This best-selling text begins by asking Why include all students? in regular classrooms and then shows how this can be done. It outlines the philosophy of inclusive education and focuses on the use of individualised planning and effective teaching practices to maximise learning outcomes within positive and productive environments. This fifth edition includes broader coverage of issues to do with diversity and individual differences, particularly cultural and multicultural inclusion, linguistic diversity and giftedness. Indigenous Pathways, Transitions and Participation in Higher Education Jack Frawley, Steve Larkin, James A. Smith, 2017-05-31
This book is open access under a CC BY 4.0 license. This book brings together contributions by researchers, scholars, policy-makers, practitioners, professionals and citizens who have an interest in or experience of Indigenous pathways and transitions into higher education. University is not for everyone, but a university should be for everyone. To a certain extent, the choice not to participate in higher education should be respected given that there are other avenues and reasons to participate in education and employment that are culturally, socially and/or economically important for society. Those who choose to pursue higher education should do so knowing that there are multiple pathways into higher education and, once there, appropriate support is provided for a successful transition. The book outlines the issues of social inclusion and equity in higher education, and the contributions draw on real-world experiences to reflect the different approaches and strategies currently being adopted. Focusing on research, program design, program evaluation, policy initiatives and experiential narrative accounts, the book critically discusses issues concerning widening participation.

An Economy is Not a Society Dennis Glover,2015-08-01 In modern Australia, productivity is all that matters, our leaders tell us. Economic growth above all else. But is this really what we, the people, want? Does it make our lives and our communities better? If the high priests of economics want the credit for Australia's economic growth over the last three decades, they must also wear the blame for the social destruction that has accompanied it - the devastation of once prosperous industrial centres and the suburbs they sustained, as factories closed and workers were forced to abandon their trades. The social costs of this 'economic modernisation' have been immense, but today are virtually ignored. The fracturing

of communities continues apace. *An Economy Is Not a Society* is a passionate and personal J'accuse against the people whose abandonment of moral policy making has ripped the guts out of Australia's old industrial communities, robbed the country of manufacturing knowhow, reversed our national ethos of egalitarianism and broken the sense of common purpose that once existed between rulers and ruled. Those in power, Dennis Glover argues, must abandon the idea that a better society is purely about offering individuals more dollars in their pockets. What we desperately need is a conversation about the lives, working conditions, jobs and communities we want for ourselves and our families – and we need to choose a future that is designed to benefit all the Australian people, not just some. Dennis Glover is the son and brother of Dandenong factory workers. He grew up in Doveton before studying at Monash University and King's College, Cambridge, where he was awarded a PhD in history. He has worked for two decades as an academic, newspaper columnist, political adviser and speechwriter to Labor leaders and senior ministers.

Rags and Riches Susanna Elliott-Newth, 2024-03-28 Life is an intricate tapestry of emotions: moments that tug at our hearts and instances that leave us in stitches. Every day, we navigate the quirks and peculiarities of those around us, choosing to either embrace the humour or let annoyance take the reins. Why not revel in the comedic interludes hidden within life's juxtapositions? In *Rags and Riches*, Susanna invites readers into a delightful collection filled with laughter, wit, and true tales. From whimsical articles to heartfelt poems, she captures the essence of real people and the memorable moments that have shaped their lives. Many stories bring to life the eclectic guests that have crossed Susanna's threshold, while others shine a spotlight on the charming exchanges she shares with her vivacious granddaughter. 'One of her guests, a specialist medical doctor, laughs, "Susanna, you know I'm known as 'The Cleaner.' One weekend I was asked to be the medic in charge of a small hospital of nineteen patients. By the end of the weekend, sixteen of them had died." "What did you do? One look at you and they all decided their lives weren't worth living? Seriously?" "Yes, I'm that girl!" "Now when any hospital needs to move patients on – they know who to ask." "Yes, the cleaner!"' Articles used to be written on rags, which would be posted around the towns for people to read. They looked forward to their weekly rag. The book title includes 'Riches' because stories enrich our lives.
