**Pamela Merritt**

**Cat Sense** John Bradshaw, 2013-09-10 Based on cutting edge science, this bestselling book on the inner lives of cats is for any who may wonder what their feline companions are really thinking (The New York Times). In *Cat Sense*, renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before, using cutting-edge scientific research to dispel lingering myths and explain the true nature of our feline friends. Tracing the cat's evolution from lone predator to domesticated companion, Bradshaw shows that although cats and humans have lived together for eight thousand years, cats remain independent, predatory, and wary of contact with their own kind, qualities that often clash with our modern lifestyles. To live in harmony with our cats, Bradshaw explains, we first need to understand their inherited quirks including understanding their body language, and managing both their natural hunting instincts and their relationships with other cats. A must-read for any cat lover, *Cat Sense* offers humane, penetrating insights about the domestic cat that challenge our most basic assumptions and promise to dramatically improve our pets' lives -- and ours.

**Do Cats Think?** Paul Corey, 1991-09-01 Did you ever wonder whether you have been missing a great opportunity in the way you relate to the cat you live with?

**What Cats Think** John Spray, 2019-10-29 What do cats think when they get caught in the rain, or when a bird is just out of reach? If they could tell us, their voices would be full of charisma and attitude. Cats have been our companions for thousands of years. From the sandy roads of Ancient Egypt to the shopping bag left on the kitchen counter, felines have always embraced their curiosity. With a lot of history comes a lot of personality. Charming, capricious free verse from author John Spray pairs brilliantly with the striking art of celebrated illustrator Mies van Hout in this delightful tribute to cats.

*Feline Philosophy* John Gray, 2020-10-29 'Why can't a human be more like a cat? That is the question threaded through this vivid patchwork of philosophy, fiction, history and memoir ... a wonderful mixture of flippancy and profundity, astringency and tenderness, wit and lament' Jane O'Grady, Daily Telegraph 'When I play with my cat, how do I know she is not passing time with me rather than I with her?' Montaigne There is no real evidence that humans ever 'domesticated' cats. Rather, it seems that at some point cats saw the potential value to themselves of humans. John Gray's wonderful new book is an attempt to get to grips with the philosophical and moral issues around the uniquely strange relationship between ourselves and these remarkable animals. *Feline Philosophy* draws on centuries of philosophy, from Montaigne to

Schopenhauer, to explore the complex and intimate links that have defined how we react to and behave with this most unlikely 'pet'. At the heart of the book is a sense of gratitude towards cats as perhaps the species that more than any other - in the essential loneliness of our position in the world - gives us a sense of our own animal nature.

The Trainable Cat John Bradshaw, Sarah Ellis, 2016-08-04 'Amazing' Guardian From the on-screen experts for BBC2's Cat Watch, and based on their groundbreaking research - this is the ultimate guide to making your cat a happier, more sociable animal. The idea of a trained cat is a contradiction in terms, isn't it? Naturally solitary, wary, easily threatened by newcomers, they are attached to place rather than people, and much of their 'antisocial' behaviour arises in situations where that attachment is threatened. But, as cat experts Sarah Ellis and John Bradshaw argue, such stress-induced behaviour can be prevented, reduced, even eliminated, by training. A comprehensive and engaging step-by-step guide, *The Trainable Cat* will help you to help your cat negotiate the complexities of everyday life: to enjoy living with humans - including new babies and lively toddlers - and other pets; to answer to their name; settle into a new home; and to overcome the anxiety of a visit to the vet. You can train your cat to do what is in its own best interests - even when its instincts tell it otherwise. 'I doubt you'll find a more well-informed or scientific book on cats that better shows you how feline thinking works' *The Times*

*The Way of Cats* Pamela Merritt, 2018-05-31 *The Way of Cats* is a way of playing games with our cat. These communication, training, and affection games are fun and easy to learn. Then we have well-behaved and happy cats.

