The Good Listener Andrew Black,2024-02-09 About the Book The Good Listener is a bold, new, fiction book about a plan among the animal leaders of the world, who meet at a barn in Los Angeles and develop a plan to end to the world-wide destruction and suffering caused by human beings: the animals have realized that the devastation is almost irreversible and that the animals have one last chance to stop the humans before a mass extinction of the animal kingdom begins. The animals agree to infect a young couple with a special seed obtained from the tar pits, secretly creating a hybrid-child, The Good Listener, a human baby with certain plant and animal characteristics which help the child communicate with every living thing on the earth. While The Good Listener has no eyes, ears, mouth, nor nostrils, it can breathe, see, and hear through its green skin, and is neither male nor female. Insects, birds and animals all come to see the wonderous child, while grasses, trees and plants bloom as the child walks past. The animals hope that The Good Listener will convince the people of the world that they must change their ways before the humans are left in a world with no plants or animals, but the government seizes the child for evaluation after it is seen in public. With The Good Listener's help, the animals of the sea create a tsunami, attacking Los Angeles; and while the predators of the land attack humans in the city, the rest of the animals flee to the high mountains beginning a new life away from humans. At the same time, the plants release a new type of pollen, which is nutritious to birds and insects, but is flammable, and is also noxious and toxic to humans. To save themselves, the humans must develop a plan respecting, accommodating and incorporating all of the plants, insects, fish and animals of the world, or the humans will become extinct instead of the plants or the animals. The book is an adventure story comprised of numerous animals, several humans and the hybrid-child. The book contains a pre-quill embedded within the storyline, as well as an open-end, allowing a sequel. In addition, several of the animal characters have such unique personalities allowing the development of one or more independent prequel storylines. Alan, the king of the ants and Frank, the lord of the flies, are central figures in the book and likely deserve their own background stories. Finally, the main character, the hybrid-child, is unique and fascinating, creating a never-before seen opportunity to develop a multi-book line of sequels.

**Identity, Narrative and Metaphor** E. L'Hôte,2014-11-05 This book shows that the discourse of the Labour party 1994-2007, revolving around three key concepts of identity, narrative and metaphor, not only reflected new Labour's policy and organisational changes, but that it was also an essential part of its successful strategies of renovation and of power legitimation.

THE ART OF DEFINING LIFE Adrian Gabriel Dumitru, Truth be told we want an over night change in our lives. There are many moments when the actual reality is very difficult to handle and looks like we have no escape at all. We dream of a

quantum jump, even if we don't understand the concept very well. In few words, the reality sucks and we dream of a life that we will never have, because deep inside us, we don't really believe we will ever meet this reality. We have a fake attitude that we are looking for change, but this attitude is just a mask for our fears... as if they are not to be seen. So we wonder today if there is a way of how our lives can be changed in what we think that should be better for us. Does it exist a system that we could follow and achieve our dream life?! But it must be a simple way ... otherwise we know that we will not follow the path. Everything that is happening is related to us, and everything that could happen is also related to us. The magic answer, because we are looking only for magic answers, is the art of defining life. Yes ... this is an art. We need to start being honest with ourselves, and all the answers to simple questions as "why am I fat?! ... because I eat too much" , "why my partner is cheating on me?! ... because I did not know to be that perfect partner that I had to be" and the list of questions will go on. We need to start defining what we don't like. Once we understand that the change is in our powers and if we really want a change, we will start the process of achieving the new life we dream of. We don't need to go to a therapist, we don't need to study motivational issues of social media and don't even need to read hundreds or thousands of books to start the change process. The art of defining our lives, means that we have the courage to understand what we don't like and define very clearly how our reality should look like. The depression, or what we call depression, because many things are unclear in our minds, is this huge gap between where we are now and where we want to be. We are looking for a magic bridge that should help us go very easily from one point to the other. The process itself is a very simple one, as long as we decide to be honest to us. The art of defining ... yes ... is an art. And also to live ... is an art. Once we decide that we are brave enough to live our lives... the dream life... the magic will happen, because all the magic is our powers.

**Embracing Mind** B. Alan Wallace, Brian Hodel, 2008-12-23 What is Mind? For this ancient question we are still seeking answers. B. Alan Wallace and Brian Hodel propose a science of the mind based on the contemplative wisdom of Buddhism, Hinduism, Taoism, Christianity, and Islam. The authors begin by exploring the history of science, showing how science tends to ignore the mind, even while it is understood to be the very instrument through which we comprehend the world of nature. They then propose a contemplative science of mind based on the sophisticated techniques of meditation that have been practiced for thousands of years in the great spiritual traditions. The final section presents meditations that are of universal relevance—to scientists and people of all faiths—for revealing new dimensions of consciousness and human flourishing. *Embracing Mind* moves us beyond the dogmatic debates between theists and atheists over Intelligent Design and Neo-Darwinism, and it returns us to the vital core of science and spirituality: deepening our experience of reality as a whole.

The White Lotus Osho,2023-03-14 There have been many buddhas in the world, but Bodhidharma stands out like Everest. His way of being, living, and expressing the truth is simply his; it is incomparable. Even his own master, Gautama the Buddha, cannot be compared with Bodhidharma. Even Buddha would have found it difficult to digest this man. This man Bodhidharma traveled from India to China to spread the message of his master. Although they are separated by one thousand years, for Bodhidharma and for such men there is no time, no space - for Bodhidharma Buddha was as contemporary as Buddha is contemporary to me.

Operation Interstellar Arthur Roberts,2018-01-29 Paul Grayson walked the city street slowly. He was sauntering towards the spaceport, but he was in no hurry. He had allowed himself plenty of time to breathe the fresh spring air, to listen to the myriad of sounds made by his fellow men, and to revel in the grand freedom that being out in the open gave him. Soon enough he would be breathing canned air, pungent with the odor of compressor oil and the tang of the greenery used to replenish the oxygen, unable to walk freely more than a few dozen steps, and unable to see what lies beyond his viewports...

This Is Not The End. Nina Sossamon-Pogue,2020-03-24 Advice on how to handle a rough chapter in your life, from someone who's been there before. While today may seem miserable, This Is Not the End can help you see that your life is not ruined. You're merely in a tough plot twist, and better days are ahead...

**The Recognition Sutras** Christopher D Wallis,2017-10-06 One thousand years ago, in the valley of Kashmir, a great Tantric master named Kshemaraja wrote his masterpiece: the Pratyabhijnahridayam, which means The Essence of the Recognition Philosophy. This text was a concise primer, written to introduce spiritual seekers to the Recognition philosophy in less formally philosophical, more approachable language. What Kshemaraja created turned out to be one of the world's

great spiritual masterpieces, breathtaking in its brevity but stunning in its power. It came to be considered equivalent to scripture itself by later generations, because of its undeniable inspiration. This book expounds the subtleties of this spiritual and philosophical classic. One of the most powerful and revelatory spiritual masterpieces of world history, the Pratyabhijnahridayam is one of the primary sources for the study and practice of nondual Tantrik Yoga, and it has never been accurately translated or fully explained until now.
