Neuroinfección en pediatría: un abordaje práctico Kelly Márquez Herrera, Abel Valderrama Cisneros, El libro *Neuroinfección en Pediatría: un abordaje práctico* busca tratar los temas más frecuentes de la infección del Sistema Nervioso Central (SNC) en pediatría, haciendo un recorrido por las diferentes etiologías, la epidemiología mundial y nacional, y los avances en el diagnóstico y el tratamiento. El tema central se desarrolla a través de 24 capítulos, cada uno escrito por especialistas de pediatría, infectología pediátrica, neuropediatría, neonatología, cuidado intensivo pediátrico, inmunología, radiología, médicos expertos en VIH y bacteriología. Finalmente, el capítulo 25, presenta como novedad la inclusión de algoritmos de diagnóstico y tratamiento para cada uno de los temas abordados. El texto está dirigido a médicos generales, pediatras y subespecialistas pediátricos de Colombia y Latinoamérica, que se ven enfrentados durante su práctica clínica diaria, al tratamiento de niños con neuroinfección. El lenguaje busca ser claro, conciso y de fácil comprensión para el lector; además, las neuroimágenes presentadas pertenecen a pacientes que han sido tratados por los autores del texto. Para esta ocasión, se intentó presentar los datos más recientes a la fecha de la última revisión (diciembre de 2022).

Lean Manufacturing. Step by step Luis Socconini , 2024-04-03 This is a practical, entertaining and didactic book for those who are starting out in Lean culture. The language used in the techniques and tools allows Lean Six Sigma management system to be understood easily and, in addition, establishes a methodology adaptable to any improvement process. From the detailed knowledge of the processes, Lean Manufacturing encourages innovation, discipline and the continuous search for excellence, through tools that improve the effectiveness of teams, delivery times and, on the whole, the capacity and competitiveness of companies. Step by step, this book enables you to discover and apply material control and production techniques that increase quality, improve communication and access to information and provide significant energy reductions. The Lean Manufacturing system offers a methodology for manufacturing and the management of organizations focused on continuous improvement, in line with the needs for efficiency and optimization of companies' resources.

Pedagogy of Hope Paulo Freire,2014-04-24 With the publication of *Pedagogy of the Oppressed*, Paulo Freire established himself as one of the most important and radical educational thinkers of his time. In *Pedagogy of Hope*, Freire revisits the themes of his masterpiece, the real world contexts that inspired them and their impact in that very world. Freire's abiding concern for social justice and education in the developing world remains as timely and as inspiring as ever, and is shaped by both his rigorous intellect and his boundless compassion. *Pedagogy of Hope* is a testimonial to the inner vitality of generations denied prosperity and to the often-silent, generous strength of millions throughout the world who refuse to let hope be extinguished.

The Ranger Way Kris Paronto,2018-07-10 Discover the USA Today bestselling self-help memoir from a former Army Ranger, a hero of the 2012 Benghazi siege, and the subject of the book and movie *13 Hours*, as he shares life-changing lessons of discipline, motivation, success, and peace. Thousands of people have heard Kris Tanto Paronto speak about his experiences in Benghazi on September 11, 2012. But before he was a security contractor, Tanto was a US Army Ranger from 2nd Battalion 75th Ranger Regiment. In *The Ranger Way*, Tanto shares stories from his training experiences that played a role in his team's heroic response in Benghazi on September 11, 2012. Being a Ranger is, by design, not for everyone, but anyone can use the expectations and techniques of Ranger culture to achieve personal victory. Tanto shows you how to define your mission, set goals that are in alignment with your values, and develop a battle plan that will maximize your chances of success. You will learn why you should never quit and why that is different from never failing. Tanto uses his experiences in Basic and Ranger Training to explore how to deal with mistakes and disappointment like a leader, accept responsibility, and turn every obstacle into an opportunity for growth. You will learn why service and sacrifice will help you succeed-and how the power of humility, strength, faith, and brotherhood will sustain you on the road to accomplishing your mission.

The S.T.A.B.L.E. Program Pre-transport Post-resuscitation Stabilization Care of Sick Infants Kristine A. Karlsen,2006 The S.T.A.B.L.E. Program is a neonatal education program that focuses on the post-resuscitation/pre-transport stabilization care of sick newborns. S.T.A.B.L.E. stands for the 6 assessment parameters covered in the program: Sugar, Temperature, Airway, Blood pressure, Lab work, and Emotional support for the family. The S.T.A.B.L.E. Program is designed to provide important information about neonatal stabilization for maternal/infant healthcare providers in all settings - from community hospitals and birth centers, to emergency rooms and hospital environments.

Overview: MELQO UNESCO,UNICEF,World Bank,Brookings Institution (USA). Center for Universal Education,2017-08-14 The Measuring Early Learning Quality and Outcomes (MELQO) initiative began in 2014 as part of the global emphasis on early childhood development (ECD). Led by UNESCO, the World Bank, the Center for Universal Education at the Brookings Institution and UNICEF, the initiative aims to promote feasible, accurate and useful measurement of children's development and learning at the start of primary school, and of the quality of their pre-primary learning environments. Items are designed for children between the ages of 4 and 6 years. Following the premise that many existing tools include similar items, the leading organizations's core team worked with a consortium of experts, non-governmental organizations (NGOs) and multilaterals to build upon current measurement tools to create a common set of items organized into modules for measuring: 1) early childhood development and learning, and 2) the quality of pre-primary learning environments. The MELQO core team and experts also collaborated to outline a process for context-specific adaptation of the measurement modules resulting from lessons learned from field-testing in several countries in 2015 and 2016. The modules are designed to be implemented at scale, with an emphasis on feasibility for low- and middle-income countries (LMICs). A key question addressed by MELQO was the balance between a global tool suitable for use everywhere, and local priorities and goals for children's development. [Introduction, ed]

