Rahu & Kethu Tirupur S. GopalaKrishnan (GK),2021-06-21 Astronomically, the intersection points of the sun and moon – on their movements in the celestial sphere – are called Rahu and Kethu. They are also called the north node and south node. Rahu and Kethu are unimaginably huge dark shadows in space. During their transit, when their shadow falls on any planet, that planet's all-effects will be completely altered or diverted by Rahu and Kethu. Rahu and Kethu are solely responsible for a beggar to become a millionaire and a millionaire to become a beggar. This book elaborately discusses the effects of Rahu and Kethu. In the horoscope, how Rahu and Kethu are positioned, how the planets and the houses (Bhavas) are affected by them in the birth chart are all analysed in this book. How and when the natives will be affected? To what extent they will be affected? It is because of the birth chart, the transit movement and the Dhasa Bhukthi of Rahu and Kethu? They are all clearly explained in this book with many birth charts. Kindly read this book thoroughly, analyse it with your known people's horoscope, and experience the result. It will surely give you goosebumps!

Rahu and Ketu in Predictive Astrology: North and South Nodes of the Moon Dr Prem Kumar Sharma,Manisha Koushik,2024-02-24 It is a well-established fact that since Vedic astrology has its basis in Vedic knowledge, it is as old as human creation and has been used from time immemorial to dispel the unfounded horrors and prejudices of the human mind. Rahu and Ketu, the two nodal points of the Moon, constitute the core of Vedic astrology. Ancient Indian seers visualised the north and the south nodes of the Moon as the most interesting and mysterious planetary influences. However, Rahu and Ketu have either been ignored or misunderstood in studies of Vedic astrology. This book is an attempt to dispel the darkness that surrounds Rahu and Ketu so that they can be better understood and their importance in Vedic astrology appreciated. By no means the final word on Rahu and Ketu, this book attempts to provide readers with a practical understanding of these two nodes so that they can be placed in perspective. The book also provides other insights into Vedic astrology. The use of

horoscopes of some prominent persons makes an understanding of Rahu and Ketu easier both for astrology enthusiasts and for other readers.

Planets and Their Effects Saket Shah,2020-02-26 Understanding planets & their effects: ... Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. All planets in solar system are revolving around Sun in a predefined pattern. That's how we know when to wake up and when to go to bed. Planets however govern a lot more than just occurrence of day and night or eclipses and tides. Planets have a direct impact on us, despite being several light years away. While the position of planets does not dictate our everyday actions, it does have a profound and close influence on our life and destiny. Understanding planets & their effects: Much like nobody forces Moon to orbit Earth, humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally, the movement of planets affects our actions as a result, much like our actions affect the environment. Human body is in fact made of elements present in the Universe. The structure of our brain is very much similar to the structure of universe. Everything that happens to the Universe happens to us. Our own magnetic field aligns with the Earth's magnetic field. Each object in the Universe, be it humans, Earth, planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better. Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. The outer planets move slowly in the sky, some even take as much as 2.5 years to change a sign. These include Jupiter, Saturn, Rahu and Ketu and these planets have a more profound and long-lasting impact on us, unlike say Moon. Astrological significance of planets: Every planet rules a zodiac sign except Rahu and Ketu, which are in fact not actual planets but two reference points in the sky. Rahu and Ketu are the points where the paths of the Sun and Moon intersect with each other. Rahu is the north lunar node, the Head of the dragon as per mythology and Ketu is the south lunar node. The qualities of the zodiac signs somewhat align with the characteristics of the planets. For instance,

impulsive and active Aries is ruled by fiery Mars, dreamy Pisces is ruled by spiritual Jupiter, emotional Cancer is ruled by motherly Moon while confident Leo is ruled by masculine Sun.
