Now I can find out!...This directory will be a valuable reference guide for human resource professionals and anyone else who wants to know what those letters mean and how seriously to take them. --James Roth, PhD, CIA, CCSA President, AuditTrends The Directory of Global Professional Accounting and Business Certifications by Lal Balkaran is an indispensable reference source for anyone involved in the international accounting, auditing, and business professions. Audit Risk Alert AICPA,2018-05-11 Developed by a task force consisting of current and former employee benefit plan expert panel members, this alert offers a range of topics such as master trust reporting, cybersecurity, new proposed auditor's reports, electronic information, limited-scope certification, and new auditing standards such as PCAOB AS 3101. The increasing complexity of employee benefit plan auditing and increased focus by the DOL have resulted in significant pressure for CPAs and firms performing EBP audits. To help accountants meet the challenge of performing quality audits in this unique and complex area, the AICPA has developed this alert to assist them in identifying current sources of risk within EBP audit engagements. Accountants will find a targeted discussion on new developments, issues auditors may face in their current audits, as well as a look at what's in the pipeline that may affect your engagements. Key benefits of this work include: Coverage of emerging practice issues, including direct versus indirect investment in fully benefit-responsive investment contracts, readily determinable fair value, disclosures for investments in certain entities that calculate NAV per share (or its equivalent), plan expenses, and repurchase agreements An in-depth look at master trust reporting, electronic information and the new PCAOB auditing standard AS 3101 Analysis of high risk areas specific to defined benefit pension plans, such as pension benefit guaranty corporation premiums and reporting, demographic and economic assumptions, and pension risk management Current developments on health and welfare plans, including health care reform and its effect on employee benefit plans Up-to-date information on regulatory development from both the DOL and IRS

Practitioner's Guide to Global Investigations Judith Seddon,2018-01-19 There's never been a greater likelihood a company and its key people will become embroiled in a cross-border investigation. But emerging unscarred is a challenge.

Local laws and procedures on corporate offences differ extensively - and can be contradictory. To extricate oneself with minimal cost requires a nuanced ability to blend understanding of the local law with the wider dimension and, in particular, to understand where the different countries showing an interest will differ in approach, expectations or conclusions. Against this backdrop, GIR has published the second edition of *The Practitioner's Guide to Global Investigation*. The book is divided into two parts with chapters written exclusively by leading names in the field. Using US and UK practice and procedure, Part I tracks the development of a serious allegation (whether originating inside or outside a company) - looking at the key risks that arise and the challenges it poses, along with the opportunities for its resolution. It offers expert insight into fact-gathering (including document preservation and collection, witness interviews); structuring the investigation (the complexities of cross-border privilege issues); and strategising effectively to resolve cross-border probes and manage corporate reputation. Part II features detailed comparable surveys of the relevant law and practice in jurisdictions that build on many of the vital issues pinpointed in Part I.
