And how have these views changed over time? David Glassberg explores these important questions by examining the pageantry craze of the

With Her Fist Raised Laura L. Lovett,2021-01-19 The first biography of Dorothy Pitman Hughes, a trailblazing Black feminist activist whose work made children, race, and welfare rights central to the women’s movement. Dorothy Pitman Hughes was a transformative community organizer in New York City in the 1970s who shared the stage with Gloria Steinem for 5 years, captivating audiences around the country. After leaving rural Georgia in the 1950s, she moved to New York, determined to fight for civil rights and equality. Historian Laura L. Lovett traces Hughes’s journey as she became a powerhouse activist, responding to the needs of her community and building a platform for its empowerment. She created lasting change by revitalizing her West Side neighborhood, which was subjected to racial discrimination, with nonexistent childcare and substandard housing, where poverty, drug use, a lack of job training, and the effects of the Vietnam War were evident. Hughes created a high-quality childcare center that also offered job training, adult education classes, a Youth Action corps, housing assistance, and food resources. Hughes’s realization that her neighborhood could be revitalized by actively

engaging and including the community was prescient and is startlingly relevant. As her stature grew to a national level, Hughes spent several years traversing the country with Steinem and educating people about feminism, childcare, and race. She moved to Harlem in the 1970s to counter gentrification and bought the franchise to the Miss Greater New York City pageant to demonstrate that Black was beautiful. She also opened an office supply store and became a powerful voice for Black women entrepreneurs and Black-owned businesses. Throughout every phase of her life, Hughes understood the transformative power of activism for Black communities. With expert research, which includes Hughes's own accounts of her life, *With Her Fist Raised* is the necessary biography of a pivotal figure in women's history and Black feminism whose story will finally be told.

A Feeling of Belonging Shirley Jennifer Lim, 2006 When we imagine the activities of Asian American women in the mid-twentieth century, our first thoughts are not of skiing, beauty pageants, magazine reading, and sororities. Yet, Shirley Jennifer Lim argues, these are precisely the sorts of leisure practices many second generation Chinese, Filipina, and Japanese American women engaged in during this time. In *A Feeling of Belonging*, Lim highlights the cultural activities of young, predominantly unmarried Asian American women from 1930 to 1960. This period marks a crucial generation—the first in which American-born Asians formed a critical mass and began to make their presence felt in the United States. Though they were distinguished from previous generations by their American citizenship, it was only through these seemingly mundane “American” activities that they were able to overcome two-dimensional stereotypes of themselves as kimono-clad “Orientals.” Lim traces the diverse ways in which these young women sought claim to cultural citizenship, exploring such topics as the nation's first Asian American sorority, Chi Alpha Delta; the cultural work of Chinese American actress Anna May Wong; Asian American youth culture and beauty pageants; and the achievement of fame of three foreign-born Asian women in the late 1950s. By wearing poodle skirts, going to the beach, and producing magazines, she argues, they asserted not just their American-ness, but their humanity: a feeling of belonging.

The Pageant Trap Usman Aman, 2017-02-03 An international beauty pageant is held in the Philippines. Mrs. Cruz breaks the contract, and soon the group finds themselves in a city known for its kidnappings of foreigners for sale into human trafficking. The One From The Other Philip Kerr, 2008-02-07 'One of the greatest anti-heroes ever written' LEE CHILD Bernie Gunther has learned the hard way that it isn't possible to distinguish 'the one from the other'. The cynical P.I. sees through the deceit and hypocrisy of both friend and foe - a lifesaving skill in postwar Germany. Munich, 1949 is home to all the backstabbing intrigue that prospers in the aftermath of war. A place where a private eye can find a lot of not-quite-reputable work: cleaning up the Nazi past of well-to-do locals, abetting fugitives in the flight abroad, sorting out rival claims to stolen goods. It's work that fills Bernie with disgust - but it also fills his sorely depleted wallet. Then a woman seeks him out. Her husband has disappeared. She's not looking to get him back - he's a wanted man who ran one of the most vicious concentration camps in Poland. She just wants confirmation that he's dead. It's a simple enough job. But in post-war Germany, nothing is simple... ***** PRAISE FOR THE BERNIE GUNTHER SERIES 'Kerr's novels are modern classics' SIMON SEBAG-MONTEFIORE 'Pure Chandler. Holiday Symbols & Customs, 5th Ed. James Chambers, 2015-07-01 A guide to the legend and lore behind the traditions, rituals, foods, games, animals, and other symbols and activities associated with holidays and holy days, feasts and fasts, and other celebrations.

The Fasces T. Corey Brennan, 2022-10-03 For an astounding two millennia-from the Etruscans of the seventh century BCE, then through the Romans under all their forms of government, indeed down to the last Byzantine dynasty-political authorities used the device known as the 'fasces' to induce respect as well as fear. This was a bundle of wooden rods and a

single-bladed axe bound with leather straps-in essence, a mobile kit for punishment. In the Renaissance, some writers and artists found it irresistible to associate the fasces with an old (and unrelated) didactic tale from Aesop illustrating how sticks are stronger once bundled. And so, over the course of the sixteenth through the early twentieth centuries, the Roman emblem came to represent not just expected concepts such as power, punishment, and justice, but now also strength, unity, and liberty against tyranny. The Fascist movement of Benito Mussolini, which seized power in Italy in October 1922, purported to revive the Roman emblem in its original form. But it retained aspects of the modern reimagining of the fasces, and introduced still further novelties, such as glorification of the 'lictors', the lowly attendants who carried the fasces in antiquity. Since World War II, the fasces has seen widespread but uneven eradication, in the context of a public that has grown progressively unacquainted with the symbol. It is precisely the fasces' long history and relative present-day unfamiliarity that has given an opening to right-wing extremists searching for a symbol that is potent, but not widely provocative at first glance--

Narrating the Nation Stefan Berger, Linas Eriksonas, Andrew Mycock, 2008-10-01 A sustained and systematic study of the construction, erosion and reconstruction of national histories across a wide variety of states is highly topical and extremely relevant in the context of the accelerating processes of Europeanization and globalization. However, as demonstrated in this volume, histories have not, of course, only been written by professional historians. Drawing on studies from a number of different European nation states, the contributors to this volume present a systematic exploration, of the representation of the national paradigm. In doing so, they contextualize the European experience in a more global framework by providing comparative perspectives on the national histories in the Far East and North America. As such, they expose the complex variables and diverse actors that lie behind the narration of a nation.

The Dissenting Voice Martin S. Stabb, 2014-05-23 Political, social, and aesthetic change marked Latin American society in the years between 1960 and 1985. In this book, Martin Stabb explores how these changes made their way into the essayistic writings of twenty-six Spanish American intellectuals. Stabb posits that dissent—against ideology, against simplistic notions of technological progress, against urban values, and even against the direct linear expository style of the essay itself—characterizes the work of these contemporary essayists. He draws his examples from major canonical figures, including Paz, Vargas Llosa, Fuentes, and Cortázar, and from lesser-known writers who merit a wider readership, such as Monterroso, Zaid, Edwards, and Ibarguengoitia. This exploration overturns many conventional assumptions about Latin American intellectuals and also highlights some of the other achievements of authors famous primarily for novels or short stories.