Border Environmental Education Resource Guide ,2008

Toolkit for Counseling Spanish-Speaking Clients Lorraine T. Benuto,2018-01-22 This timely practical reference addresses the lack of Spanish-language resources for mental health professionals to use with their Latino clients. Geared toward both English- and Spanish-speaking practitioners in a variety of settings, this volume is designed to minimize misunderstandings between the clinician and client, and with that the possibility of inaccurate diagnosis and/or ineffective treatment. Coverage for each topic features a discussion of cultural considerations, guidelines for evidence-based best practices, a review of available findings, a treatment plan, plus clinical tools and client handouts, homework sheets, worksheets, and other materials. Chapters span a wide range of disorders and problems over the life-course, and include reproducible resources for: Assessing for race-based trauma. Using behavioral activation and cognitive interventions to treat depression among Latinos. Treating aggression, substance use, abuse, and dependence among Latino Adults. Treating behavioral problems among Latino adolescents. Treating anxiety among Latino children. Working with Latino couples. Restoring legal competency with Latinos. The Toolkit for Counseling Spanish-Speaking Clients fills a glaring need in behavioral service delivery, offering health psychologists, social workers, clinical psychologists, neuropsychologists, and other helping professionals culturally-relevant support for working with this under served population. The materials included here are an important step toward dismantling barriers to mental health care.

No Surrender Hiroo Onoda, 1999 In the Spring of 1974, Second Lieutenant Hiroo Onoda of the Japanese army made world headlines when he emerged from the Philippine jungle after a thirty-year ordeal. Hunted in turn by American troops, the Philippine police, hostile islanders, and successive Japanese search parties, Onoda had skillfully outmaneuvered all his pursuers, convinced that World War II was still being fought and that one day his fellow soldiers would return victorious. This account of those years is an epic tale of the will to survive that offers a rare glimpse of man's invincible spirit, resourcefulness, and ingenuity. A hero to his people, Onoda wrote down his experiences soon after his return to civilization. This book was translated into English the following year and has enjoyed an approving audience ever since. Book jacket.

The Contemporary History of Latin America Tulio Halperín Donghi, 1993 For a quarter of a century, Tulio Halperín Donghi's *Historia Contemporánea de América Latina* has been the most influential and widely read general history of Latin America in the Spanish-speaking world. Unparalleled in scope, attentive to the paradoxes of Latin American reality, and known for its fine-grained interpretation, it is now available for the first time in English. Revised and updated by the author, superbly translated, this landmark of Latin American historiography will be accessible to an entirely new readership. Beginning with a survey of the late colonial landscape, *The Contemporary History of Latin America* traces the social, economic, and political development of the region to the late twentieth century, with special emphasis on the period since 1930. Chapters are organized chronologically, each beginning with a general description of social and economic developments in Latin America generally, followed by specific attention to political matters in each country. What emerges is a well-rounded and detailed picture of the forces at work throughout Latin American history. This book will be of great interest to all those seeking a general overview of modern Latin American history, and its distinctive Latin American voice will enhance its significance for all students of Latin American history.

Expulsions SASKIA. SASSEN, 2019-04 An Observer Architecture Book of the Year Soaring income inequality and unemployment, expanding populations of the displaced and imprisoned, accelerating destruction of land and water bodies: today's socioeconomic and environmental dislocations cannot be fully understood in the usual terms of poverty and injustice, according to Saskia Sassen. They are more accurately understood as a type of expulsion--from professional livelihood, from living space, even from the very biosphere that makes life possible. Saskia Sassen's *Expulsions* describes the global forces that make ever more tenuous and fragile most people's grip on the places where they live. --Rowan Moore, *The Observer* Coupled with her earlier work, this may be a paradigm breaking/making work. --Michael D. Kennedy, *Contemporary Sociology* Once again, sociologist Sassen uses her considerable knowledge to think creatively at both the local and global levels...In place of the principle of inclusion in the pre-1980s Keynesian era, the planet is increasingly dominated by a principle of exclusion of people, land, natural resources, and water. Sassen presents a powerful conceptual analysis and an equally powerful and timely call to action. --M. Oromaner, *Choice*

The Eastern Origins of Western Civilisation John M. Hobson,2004-06-03 Publisher Description

Taking Action Against Clinician Burnout National Academies of Sciences, Engineering, and Medicine,National Academy of Medicine,Committee on Systems Approaches to Improve Patient Care by Supporting Clinician Well-Being,2020-01-02 Patient-centered, high-quality health care relies on the well-being, health, and safety of health care clinicians. However, alarmingly high rates of clinician burnout in the United States are detrimental to the quality of care being provided, harmful to individuals in the workforce, and costly. It is important to take a systemic approach to address burnout that focuses on the structure, organization, and culture of health care. Taking Action Against Clinician Burnout: A Systems Approach to Professional Well-Being builds upon two groundbreaking reports from the past twenty years, To Err Is Human: Building a Safer Health System and Crossing the Quality Chasm: A New Health System for the 21st Century, which both called attention to the issues around patient safety and quality of care. This report explores the extent, consequences, and contributing factors of clinician burnout and provides a framework for a systems approach to clinician burnout and professional well-being, a research agenda to advance clinician well-being, and recommendations for the field.

Business Forecasting John E. Hanke,Dean W. Wichern,2009 For undergraduate and graduate courses in Business Forecasting. Written in a simple, straightforward style, Business Forecasting 9/e presents basic statistical techniques using practical business examples to teach students how to predict long-term forecasts.
