Rescue Rangers with Animal Assistants Guanzhou Chen,2017-10-04 Owen Blaze is an average high school student with something unusual: two specially trained Burmese pythons he carries with him everywhere he goes. When a gang of poachers try to steal Owen's Burmese pythons and kill him, he has to do whatever it takes to stay alive and keep his pythons safe. While evading the poachers and near deaths, Owen meets highly intelligent Trent Hamilton and the big and strong Vincent Fenton, who are after the leader, Andrew Kane. Trent and Vincent take Owen to meet Selena Santiago, a traumatized prodigy inventor with a hideout base and an army of robotics. After providing Owen with a uniform, weapons, and gadgets, Selena brings in Penny McGinnis, a young girl who lost her parents and has been in hiding for two years. Each of them has their own highly trained animals. Working together to capture Andrew Kane and his men, they become the new rescue rangers with animal assistants.

Animal Liberation Peter Singer,2015-10-01 How should we treat non-human animals? In this immensely powerful and influential book (now with a new introduction by Sapiens author Yuval Noah Harari), the renowned moral philosopher Peter Singer addresses this simple question with trenchant, dispassionate reasoning. Accompanied by the disturbing evidence of factory farms and laboratories, his answers triggered the birth of the animal rights movement. 'An extraordinary book which has had extraordinary effects... Widely known as the bible of the animal liberation movement' Independent on Sunday In the decades since this landmark classic first appeared, some public attitudes to animals may have changed but our continued abuse of animals in factory farms and as tools for research shows that the underlying ideas Singer exposes as ethically indefensible are still dominating the way we treat animals. As Yuval Harari's brilliantly argued introduction makes clear, this book is as relevant now as the day it was written.