*They All Saw a Cat* Brendan Wenzel, 2016-08-30 *They All Saw A Cat* — New York Times bestseller and 2017 Caldecott Medal and Honor Book The cat walked through the world, with its whiskers, ears, and paws . . . In this glorious celebration of observation, curiosity, and imagination, Brendan Wenzel shows us the many lives of one cat, and how perspective shapes what we see. When you see a cat, what do you see? If you and your child liked *The Girl Who Drank the Moon*, *Finding Winnie*, and *Radiant Child* — you'll love *They All Saw A Cat* An ingenious idea, gorgeously realized. —Shelf Awareness, starred review Both simple and ingenious in concept, Wenzel's book feels like a game changer. —The Huffington Post

**If Cats Disappeared From The World** Genki Kawamura,2018-09-20 A moving tale of loss and reaching out to the ones we love. Our narrator’s days are numbered. Estranged from his family, living alone with only his cat Cabbage for company, he was unprepared for the doctor’s diagnosis that he has only months to live. But before he can set about tackling his bucket list, the Devil appears with a special offer: in exchange for making one thing in the world disappear, he can have one extra day of life. And so begins a very bizarre week . . . Because how do you decide what makes life worth living? In dealing with the Devil our narrator will take himself - and his beloved cat - to the brink. Genki Kawamura's *If Cats Disappeared from the World* is a story of loss and reconciliation, of one man’s journey to discover what really matters in modern life. This beautiful tale is translated from the Japanese by Eric Selland, who also translated *The Guest Cat* by Takashi Hiraide. 'If you're a fan of

The Guest Cat (or even just cats generally), you'll love this.' - Sunday Times

**The Other End of the Leash** Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

*The Inner Life of Cats* Thomas McNamee,2017-03-28 Our feline companions are much-loved but often mysterious. In *The Inner Life of Cats*, Thomas McNamee blends scientific reportage with engaging, illustrative anecdotes about his own beloved cat, Augusta, to explore and illuminate the secrets and enigmas of her kind. As it begins, *The Inner Life of Cats* follows the development of the young Augusta while simultaneously explaining the basics of a kitten's physiological and psychological development. As the narrative progresses, McNamee also charts cats' evolution, explores a feral cat colony in Rome, tells the story of Augusta's life and adventures, and consults with behavioral experts, animal activists, and researchers, who will help readers more fully understand cats. McNamee shows that with deeper knowledge of cats' developmental phases and individual idiosyncrasies, we can do a better job of guiding cats' maturation and improving the quality of their lives. Readers' relationships with their feline friends will be happier and more harmonious because of this book.

*The Tribe of Tiger* Elizabeth Marshall Thomas,2001-06 The author who revealed the secret lives of dogs in the best-selling *The Hidden Life of Dogs* offers a journey into the hidden life of cats and reports that cats, surprisingly, are not solitary beings. Reissue.

*The Animal that Therefore I Am* Jacques Derrida,2008 *The Animal That Therefore I Am* is the long-awaited translation of the complete text of Jacques Derrida's ten-hour address to the 1997 C erisy conference entitled *The Autobiographical Animal*,

the third of four such colloquia on his work. The book was assembled posthumously on the basis of two published sections, one written and recorded session, and one informal recorded session. The book is at once an affectionate look back over the multiple roles played by animals in Derrida's work and a profound philosophical investigation and critique of the relegation of animal life that takes place as a result of the distinction--dating from Descartes--between man as thinking animal and every other living species. That starts with the very fact of the line of separation drawn between the human and the millions of other species that are reduced to a single the animal. Derrida finds that distinction, or versions of it, surfacing in thinkers as far apart as Descartes, Kant, Heidegger, Lacan, and Levinas, and he dedicates extended analyses to the question in the work of each of them. The book's autobiographical theme intersects with its philosophical analysis through the figures of looking and nakedness, staged in terms of Derrida's experience when his cat follows him into the bathroom in the morning. In a classic deconstructive reversal, Derrida asks what this animal sees and thinks when it sees this naked man. Yet the experiences of nakedness and shame also lead all the way back into the mythologies of man's dominion over the beasts and trace a history of how man has systematically displaced onto the animal his own failings or *bêtises*. *The Animal That Therefore I Am* is at times a militant plea and indictment regarding, especially, the modern industrialized treatment of animals. However, Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through, in all its implications, the questions and definitions of life to which he returned in much of his later work.

