdhaugen,2004-08-31 When the first European missionaries arrived on other continents, it was decided that the indigenous languages would be used as the means of christianization. There emerged the need to produce grammars and dictionaries of those languages. The study of this linguistic material has so far not received sufficient attention in the field of linguistic historiography. This volume is the first published collection of papers on missionary linguistics world-wide; it represents the insights of recent research, containing

an introduction and papers on methodology, meta-historiography, the historical and cultural background. The book contains studies about early-modern linguistic works written in Spanish, Portuguese, English and French, describing among others indigenous languages from North America and Australia, Maya, Quechua, Xhosa, Japanese, Kapampangan, and Visaya. Topics dealt with include: innovations of individual missionaries in lexicography, grammatical analysis, phonology, morphology, or syntax; creativity in descriptive techniques; differences and/or similarities of works from different continents, and different religious backgrounds (Catholic or Protestant).
