**Effective Writing for Sociology** Ben Kail,Robert Kail,2022-10-21 Writing well is an essential skill for sociologists, but few books help students learn to write well. Designed to help students produce a manuscript that is clear, concise, and compelling, *Effective Writing for Sociology* demonstrates and deconstructs what makes effective writing and how best to communicate scholarly ideas. The first half of the book addresses the fundamentals of good writing: writing clearly,

Each chapter of the book describes strategies for effective writing, illustrated with multiple examples and providing exercises where students can try their hand at implementing these strategies. The Epilogue provides tips on choosing a title as well as writing an abstract and method section; it also includes suggestions on how to master the tips described in the lessons. Ben Lennox Kail and Robert V. Kail's book is essential reading in courses on research methods, qualitative methods, quantitative methods, sociological writing, and social science writing in allied disciplines such as education, criminology, health, and all research fields.

**Scattered Hegemonies** Inderpal Grewal, Caren Kaplan, 1994 Extrait de la couverture : 'Those of us who take intellectual production as a site for politics badly need the kind of profound and sophisticated thinking that went into this collection... The pleasures of this text are rare multiple : it reminds us that critique can be an act of creation and alliance ; it opens up needful conversations ; it establishes the difference between understanding what it means to refer to the global without mistaking it for all that there is.' - Wahneema Lubiano, Princeton University.

**Reconfiguring Stigma in Studies of Sex for Sale** Jeanett Bjønness, Lorraine Nencel, May-Len Skilbrei, 2021-09-23 *Reconfiguring Stigma in Studies of Sex for Sale* is about the production and effects of stigma in sex work or prostitution with contributions from four continents and different disciplines that taken together explore how such stigma is conditioned by differences in time, place, citizenship, gender, sexuality, class and race. Stigma is about relationships between people and also sets an interpretative frame whereby people understand and react to situations and actions, and the book is developed and organized to investigate this from various angles. It presents empirical studies that build on and expand the scholarship on stigma and sex work. This means that it contributes to a more complex understanding of stigma in sex work studies. Further, by using the example of sex work to explore how we can best understand the production and consequences of

stigma, the book makes a contribution that is relevant for all scholars who work on stigma and stigmatization. The book is intended for academic audiences interested in sex work or prostitution, on the one hand, and stigmatization, on the other. It is also intended for students in a broad range of disciplines, as well as for practitioners and activists who encounter or work with stigmatization or stigmatized populations.

*No Future Without Forgiveness* Desmond Tutu,2009-02-04 The establishment of South Africa's Truth and Reconciliation Commission was a pioneering international event. Never had any country sought to move forward from despotism to democracy both by exposing the atrocities committed in the past and achieving reconciliation with its former oppressors. At the center of this unprecedented attempt at healing a nation has been Archbishop Desmond Tutu, whom President Nelson Mandela named as Chairman of the Truth and Reconciliation Commission. With the final report of the Commission just published, Archbishop Tutu offers his reflections on the profound wisdom he has gained by helping usher South Africa through this painful experience. In *No Future Without Forgiveness*, Tutu argues that true reconciliation cannot be achieved by denying the past. But nor is it easy to reconcile when a nation looks the beast in the eye. Rather than repeat platitudes about forgiveness, he presents a bold spirituality that recognizes the horrors people can inflict upon one another, and yet retains a sense of idealism about reconciliation. With a clarity of pitch born out of decades of experience, Tutu shows readers how to move forward with honesty and compassion to build a newer and more humane world.

*Tourniquet* Azubuike Isiguzo,2017-01-23 My heart is troubled, and I am losing my emotional and spiritual balance simultaneously, Oliver prayed. I am getting more troubled every day from my perplexities, and I have nowhere to turn to but you. You have been the greatest strength of my life, my elixir, and the force behind my wits. Please deliver me from this miry clay, lift my head up that I may not slide into defeat and despair. Oliver screamed, placing his hands on his head. Oh my god, this is not happening, he said as he advanced towards Francis. He was so inflamed and exasperated that he grabbed Francis by his neck with both hands to strangle him, shouting, Why didnt you tell me? You could have just told me, Francis, you could have just told me! Francis was visibly choking, but Oliver didnt make any attempt to release his hold. He was visibly very broken, and Francis knew his boss would never mean to strangle him. As Oliver held on to his neck, screaming, his grip on Francis neck started to loosen, and his voice, sounding at crescendo, started fading gradually into ventriloquy. Francis, realizing it, looked up into Oliver's face and saw what broke him for the next two days, Sarah for the next one week, and Tommy the whole day, which is how long they were all sick. It was tears in Oliver's eyes.