Cat Person Kristen Roupenian,2018-05-03 She thought, brightly, This is the worst life decision I have ever made! And she marvelled at herself for a while, at the mystery of this person who'd just done this bizarre, inexplicable thing. Margot meets Robert. They exchange numbers. They text, flirt and eventually have sex - the type of sex you attempt to forget. How could one date go so wrong? Everything that takes place in *Cat Person* happens to countless people every day. But *Cat Person* is not an everyday story. In less than a week, Kristen Roupenian's *New Yorker* debut became the most read and shared short story in their website's history. This is the bad date that went viral. This is the conversation we're all having. This gift edition contains photographs by celebrated photographer Elinor Carucci, who was commissioned by the *New Yorker* to capture the image that accompanied Kristen Roupenian's *Cat Person* when it appeared in the magazine. *You Know You Want This*, Kristen Roupenian's debut collection, will be published in February 2019.

**Catwatching** Desmond Morris,2009-03-26 The personality of the cat is a fascinating mixture of affection, domesticity and active independence. You may think you know your cat as he purrs in your lap, but come across your pet in the street on a dark night and you might think that Bagpuss suffers from a dual personality. Every single feline pet carries an inheritance of amazing sensory capacities, vocal utterances, body language and territorial displays. By answering such questions as 'what does a cat signal with its ears?' 'why does a cat rub up against your leg?' and 'why does a cat swing its head from side to side when staring at its prey?', Desmond Morris decodes the private world of the cat. Your cat is full of surprises and our finest

zoologist is about to reveal their secrets in this beautifully repackaged edition of a much loved bestseller.

**How to Argue with a Cat** Jay Heinrichs,2018-03-01 If you can persuade a cat ... you can persuade anyone. This is the essential guide to getting your way. Jay Heinrichs, award-winning author of Thank You for Arguing and advisor to the Pentagon, NASA and Fortune 500 companies, distils a lifetime of negotiating and rhetoric to show you how to win over anyone - from colleagues and bosses, to friends and partners at home (and even the most stubborn of feline adversaries). You'll learn to: Perfect your timing - learn exactly when to pounce Get your body language, tone and gesture just right Think about what your opponent wants - always offer a comfy lap Lure them in by making them think they have the power The result? A happy, hopefully scratch-free, resolution. 'Jay Heinrichs knows a thing or two about arguing' The Times 'A master rhetorician and persuasion guru' Salon 'You got a bunch of logical engineers to inject pathos into their arguments ... it works!' NASA engineer

**Making Rounds with Oscar** David Dosa,2010-02-02 A remarkable cat. A special gift. A life-changing journey. They thought he was just a cat. When Oscar arrived at the Steere House Nursing and Rehabilitation Center in Rhode Island he was a cute little guy with attitude. He loved to stretch out in a puddle of sunlight and chase his tail until he was dizzy. Occasionally he consented to a scratch behind the ears, but only when it suited him. In other words, he was a typical cat. Or so it seemed. It wasn't long before Oscar had created something of a stir. Apparently, this ordinary cat possesses an extraordinary gift: he knows instinctively when the end of life is near. Oscar is a welcome distraction for the residents of Steere House, many of whom are living with Alzheimer's. But he never spends much time with them -- until they are in their last hours. Then, as if this were his job, Oscar strides purposely into a patient's room, curls up on the bed, and begins his vigil. Oscar provides comfort and companionship when people need him most. And his presence lets caregivers and loved ones know that it's time to say good-bye. Oscar's gift is a tender mercy. He teaches by example: embracing moments of life that so many of us shy away from. Making Rounds with Oscar is the story of an unusual cat, the patients he serves, their caregivers, and of one doctor who learned how to listen. Heartfelt, inspiring, and full of humor and pathos, this book allows readers to take a walk into a world rarely seen from the outside, a world we often misunderstand.
