Managers the Day After Tomorrow Rik Vera, 2018-10-24 In today's economy, everything has changed. In order to survive, managers and organisational leaders will have to address the need to connect to the largest possible audience without losing touch with the individual. But how does this work? How can managers look ahead? How can they imagine how their company will be doing in thirty years from now, and do so in an environment where predictions have become all but impossible, and then at the same time successfully imprint their vision into a strategy for the next three months from now? What makes today's customers tick? Why does everything have to be easy, fast, fun and simple? Why is data the new gold, and why is AI a blessing? The answer is plain. To keep evolving, leaders should be inspired by the outside world. They should have the guts to read the signals all around them. They should meet the needs of their customers and, above all, they should focus on every possibility. In short, they should never stop experimenting. AUTHOR: Rik Vera is a Partner at inspiration and advice company nexxworks. He is a highly sought-after keynote speaker and advisor in the field of extreme customer centricity, disruption, sales and marketing. SELLING POINTS: * Guide beyond the end of predictability for managers that disproves popular myths and addresses tomorrow's greatest dangers * Offers a multidisciplinary approach 50 colour, 20 b/w images

International Management and Language Susanne Tietze, 2013-01-11 Globalization processes have resulted in the emergence of business and management networks in which the sharing of knowledge is of crucial importance. Combining two contemporary and important subject areas - namely that of international management and also language and

communication in multi-language contexts - the author of this book presents a wealth of ideas, examples and applications taken from international and global contexts, which show that 'language matters' in the pursuit of international business affairs. The book establishes the theoretical core of its main ideas by introducing two orientations (social construction and linguistic relativity) and demonstrates how they can be drawn on to frame and understand the activities of managers. Highly innovative and topical, Susanne Tietze's book will appeal to students of international management and international human resource management as well as those studying intercultural communication. It is also useful for managers and practitioners who work internationally.