*Echoes of History, Shadowed Identities* María José Chivite de León, Maria-José Chivite de León,2010 This book addresses the recovery of submerged memories, loss and trauma in self-avowed intertextual fiction, while simultaneously exposing the tensions and untenability of any stable figuration of alterity. Otherness thus posits a liminal and largely transversal site of resistance to monological representations of Western identity, history and canon, which are now displayed inherently crossbred and built on the occulting and alienating of difference. With this in view, the author carries out a close reading of the works and scholarly statements of J. M. Coetzee and Marina Warner by taking as the point of departure the intertextualist approaches that most attend to the phenomenon of alterity against the critical discourses of modern representation. Fully installed in the revision of canon policies, Foe and Indigo re-read Eurocentric institutionalised forms of othering at the same time they posit new and suggestive rehearsals of identity languages via literature. Intertextual fiction thus turns out to be a powerful instrument to render alterity visible and agential in the discourses of reality. Ultimately, alterity is enabled to speak and invite social change and ethical awareness without denying the history of its alienation.

*The Crises of Capitalism* Saral Sarkar, 2014-03-18 For nearly 300 years, capitalism propelled the world's most successful economies to new heights of development. But a spate of global environmental disasters and severe economic crises compels thinkers to question whether the system continues to function. Leveraging historical perspective, extensive research, and case studies, *The Crises of Capitalism* builds a compelling argument that challenges the most fundamental assumptions of prevailing economic theory. Saral Sarkar exposes capitalism's flaws through the lens of ecosocialism, a philosophy that asserts that natural resources drive production and development. Keynes, Schumpeter, Marx, and Engels had no reason to believe that there would ever be a shortage of oil, minerals, water, or food—and that technological innovation could

surmount any obstacle. But oil extraction has peaked, food is harder to come by, and the cost to maintain what natural resources remain has increased exponentially. Capitalism requires constant innovation to create growth—but as Sarkar establishes, even computers wouldn't exist without copper, gold, and zinc. *The Crises of Capitalism* exists at the intersection of environmental awareness and economic theory. Sarkar challenges predominant explanations for catastrophic events like the 2008 global economic crisis, revises the classic paradigm of growth, and points to evidence of systemic economic failure. In this provocative, revolutionary criticism, Sarkar suggests that like other long-abandoned economic theories, capitalism has reached its limits. This is an important book, and it is on the front edge of the thinking that has to come to bear on the real crisis the world is facing, of the impossible idea of growth forever and the economic model that is driving the planet into irreversible crises. —Doug Tompkins

*The State of Copyright* Debora Halbert, 2014-02-05 This book seeks to make an intervention into the ongoing debate about the scope and intensity of global copyright laws. While mapping out the primary actors in the context of globalization and the modern political economy of information ownership, the argument is made that alternatives to further expansion of copyright are necessary. By examining the multiple and competing interests in creating the legal regime of copyright law, this book attempts to map the political economy of copyright in the information age, critique the concentration of ownership that is intrinsic in the status quo, and provide an assessment of the state of the contemporary global copyright landscape and its futures. It draws upon the current narratives of copyright as produced by corporate, government, and political actors and frames these narratives as language games within a global political project to define how information and culture will be shared and exchanged in the future. The text problematizes the relationship of the state to culture, comments on the global flows of culture, and critiques the regulatory apparatus that is in place to commodify culture and align it with the contemporary nation-state. In the end, the possibility of non-commodified and more open futures are explored. *The State of Copyright* will be of particular interest for students and scholars of international political economy, law, political science, anthropology, sociology, cultural studies, library sciences, and communication studies. It also will appeal to a growing popular audience that has taken an interest in the issues of copyright.

**The Business of Words** Crispin Thurlow, 2019-07-30 *The Business of Words* examines the practices of 'high-end' language workers or wordsmiths where we find words being professionally designed, institutionally managed, and, inevitably, objectified for status and profit. Aligned with existing work on language and political economy in critical sociolinguistics and discourse studies, the volume offers a novel, complementary insight into the relatively elite practices of language workers such as advertisers, dialect coaches, publishers, judges, translators, public relations officers, fine artists, journalists, and linguists themselves. In fact, the book considers what academics might learn about language from other wordsmiths, opening a space for 'dialogue' between those researching language and those who also stake a claim to

linguistic expertise and a way with words. Bringing together an array of leading international scholars from the cognate fields of discourse studies, sociolinguistics, and linguistic anthropology, this book is an essential resource for researchers, advanced undergraduate, and postgraduate students of English language, linguistics and applied linguistics, communication and media studies, and anthropology.
